

**Agriculturally Speaking**

# Machinery Field Day Discussed By Agent

By FRANK W. REAMS, County Agricultural Agent

**Coming Events**

March 28: Warren County Forestry Club Tour.

March 29: Public meeting in courthouse, Warrenton, to explain proposed sub-division and zoning regulations—7:30 p. m.

March 30: Final date for 1962 Feed Grain Program sign-up.

April 1: Final ASCS date for leasing and transferring 1962 tobacco acreage.

April 15: Last date to apply for State Gasoline Tax refund.

April 23-25: Artificial Breeding Short Course, State College.

tractor might place you in difficulty with your creditor. When we get into high powered ways of doing things we must be more careful with our pencil.

**Fast Tobacco Plants**

Several persons are interested in growing tobacco plants under plastic. This is a good year to experiment since the seasons are rather late. We have some advice and literature on the subject, so if slightly interested contact this office.

**Busy People**

I have never seen people so anxious to get down to hard work. We had a beautiful fall, a real rough winter—let's hope the weather man has an excellent spring lined up. Normally, one extreme follows another. If this should happen, don't forget to apply a little water to those young tobacco plants. If fertilizer was applied prior to all this rain, you may need to apply a few pounds of nitrogen per hundred yards to take care of those raving appetites.

## HOME DEMONSTRATION CORNER

EMILY BALLINGER, County Home Economics Agent  
ANN RACKLEY, Asst. Home Economics Agent

The home agents announce the following schedules:

Monday, March 26: The Epworth-Enterprise Community Club will meet at 7:30 p. m. at the community building.

Tuesday, March 27: Office.

Wednesday, March 28: Drewry Home Demonstration Club will meet at 2:00 p. m. at the home of Mrs. Henry W. Seaman.

Thursday, March 29: Office.

Friday, March 30: Office.

### FASHION TRENDS FOR SPRING 1962

"The Feminine figure has returned! Silhouettes for Spring are beautifully shaped and show more realistic styling than for several years.

"After many seasons of understated simplicity, it is inevitable that the pendulum should swing over to the other extreme. Designers have accepted with enthusiasm the opportunity to define the feminine form once more and create a completely new fashion image.

"The shape is no longer straight, it moves, flows and sways. Fit is achieved through seaming and the feeling for movement is revealed in the use of ruffles, panels and flares.

"There is a new sense of freedom in the designs; there

are many shapes, not just one. Never is the figure concealed, clinging fabrics and clever seaming are shape revealing. There is a definite movement to flatter the bustline, achieved by high riding belts, shaped insets or well-placed darts. Bloused backs, draped backs, swinging jackets and capelets add movement to slim dresses. Many necklines are cowl or ruffled on some of the softer line dresses. Skirts can be flared or pleated, inset with godlets or flowing with panels or gores. Straight skirts are still to be seen softened through the waist with fullness. Though skirts are short, they should be worn at a length becoming to the wearer.

"Daytime dresses, coats and suits remain simple—beautifully tailored, achieving feminine

**FOR THE BEST FURNITURE VALUES IN TOWN SEE US SATTERWHITES HENDERSON, N. C.**

appeal through body conscious shaping and lifting of the bustline. Details soften their severity; lingerie touches on the

collar of a dress, chiffon shirring edging a cardigan jacket, jabots on a blouse beneath a suit, important buttons or

braid trimming a coat."

Mrs. Sam Weldon and Mrs. Ruby Holloway were overnight

guests of relatives in Essex on Friday. Mrs. Holloway is now visiting relatives in Norfolk and Portsmouth, Va.

Mr. and Mrs. B. E. Smiley and family of Winston-Salem were here this week due to the death of Mr. J. L. Smiley.
