Farm Income Estimated To Be \$10.6 Millions

By FRANK W. REAMS County Agricultural Agent

Careful estimates plus actual figures disclose the 1961 total sales of farm product in Warren County to be \$10,622,144.93.

This compares to the 1960 sales of \$10,843,579.63; and the 1959 sales of \$9,144,655.42.

NEMATODES

We keep talking about nematodes, but why not? They are our greatest crop enemy.

12 of the most commonly planted flue-cured varieties, plus five new varieties that will be offered for planting for the first time in 1962.

Results of these tests are not to be taken as official recommendations.

Included in the tests this year were Hicks Broadleaf, Vesta 5, NC 95, Coker 316, Coker 187-Hicks, Coker 128, McNair H-2, McNair 10, Speight 31, NC 75 and Reams 51.

In addition, there were the five new varieties: McNair 12, Reams 64, Coker 80F, Speight G-3 and Speight G-10.

GARDEN TIME M.E. Gardner N.C. State College

A delightful letter was received this week from a lady reader in Ashe County.

Her chief interest right now is the coleus, so here goes. This plant is one of the most useful of all colored foliage plants especially for bedding.

Probably the most used is the well-known small leaved class of which there are numerous named varieties which are propagated from cuttings.

Jonas Carr Williams and Pattie Jones Williams. She had lived in the Rocky Mount vicinity for approximately 50 years and was a member of the First Methodist Church.

Surviving are one son, M. S. Tharrington of Battleboro; one daughter, Mrs. W. V. Wahmann of Montgomery, Ala.; one sister, Mrs. George Wheelless of Rocky Mount; three brothers, M. P. J. Williams of Rocky Mount, F. Graham Williams of Atlanta, Ga., and Harry M. Williams of Warrenton; two half-sisters, Mrs. J. B. Williams and Mrs. B. G. Tharrington of Warrenton; four grandchildren, and four great-grandchildren.

In recent years, about one-half the barley produced in the United States has gone into livestock feeding; about one-fourth into exports.

Among these are: Red, Pink and Scarlet Rainbow, Pastel, Velvet and Golden Rainbow and Candidum. The third class is known as Giant Exhibition and is distinguished by its extra large leaves. It is taller growing and does not branch as freely as the Rainbow type, but when well grown, leaves over a foot across are not uncommon.

annual from seed, or, as a perennial if you are equipped to provide temperature requirements of around 65-70 degrees during the winter. If used as a perennial, cuttings may be made from stock plants and easily rooted in clean coarse sand which should be kept moist, not too wet, at all times.
