Wheat Program For '63 Outlined By Director

Wheat diversion and additional price-support payments are new features of the 1963 wheat stabilization program, A. P. Hassell, Jr., Executive Director for the Agricultural Stabilization and Conservation State Committee, said Thursday.

These payments were provided by the new farm law, signed by President Kennedy on September 27. They supplement the marketing quotas and supports previously in effect for the 1963 wheat crop.

Hassell explained that the diversion payments will be similar to payments made under the 1962 wheat stabilization program. They will be available to growers who reduce their wheat acreage by at least 20 percent and who devote the diverted acres to an approved conservation use. The payment will be based on the farm's established wheat yield and one-half the county price-support loan rate.

In addition, a price-support payment of 18 cents a bushel on the normal production (established yield) of the 1963 wheat acreage will be available to growers who participate in the wheat-diversion part of the program. Small farms must also be in compliance with their farm acreage allotments in order to be eligible for price support loans or purchase agreements and the 18-cent price support payment.

Hassell pointed out that the regular price-support is available on the 1963-crop

Joy Lyn Daniel Wins Bicycle In Television Contest

Joy Lyn Daniel, eight-year-old daughter of Postmaster Leonard S. Daniel and Mrs. Daniel, is the proud owner of a new streamlined, twenty-four inch J. C. Higgins bicycle which she won as first prize in a contest conducted by WRAL-TV of Raleigh.

Cards from hundreds of children from this section of the state were sent to "Space Harbor," a children's program, giving a guess as to what the "Treasure Locker" might contain. Joy Lyn gave the lucky guess and happened to be watching when her name was announced on television as the winner. Many of her friends called her at the time to be sure she had heard of her good fortune. Her bicycle was delivered by a representative of WRAL-TV. Her father was heard to remark that Santa would be saved a trip.

Joy Lyn is not the only one in her family to win a bicycle. Her brother, Phil, also won a bicycle in a contest conducted by the local theater.

wheat which a grower produces in compliance with his farm allotment and puts under loan or purchase agreement. The 18-cent payment, on the other hand, is made to such a grower—who is also participating in the wheat diversion program—on the normal yield of the 1963 wheat acreage, no matter how much he actually produces.
