Thursday, June 13: Enterprise and Shaw Springs Home Demonstration Clubs have been postponed.

Warren Plains Community 4-H Club will meet at 8 p. m. at Warren Plains Baptist Church.

Friday, June 14: Johnston Home Demonstration Club will meet at 8 p. m. at the home of Mrs. Eugene Spragins.

Reminder: **June 17-21** Homemakers' Week at N. C. State College, Raleigh.

June being Dairy Month much emphasis is being placed on using milk and milk products in the diet. Milk being our most nearly perfect food, we should make a special effort to include the amount recommended by nutritionists in the diet each day. Adults need 2 cups and children need 4 cups daily.

The following recipe is one you may wish to use in including more dairy foods in your menu:

PINEAPPLE CHEESE MOLD

Perfect For Buffets

Pineapple tidbits combine wonderfully with cottage cheese and cream cheese to make this molded salad a delight to the palate as well as to the eye. Add salted nuts for crisp texture interest and whipped cream for fluffy richness. Colorful canned pineapple slices, spiced crab-apple and grapefruit sections are its crowning glory.

Allow plenty of time for chilling so salad will hold its shape well. Since it's plenty rich with cream and cream cheese, dressing is not necessary.

PINEAPPLE CHEESE BUFFET MOLD

- 1 (8-ounce) package cream cheese
- 2 cups small curd cottage cheese
- 1 envelope unflavored gelatin
- 1/4 cup cold water
- 1 (1-pound 4 1/2-ounce) can pineapple tidbits
- 3/4 cup snipped chives (optional)
- 1 cup whipping cream
- Salad greens
- Pineapple slices
- Spiced crabapples
- Grapefruit sections

Softened cream cheese and blend until smooth. Combine with cottage cheese. Soften gelatin in cold water in small measuring cup. Set cup in hot water until gelatin melts. Stir into cheese. Add well drained pineapple, salted nuts and chives. Whip cream and fold into mixture. Turn into 6-cup mold. Chill at least 4 to 6 hours or overnight. Unmold on large salad plate and surround with salad greens and chilled fruits. If dressing is desired, thin mayonnaise with a little pineapple syrup. Makes 8 servings.

Thursday, June 13: 7:30 p. m. Oine Community Development Unit will hold its monthly meeting.

7:30 p. m. Pine Grove Community Development Unit will hold its monthly meeting.

How To Postpone Defrosting Freezer

Tired of defrosting your freezer? There are some things you can do to cut down on the number of times

you have to defrost your freezer. These things are worth knowing—and doing.

1. Open the freezer seldom. The more you open your freezer the more frost collects in it. This is especially important in the summer, because air is more moist then, unless your freezer is in a humidity controlled place.

2. See that the food you freeze or store goes into your freezer in good, well closed frozen-food containers or wrapped right in good frozen-food packaging material. If you do this, moisture from the food will not seep through the packages and settle as frost on your freezer.

3. Be sure that the gasket on the door or lid fits. If the gasket does not fit, the freezer may not be level, the door hinges or latches may need adjusting. If you do have a gasket that does not fit, black mold may form on and around it. To remove this, apply 50% of solutions of household bleach with a toothbrush. Thoroughly rinse with clear water and wipe dry.

4. Scrape the frost off occasionally with a scraper made for the purpose or with a blunt tool. (Never use anything with a sharp edge.)

Even with all your thoughtful care, the time will come to defrost and clean the freezer inside. This time comes when frost about 1/2 inch thick (no thicker) covers a large area of refrigerated surface.

How many Christmas trees would you guess are sold each year in North Carolina? Best estimate is that around one million trees, with a retail value of \$1 1/2 million, are sold each year. As the population increases, the number of Christmas trees will go up.

State College forestry specialists say only about 20 per cent of these trees are grown in the State—the rest come from Nova Scotia and Canada.

Why not grow more of them here? We have the land, the climate is right, we are close to large cities, our transportation systems are excellent, and a variety of trees will grow over the State. We could grow not only our own, but more.

Species that will grow in the Coastal Plains are red cedar, Scotch pine, and Arizona cypress.

In the Piedmont or Warren County area, red cedar, white pine, Norway spruce and Scotch pine do well. Top species in the mountains are Fraser fir, white pine, Norway spruce, and Douglas fir.

The Agricultural Extension Service at State College has recently issued a new circular titled "Growing and Mar-

Miss Patterson Weds William D. Alston

In a double ring ceremony performed by the Rev. Troy Barrett in Wesley Memorial Methodist Church on Sunday afternoon, June 2, at three o'clock, Miss Etta Mae Patterson became the bride of William D. Alston of Littleton.

The bride is the daughter of Mr. and Mrs. Elmus Read Patterson of Warrenton and the bridegroom is the son of Mr. and Mrs. D. H. Alston of Littleton. White mixed flowers and greenery were used as decorations.

Mrs. John Cole Burwell presented a program of nuptial music and Mrs. Jimmy Roberts sang, "I Love You Truly."

The bride, given in marriage by her father, wore a street length nylon dress over taffeta with lace bodice and bolero jacket. Her veil of illusion was trimmed in matching lace. She carried a Prayer Book, topped with a white orchid and showered with ribbons and stephanotis.

Miss Frances Neal, maid of honor, wore a dress of light blue nylon over taffeta with

butterfly petals on the skirt and a short veil of matching illusion. She held a nosegay of yellow mums.

James Alston served his brother as best man. Ushers were Ralph Paynter, brother-in-law of the bride, and J. R. Harris, cousin of the groom.

Mrs. Patterson chose for her daughter's wedding a pink dress with matching accessories and a corsage of white carnations. Mrs. Alston wore a dress of light blue with white accessories and a corsage of white carnations.

The couple received in the vestibule of the church. Mrs. Troy Barrett was mistress of ceremonies.

The bride attended John Graham High School and holds a position in Rose's Stores here. The bridegroom is a graduate of Littleton High School and is a farmer. They will reside in Littleton.

For travel the bride changed to a light blue deacon dress with white accessories and the orchid lifted from her bridal bouquet.

Miss Bair, Ellis L. Aycock Wed Saturday

Miss Anna Elizabeth Bair and Ellis Lewis Aycock were united in marriage in Winston-Salem on Saturday, June 1, at 12 noon. A wedding breakfast followed the ceremony at the Forsyth Country Club.

The bride is the daughter of Dr. and Mrs. Clifford Edwin Bair of 2211 Buena Vista Road, Winston-Salem and the bridegroom is the son of Mrs. C. Lee Strom of Charleston,

S. C., and the late W. R. Aycock.

The bride made her debut at the annual Winston-Salem Debutante Ball in 1958. She attended Randolph-Macon Woman's College and was graduated from the University of North Carolina, where she was a member of Pi Beta Phi sorority.

The bridegroom attended the Citadel and was graduated from Wake Forest College in 1961, where he was a member of Pi Kappa Alpha fraternity. He is now a law student at Wake Forest College.

After a wedding trip to Nassau, the couple will reside in Winston-Salem.

Mr. Aycock is the grandson of Mrs. Delia F. Aycock of Elberon.

Elberon News

Mrs. Delia Aycock and Mrs. Junious Aycock visited Mrs. Mary Abbott in Maria Parham Hospital, Henderson, on Thursday.

Miss Sandra Ayscue visited Miss Rachel Long on Sunday. Miss Long returned home with her for an overnight

Monza Spyder Convertible

Monza Spyder Club Coupe

Come hill... or high water Vacations go smoother in a Chevrolet Corvair

Bring on those mountains! They're not so high and mighty when you've got Corvair's gummy six and rear-engine traction working on them.

You scurry up the meanest grades. You move with sure-footed agility on wet pavement, muddy lanes, gravel and other would-be miseries.

And with most of Corvair's weight on the rear wheels, you have easy steering, too. Fact is, the handling's so light and responsive we don't even offer power steering for the car.

And there's more to feel good about. No problems with your radiator boiling

over or going dry, because there's no radiator. Corvair's engine is air cooled. No concern about brake adjustments, either, because the brakes adjust themselves. Nothing much to think about at all except the good time you're having.

Like to do that in a sporty bucket-seated Monza Club Coupe or Convertible? Like to spring into summer with a 4-speed stick shift* and Spyder package* with its 150-hp Turbocharged engine? Your dealer's got just the Corvair and the Trade 'N' Travel deal on it to put you in a holiday mood.
