

Red Cross Appeals For Relief Funds

Richard R. Davis, 1960 Red Cross Fund Chairman, yesterday appealed to Warren County citizens to respond to the Red Cross appeal for funds for Chilean relief.

Davis was joined in his request by Mrs. A. D. Harris, executive secretary of the Warren County Chapter of the American Red Cross.

Red Cross societies all over the world are joining hands to help the people of Chile overcome their worst disaster in 25 years. Over one-third of Chile has been destroyed by earthquakes and floods and over two million are homeless.

Warren County's quota is \$216, which will be used solely for the relief of disaster victims of Chile. Citizens are asked to mail their donations promptly either to Davis or Mrs. Harris.

General Alfred M. Grunther, president of the American Red Cross, announced this week that Americans to date have given \$800,000 in cash and supplies to the American Red Cross for Chilean Relief. This does not include money raised separately or materials

Over 4000 Farms Are Being Checked

More than 4000 farms in Warren County will be measured this month under the direction of the ASC and the twenty trained field men employed by the ASC committee are already at work.

T. E. Watson, officer manager of the local ASC office, said yesterday that the work is progressing very well.

Among the more than 4000 already visited or to be visited by the field men are 1968 tobacco farms, 2142 cotton farms, 70 peanut farms, and 73 conservation reserve farms.

Watson said that it is hoped that measuring of these farms may be completed by June 30, and that with the cooperation of all farmers of the county, the ASC committee is sure that the work can be completed by that date.

Farmers are encouraged to help the reporters, Watson said, by assisting them when they visit the farm to make the necessary measurements and give them necessary information as required. Another big help the farmer can render is to show all deductions on pre-measured farms the same way as they were left by pre-measurement reporters.

Watson said that farm operators are responsible for reporting all fields planted in allotment crops. Reporters are instructed not to measure any crops on the farm until the farmer has finished planting. Reporters are also instructed to review all information re-

Highway Patrol Nabs 57 Traffic Law Violators

The State Highway Patrol during the four days of its selective enforcement program in the Henderson area, of which Warren County is a part, stopped a total of 978 vehicles and found 57 violations of traffic laws, Patrolman Bobby Clark of Norlina said yesterday.

Sgt. T. E. Cook, officer in command of the four-county district including Vance, Warren, Granville and Franklin, said that the purpose of the drive was designed to help reduce traffic accidents and injuries in exceptionally hazardous highway areas.

Selected areas of highways were patrolled during the four-day period, June 9-12, in a saturation method during high frequency accident hours and high frequency hazardous moving violation hours. Officers concentrated their attention at points, such as intersections, side road, hill crests, blind curves where violations are frequent.

Cook said that primary

Board Of Education To Resist Any Budget Cut; To Have Joint Meeting

Any cut in the Warren County school budget will be resisted by the entire board of education.

This was determined by all members of the board at their regular monthly meeting on Monday night after a rumor had reached them that a substantial cut might be made in the capital outlay fund by the board of county commissioners.

Faced with the need to raise funds to pay for revaluation ordered by the North Carolina Legislature and with rising requests from practically all agencies of the county, the board of commissioners decided that the most likely place to make a cut was in the school budget. The budget as submitted to the commissioners called for an increase in funds, but for no increase in the tax rate.

On Thursday of next week, the commissioners will meet again to give further study to the county budget for the 1960-61 fiscal year. At that time Supt. Roger Peeler and all members of the board will be present to present the school's side of the budget.

In other action at the relatively short meeting of the board of education on Monday night, the members approved a contract with Walker Insurance Agency to write insurance for school children for the next fiscal year. Under this contract Negro children

Methodist Church At Norlina To Be Station

The Norlina Methodist Church, for many years a member of the Norlina Charge with Zion and Jerusalem churches, will become a station at the beginning of the new church year.

Bishop Garber has approved the division of the Norlina Charge, as agreed upon at a meeting of the quarterly conference last week, according to Graham E. Eubanks, district superintendent.

This information was conveyed in a letter to Leon Knight, Lay Leader, from the Rev. Mr. Eubanks, under date of June 13.

Superintendent Eubanks wrote Knight in part as follows:

"This is to inform you and your congregation that Bishop Garber has approved the division of the Norlina Charge, as agreed upon at the Quarterly Conference last Thursday evening.

"I believe that one of the outstanding achievements of

Town's Financial Shape Appears To Be Excellent

The Town of Warrenton is apparently in good financial shape.

Commissioner A. C. Blalock, chairman of the finance committee of the board of town commissioners, said that indications are that income for the fiscal year 1959-60 would be \$68,000, four thousand dollars more than the estimated income when the budget was prepared last year.

Blalock said that figures covering 11 months of the present fiscal year also indicate that all departments have stayed well within their income.

Just how much surplus the town will have at the end of the present year, will depend on the amount of payment to be made to the Bute Development Company as a refund for money advanced for the laying of a water main to the Carolina Sportwear factory. Figures of \$1,000 and \$2,000 were both mentioned, but the commissioners decided to wait until the end of the fiscal year before making any donation for this purpose.

Blalock also asked that com-

Seining To Be Permitted During July And August

Seining will be permitted in Fishing Creek in Warren County for the months of July and August for game fish only, Alton Pridgen, Wildlife Protector, said yesterday.

Each person participating in the seining must have in his possession a valid special fishing permit. These may be obtained at the Clerk of Court's office in Warrenton or from Alton Pridgen, Warren County Wildlife Protector.

Pridgen also said that a number of streams and ponds in Warren County have recently been stocked with bass and other game fish. Among these was Rider's Pond, whose dam has recently been repaired. Pridgen said this should give the pond a balanced stand of fish life.

Ten thousand smallmouth bass, averaging an inch in length, have been released in the waters of Shocco Creek, Fishing Creek, Walker Creek, Rider's Mill Pond, and the Duck Pond at Ridgeway.

These fish were produced at the State Fish Hatchery located near Fayetteville and were released in Warren County streams by Pridgen.

Wheat Cards Will Be Mailed Today; Use Necessary

1960 wheat marketing cards have been prepared and will be mailed to producers today (Friday), T. E. Watson, ASC office manager, announced yesterday.

Watson said it is necessary for producers to have a marketing card in order to market wheat or exchange wheat for flour. Buyers are instructed not to accept any wheat not identified by a marketing card as the buyers are required to keep records of all wheat purchasers.

Producers are advised, Watson said, to be on the lookout for their card in the mail and to be extra careful not to misplace their cards because the regulation requires a three-day waiting period prior to the issuance of a duplicate card.

Mrs. W. C. Williams of Maccon visited her husband in Veterans Hospital, Fayetteville, recently.
