Library News

By The Librarian

Realizing reading is a basic knowledge and the key to good living, the Norlina Public Library wants to emphasize and give your family every opportunity to read good books. The public library has been named the "People's University," so you will avail yourself of the knowledge found there.

In observance of National Library Week many activities were sponsored. Among these were:

The Norlina Literature and Music Club gave a coffee hour on Thursday, April 12, from 2:30 to 4:00 p. m. at the Library.

Phil Perkinson had a very interesting collection and exhibit of relics and data on the North Carolina Indians.

Sandra Stokes' science project of Amphibianus and an Easter story were presented.

Leon and Lucile Knight displayed a collection of stones and rocks, mostly found in Eastern North Carolina.

The Easter season was emphasized in a display of arts flowers and Biblical books. The 3rd, 4th and 5th grades—one each day—were invited from the Norlina school.

There was a circulation of more than 200 books during that week.

Book donations were up.

Mrs. Kathryn Baum of New Jersey donated 126 books to the library. Mr. and Mrs. J. Roy Overby presented to the library "The Beloved Son," as a memorial to Mr. W. H. Perkinson. Fred Bobbitt, Jr., of St. Petersburg, Fla., donated a Bible to the library.

In addition, money was given to the Paint Fund; and Carolina Power and Light Company and Mrs. Leta Leigh Baum each donated \$10.00 to the library.

Thanks to all that made, we feel, a very successful emphasis on National Library Week.

We were also honored by out-of-town guests, Miss Georgia Tarwater from the Warren County Memorial Library, and Mrs. Duke, Bookmobile Librarian, who visits us every two weeks.

MH-30 halts tobacco suckers —increases yield up to 20%

Sprayed correctly at full-flower stage, MH-30 prevents sucker growth to produce higher quality tobacco. And because remarkable MH-30 retards sucker growth chemically, it cuts the cost and labor of hand suckering tobacco.

More and more growers are producing higher yields of quality tobacco, some as high as 20%, as they eliminate back-breaking hand labor with MH-30 and increase profits. Isn't it time you tried it?
