

HOME DEMONSTRATION CORNER

EMILY BALLINGER, County Home Economics Agent

The home agent announces the following schedule:
Monday, May 30: Office.
Tuesday, May 31: There will be a foods and nutrition leaders' training school at 2:30 p. m. in the county agricultural building.

Wednesday, June 1: Church Home Demonstration Club will meet at 2:30 p. m. at the home of Mrs. C. M. Halthcock.

Thursday, June 2: Paschall Home Demonstration Club will meet at 2:30 p. m. at the home of Mrs. Albert Perkinson.

Friday, June 3: Embro Home Demonstration Club has been postponed to Wednesday, June 8 at 8:00 p. m. at the home of Mrs. Irene Short.

The County Dairy Princess Contest will be held at 8:00 p. m. at John Graham High School Auditorium.

It's strawberry time once again and haven't we been enjoying fresh strawberry short-

cake, ice cream and heaping bowls of fresh strawberries? Are you also thinking of the future and freezing some for use when they are out of season?

For freezing you may want to follow the following instructions. The varieties which are recommended for freezing are: Albritton, Massey, Premier, Tennessee Supreme, Tennessee Beauty, Blakemore.

Select firm, but fully ripe, deep-colored berries. Do not freeze un-ripe or over-ripe berries, except as puree. Never freeze green tipped or mushy berries. Wash berries in very cold water, preferably ice water. This helps keep berries firm and prevents injury to tender skin which holds flavor and juice of berry. It also cools berries, thus improving quality. Keep berries cool until frozen.

Chopped or Sliced: For short-cake topping, chopped or sliced

ed berries are best. Use 4-to-1 mix by weight. Pour sugar over berries. Cut sugar into them, and mix well by stirring. Pack and freeze. Some folks add a few whole berries to sliced or chopped product.

Whole: Use 4-to-1 or 5-to-1 mix by weight. Pour sugar over berries. Mix well. Pack and freeze.

Puree: For ice cream. Small berries or culls that are slightly under- or over-ripe are good when made into puree. Berries should be sound, never moldy or near spoilage. Put fruit through sieve or Foley mill. Mix 4-to-1 by weight with sugar. Freeze.

Real Gent
The drunk was sitting at the bar adjacent to a man and his wife. Suddenly the drunk came forth with a resounding burp.
"How dare you, sir. What do you mean by burping before my wife?"
With that the drunk unsteadily got off the bar stool and, making a sweeping bow, said:
"A thousand pardons, sir. I did not know it was the madam's turn."

There were about 12 million tractors on U.S. farms in 1958.

4-H'ers To Observe Second 4-H Church Sunday Program

The 4-H'ers of Warren County will observe their second 4-H Church Sunday program, Sunday, May 29, at the Coley Spring Baptist Church at 11:30 a. m.

In the 4-H program, the leaders feel that the spiritual development of the individual is essential to a full, well-rounded life of service to the community and to the nation. Therefore, it seems most appropriate that 4-H members set aside one Sunday during the year as 4-H Sunday. This Sunday is designed to:

- 1. To enable 4-H members to think together about home, community, and world events in spiritual terms.
- 2. To develop in 4-H mem-

bers a better understanding of the relationship that people of the soil have with God.

3. To provide 4-H members an opportunity to participate in a service that develops the Heart H.

4. To help 4-H members to demonstrate their loyalty and to realize their own responsibilities to the church of their choice.

5. To show 4-H members how their church can provide Christian fellowship, helpfulness, better understanding, a religious outlook, courage, and harmonious living.

With the above objectives in mind the 4-H County Council and 4-H Committee planned two 4-H Church Sunday programs to enable the 4-H'ers to attend the program of their choice.

The program planned for Sunday, May 29, at the Coley Spring Baptist Church will be headed completely by 4-H'ers. The main feature on the program will be talks by five 4-H members entitled "Life Dares Youth To Live." At the end of the talks, the Rev. O. B. Burson, pastor, will give a summary.

The program held on Sunday, May 8, at the Locust Grove Baptist Church, Wise, featured the Rev. L. R. McKnight, pastor of Ridgeway Baptist Church as guest speaker.

All 4-H'ers, leaders, parents and friends of 4-H'ers are urged to attend. May we expect you on Sunday, May 29, at 11:30 a. m., Coley Springs Baptist Church. Your presence will be greatly appreciated.

Alston Elected Head Fork Chapel Development Club

Albert Alston was elected president of the Fork Chapel Community Club at a recent meeting.

Rufus Alston was elected vice president; and Mrs. Octavia Williams was elected secretary and Miss Florine B. Williams, was named reporter. Several committees were also formed at this meeting. They are:

Program and Executive—Mrs. Ethel Alston, chairman; Miss Geneva Alston, co-chairman.

Agricultural—Henry Williams, chairman; Sandy T. Alston, co-chairman.

Community Improvement—Mrs. Eunice Alston, chairman; Job Davis, co-chairman.

Youth—Mrs. Rufus Alston, Jr., chairman; Mrs. Toye Alston, co-chairman.

Finance and Resource—Rufus Williams, chairman; Miss Ada Davis, co-chairman.

The club selected the time and place of regular club meetings: Tuesday after the first Sunday in each month at 7:30 p. m. at the Fork Chapel School. One of the club's major goals for the year is to purchase a recreation center for the community.

Seventeen members were present.—Miss Florine B. Williams, reporter.

Tobacco Field Plant Disease

Pythium Soft Rot is a fungus disease appearing in tobacco plants soon after setting. This disease is caused by a soil inhabiting fungus. In most cases, it is helped by the laborers when the plants are drawn from the tobacco bed. That is, the helpers bruise the base of the plant stem by squeezing the stem or by applying excessive pressure to the stem when pulling the plants from the tobacco bed. When this is done, the injured part of the stem becomes readily accessible to the disease. When the disease occurs, the base of the stem will become brown and soft; then begin to rot. Affected plants will die.

Sore Shin is very much like Pythium Soft Rot, only the plants will live until the base of stem becomes girdled—then the plant falls over and dies. Usually the top of the plant remains green until the plant's stem base is completely girdled.

Prevention is the only cure for the above mentioned diseases. Water beds so that plants can be drawn easily and don't damage plants in the transplanter by stepping close to base in packing the soil.

Always remember: Prevention is more worthy than cure!

Future Gold Mine

"We have twin calves, and both are heifers," beamed Mr. David Spruill and his son, Kenneth, of Grove Hill Community when showing them off to L. C. Cooper, Negro County Agricultural Agent.

The mother cow is a well-developed 5-gallon Jersey possessing all of the fine qualities of a model cow.

Kenneth has named the calves Molly and Polly and plans to raise them as base cows for starting their dairy herd. The Spruills are potential grade "C" milk producers. Corn Without Weeds And Cultivation

If seeing is believing—then visit the farm of Mr. Richard R. Davis, Floyd Knight, ten-

ant, located on the Louisville Road, and see for yourself—corn growing without weeds and cultivation.

This is one of the corn demonstrations using Zimazine W 80 pre-emergence weed control. No plowing will need to be done to this plot, and it will remain free of weeds and yet produce a normal crop of corn.

See Mr. Knight and Joe Watson for details.

Not So Dumb

The Army psychiatrist wanted to be sure that the newly enlisted rookie was perfectly normal. Suspiciously he said:

"What do you do for social life?"
"Oh," the man blushed, "just sit around mostly."
"Hmmm—never go out with girls?"
"Nope."
"Don't you even want to?"

The man was uneasy. "Well, yes, sort of."
"Then, why don't you?"
"My wife don't let me, sir."

"Terrible about old Harry getting married, isn't it?" said a railman to his friend.

"Why terrible?" inquired the friend.

"Well, he was such an easy guy to borrow money from."

Terry Sanford FRONT LINE FIGHTER for roads!

"Traffic on North Carolina highways has more than doubled in the last 15 years. It will continue to increase at a rapid rate. Our secondary road building and maintenance program has fallen far behind. Prompt, aggressive action and leadership are needed! North Carolina has more small towns and communities than perhaps any other state; new access roads must be planned and built. Good hard-surfaced roads are needed . . . to get our children safely to and from school . . . and workers to their jobs in nearby industries . . . to make markets more accessible for our large farm population.

"We should continue the present State-wide approach for primary and interstate roads, but

the secondary road program must be returned to the people. Our Highway Commission should be enlarged to 10-14 members who represent every area of the state, understand the local road problem, and have authority to do something about it. As taxpayers footing the bill, our people are entitled to a stronger voice in local road programs.

"Yes, this is an ambitious program. It has to be. It will require much time just to catch up. But I say, 'LET'S GET STARTED NOW!'"

DODGE DART

It's not surprising that Dart sales are soaring. Dart is so roomy and comfortable and quiet. Interiors are not just attractive, they're downright luxurious! And when you add Dart's low price and high economy (24.7 m.p.g. in this year's Mobilgas Economy Run), it's not surprising that the Dodge Dart is America's fastest growing low-price favorite!
