

Warren County Sells \$400,000 Worth Of \$5,000 School Bonds

Warren County school bonds in the amount of \$400,000 have been sold at an interest rate ranging from 3% to 6%, it was revealed at a meeting of the Board of County Commissioners here Tuesday.

The bulk of the bonds will bear the 3% interest rate.

In a resolution passed by the commissioners during the afternoon session, it was resolved that the bonds shall consist of 80 bonds of the denomination of \$5,000 each, numbered from 1 to 80, inclusive, in order of their maturity, and that the bonds shall bear interest as follows:

- (1) The bonds numbered from 1 to 3, inclusive, 6% interest;
- (2) the bonds numbered from 4 to 6, inclusive, 4 1/4% interest;
- (3) the bonds numbered from 7 to 48, inclusive, 4% interest;
- (4) the bonds numbered from 49 to 80, inclusive, 3 1/4% interest.

All members were present at the morning session but Commissioner John Wilson was absent during the afternoon session when the bond resolution was unanimously adopted by all the commissioners present.

During the morning session W. G. Sykes of Roanoke Township appeared before the Commissioners asking that his place of business near the Northampton County be given police protection, particularly during the weekend. He was asked to take the matter up with Sheriff Jim Hundley, who was in court at the time.

Sheriff Hundley said later at the afternoon session that his deputies were usually in that vicinity during the weekend and that if Sykes would swear out warrants against any troublemakers that they would be promptly arrested. It is not possible to keep an officer at each trouble spot in the county, Hundley said, but most of the trouble in three recreation places had been ended by the owners swearing out warrants, but this procedure is unusual. It is about the only way to end trouble in these areas, he added.

Sheriff Hundley also told the commissioners that he had no intention at the present time of dispensing with the services of Deputy Sheriff Dorsey Capps, under fire from a group of

Negroes who charged the deputy with police brutality.

Tuesday morning the board studied a petition bearing the names of 347 Negroes charging Capps with brutality and asking for his dismissal. The petition stated that "there is much concern over the acts of inefficiency and acts of brutality practiced by a certain person within the Sheriff's Department which you head." In a second paragraph it named Deputy Sheriff Capps as the officer about which the complaint was being made.

The complaint grew out of the arrest several weeks ago of Harry Russell when Capps used a blackjack in the arrest. He

was tried in Recorder's Court following the arrest and after Russell had been hospitalized and was found not guilty.

Hundley said that there appears that Russell suffered no permanent injuries as a result of the blow and there was no proof that Capps used more force than was necessary. Hundley said that he tried to treat every citizen of the county fairly and that he was not going to be stamped into action by any pressure groups either white or colored.

The petition was signed by a number of persons more than one time, and Hundley said that he thought that there were actually about 325 persons signing the petition.

TB Mobile Clinics May Be Last Held Here

The Free Chest X-Ray clinics sponsored by the Warren County Health Department, the Warren County TB and Health Association and the State Board of Health this fall will probably be the last clinics of this nature to be held in Warren County, Dr. Robert F. Young Health Officer, told the Board of County Commissioners Monday.

Mobile units will be in the county from Sept. 29 through Oct. 24 to give free chest examinations to all persons of the county from 15 years old and up. Dr. Young said that previous appearance of the mobile units here had been very effective.

The primary purpose of the clinics, Dr. Young said, is to discover tuberculosis, and a secondary purpose is to discover lung cancer. In addition abnormal conditions of the heart and other places in the chest are often revealed.

Dr. Young said that State and Federal funds for this type of work have been greatly reduced and in all probability no more such clinics will be held in Warren County. He said that we are very fortunate to have the clinics this year, and the only reason we will have it is

that another county withdrew its request for the program.

Southern Rhodesia Ranks 2nd To U. S.

Long recognized as one of the giants in the tobacco world, Southern Rhodesia has inherited from the new-defunct Federation of Rhodesia and Nyasaland the title of world's second largest tobacco producer and exporter.

It also remains the United States' strongest competitor in the international tobacco market, according to the U. S. Department of Agriculture's Foreign Agriculture Service.

Rhodesian farmers began to grow tobacco about 70 years ago, and by World War II exports were averaging 33 million pounds a year compared to the United States' 421 million.

Eleven grants totaling nearly \$22,000 have been awarded by the Southern Forest Disease and Insect Research Council to a group of universities in the South to aid in a 1964-65 program of studies aimed at developing new and better methods for combatting enemies of the forest.

LITTLETON NEWS

Mr. and Mrs. Irvin Harris and daughter, Vada Jean, were Sunday visitors of his parents Mr. and Mrs. Clarence Harris, near Arcola.

Edwin Stansbury accompanied his son, Pfc. Stansbury, Jr., to Rocky Mount Sunday night. He returned to Cherry

Point Marine Corp by way of bus.

THE PLATFORM
So many disarmament plans are like the fancy recipes in the women's magazines. They sound wonderful until you start analyzing the ingredients.

An oldster explained to his wife why he felt need of alcoholic comfort. "It's because I see nearly every day in the paper where some old friend has passed on."

"Well, you won't have that excuse much longer," she mused. "You've about mourned them down to zero."

"That's so," he agreed, "but I've still got a gang of enemies worth celebratin'."

ABOUT THIS QUESTION:

"I often read about car thefts but it never struck home. Last night it was my car. Unless it shows up, I'll be out \$2400. Is it true that about \$10 would have bought theft, fire and glass breakage protection for a full year?"
