## J. G. Students Take National Scholarship Test

Eighteen students at John Graham High School took the 1962 National Merit Scholarship Qualifying Test, T. J. Brown, principal, announced this week.

The test was administered at the school at 9 a. m. on Tuesday of last week. All students who wish to be considered for Merit Scholarships to be awarded in 1963 took the test at that time.

The qualifying test is a three-hour examination of educational development. The test is the first step in the eighth annual competition for four-year Merit Scholarships provided by the National Merit Scholarship Corporation and by sponsoring corporations, foundations, associations, unions, and individuals.

The number of scholarships awarded in any year depends upon the extent of sponsor participation. In 1961, 945 Merit Scholarships were awarded; 536 were provided by 133 sponsors and 389 by the Merit Corporation. There are 3275 Merit Scholars attending 403 colleges in the current academic year.

The test scores of students who are examined in March will be reported to their schools by May 15. The scores are used by class advisors in many high schools to help students make decisions about college attendance and field of study. Many students who do not expect to win a scholarship take the test in order to learn more about their individual strengths and weaknesses in the areas measured by the test.

Some 10,000 semifinalists, the highest scores in each state, will be named early next fall. An additional 25,000 students, selected on a national basis, receive letters of commendation for their high performance on the qualifying test.

Each semifinalist will be asked to take a second examination. Those who repeat their

high performance will become finalists in the Merit program. Winners of Merit Scholarships will be selected from the finalist group on the basis of school records and recommendations, test scores, extracurricular activities, leadership ability, and accomplishments outside the classroom. Each finalist is awarded a certificate of merit attesting to his outstanding performance.

The scholarship stipends are based on financial need. The minimum award is \$100 and the maximum is \$1500. The average stipend awarded to freshman Merit Scholars in 1961 was \$847. Each scholarship constitutes a form of educational insurance, since the stipend may be increased at any time if the student's financial situation changes during the four-year term of the scholarships.

Supplementary grants are usually made to the colleges that the scholars attend.

John Graham students taking the tests were Billy Rogers, Peggy Norwood, Sandra Jones, Becky Ellis, Lawrence Boyd, Robert Wells, Benson Aycoc, Larry Hayes, Fred Hurst, Joyce Gupton, Donna Gottschalk, Jean Reavis, Virginia Robertson, Harriet Cheek, Zelma Clark, Tommy Twitty, Bill Perry, Al Fleming.
