# Why The County Board Of Education Supports A Bond Issue For Negro Schoolhouse Construction

A. We believe in "seperate, but equal," schools for the races; and although much progress has been made in our Negro schools during the past 10 years, a gross inequality still exists in the operation of nine small Negro schools which are housed in old frame buildings, use "pot bellied" stoves, outdoor water pumps and privies. Several of these schools have three grades per teacher; one school has four grades for one teacher. The boycott of the Snow Hill School last fall and the subsequent transfer of the pupils to the Hawkins School caused an overcrowded situation there. No further transfer of pupils to Hawkins is possible.

The Haliwa School is a 10-teacher school housed in a frame building of very poor construction. It has "pot bellied" stoves and outdoor type privies. All classrooms are sub-standard in size and are overcrowded. The Board of Education leases the Haliwa School property from the Haliwa Indian Club.

The nine small Negro schools are as follows:

School	No. Grades	No. Teachers	No. Pupils
Afton	1-6	2	52
Axtell Sp.	1-6	2	47
Bethlehem	1-4	1	32
Burchett Chp.	1-5	3	76
Coley Sp.	1-7	3	102
Cool Sp.	1-7	3	85
Hecks Grove	1-8	5	163
Mayflower	1-6	2	80
Stoney Lawn	1-7	3	99

The Health Department has informed us that all but one of the wells are contaminated. If they are to be used in the future expenditures of considerable extent will have to be made.

B. The County Board of Education proposes to use the proceeds of the bonds in the following manner:

- To build an elementary school in the southern section of the county to consolidate Afton, Axtell Sp., Coley Springs, Cool Springs, Mayflower and Stoney Lawn Schools. This new school would cost approximately \$200,000.
- To add four or five classrooms to the Northside School to consolidate Burchett Chapel School. This addition would cost \$40,000 to \$50,000. (The two mobile classrooms now located at Northside would probably be moved to Hawkins to alleviate a crowded condition.)
- To build a new school in the Bethlehem section of the county to serve the Haliwas. Halifax County would be expected to share in the cost of building this school, since approximately half of the Haliwa pupils reside in Halifax County. The cost to Warren County would be approximately \$150,000.

The foregoing proposals are subject to a study of population trends, as well as a detailed survey by the Division of Schoolhouse Planning of the State Department of Public Instruction.

The Board of Education proposes to continue the operation of the Hecks Grove School, the best of the small schools, until it can be determined that the Negro school population in the southern part of the county is not on the decrease. The Hecks Grove School, would, therefore, serve as a "buffer" against any possible "overbuilding."

C. The bonds could be retired without an increase in the tax rate.

The Board of County Commissioners is now levying 19c on the one hundred dollar valuation for a Capital Outlay (building) Reserve Fund. The Board of Education has recommended that this amount (approximately \$35,000 annually) be used to retire the bonds. The pay-as-you-go policy has been tried; it will not meet our immediate needs without a considerable increase in the tax rate.

D. The Board of Education is on record as being opposed to Federal Aid to Education. The Board believes that adequate school financing can be accomplished at the local and state levels and that the control of the schools should rest with those close to the people.
