22.8 million alumni reflect 4-H Club growth

In tribute to the 23 million 4-H alumni throughout the United States, hundreds of prominent citizens who continue to live by the 4-H pledge are being honored. One event at Chicago, Nov. 28, will salute four of the nation's outstanding men and four women who will receive the gold alumni key award. The presentation will be made during the 10th annual 4-H alumni banquet sponsored by the Olin Mathieson Chemical Corporation, Chemicals Division-Agricultural of Little Rock, Ark.

4-H Clubs Have Largest Alumni

Former 4-H Club members today number nearly 23 million, the largest alumni of any co-educational youth organization in the world. And the number will increase as present 4-H boys and girls reach their 21st birthday.

Up until the past decade, most 4-H members were sons and daughters of farm families, or lived in small rural communities. By 1970, due to the shift of farm population, it is predicted that the larger percentage of 4-H membership will be non-farm youth.

Consequently more former 4-H members will be filling alumni key award has been

presented to 80 prominent men and women from 35 states. They are engaged in occupations ranging from homemaker to astronaut. Several thousand persons have received county and state awards.

Candidates for awards can be nominated by anyone. Nomination forms and further information are available at the county extension office.

A judging committee selects two individuals in the county who best measure up to standards set for meriting county certificates. From all those receiving county recognition, as many as four can be chosen for state honors. The winners receive a handsome, engraved, burnished copper and walnut plaque.

Eight national award recipients are invited to Chicago to attend the National 4-H Club Congress as guests of Olin Mathieson. Each is presented with the 4-H alumni key during the annual alumni banquet attended by 500 national and state 4-H leaders, educators, business officials and friends of 4-H.
