Second Oral Polio Clinic To Be Held On Sunday

Clinics To Be Held At 3 Stations

The second in a series of three polio clinics will be held at three stations in Warren County Sunday.

Clinics will be held at the Health Center in Warrenton, at the Woman's Club House in Norlina and at the Afton-Elberon schoolhouse, beginning at noon and lasting until 5 o'clock.

Nearly 11,000 doses of the vaccine were given in the first of the three clinics held on March 22, and in addition numbers of citizens who missed the clinic took the vaccine at the Health Center during the week following the clinic. However, the vaccine will be available for only one day at the Health Center for the benefit of those unavoidably prevented from reaching the clinics Sunday, Dr. R. S. Cline, clinic director said yesterday.

The clinics are sponsored by the Warren County Medical Society in cooperation with the State Board of Health. Assistant Dr. Cline are other physicians of the county, pharmacists, nurses, and scores of volunteer workers.

Dr. Cline expressed his gratification at the number of persons who attended the first clinic which he said was highly successful. However, he expressed his disappointment at the number of those who failed to make a payment of 25¢ for the dose received, which was counted upon to pay the cost of the vaccine and other incidental expenses. Dr. Cline said yesterday that persons who are able to do so are expected to pay this small fee, but stressed the fact that no one would be refused the vaccine because of lack of funds.

Persons who took the first doses of the oral vaccine are asked to bring their registration cards to the clinics for the second dose. All those who attended the first clinic are urged to attend the clinic Sunday and the third and final clinic on May 17 because protection against the three types of polio are essential, Dr. Cline said. He said that he hoped that those who missed the first clinics would attend the other two clinics as protection against at least two of the types of polio would be given.

Dr. Cline again pointed out that the vaccine is given on sugar and is not unpleasant to take and that no ill effects follow.

Under bond the defendants will be given later hearings.

Social Security Payments In Warren County Over Million

With approximately one out of nine persons in Warren County receiving a monthly social security check, dollar benefits to Warren citizens now total more than \$1,080,000 a year, according to figures released this week by John H. Ingle, Raleigh social security district manager.

Ingle's report listed the number of Warren County beneficiaries as 2,087 at the end of 1963, an increase of 107 over the corresponding figure at the beginning of 1963.

Retired workers are the largest single group of social security beneficiaries in the county. There are 984 in this group and their old-age insurance benefits total \$85,807

monthly. Other groups, the number of beneficiaries and the amounts of monthly payments respectively, are as follows: Wife or husband, 361, \$8,992; widow or widower, 157, \$7,898; mothers and children \$29, \$13,877; disabled workers, 52, \$3,717.

In releasing the figures, Ingle pointed out that the social security benefits are important to the community as well as to the people who receive them. "It is a fact," he said "that almost every dollar of social security benefits coming into the County is spent each month in local businesses for food, clothing, shelter, and other essentials.
