A Disgraceful Act

Bill Jones, 21, afree-lance photographer working for a state daily newspaper, was forcibly robbed of films from his camera at a Ku Klux march at Louisburg on Saturday afternoon.

Whether or not the young photographer was manhandled in the process, whether or not his hand was hurt and his shirt torn by Ku Klux security officers, as he claims was the case, is beside the immediate point. The fact remains that his property was taken from him by force, contrary to the laws of this state.

It so happened that Bill Jones was engaged in his chosen work and at the time was serving as a press photographer. Not only did he, as a press photographer, have the right to take the pictures, using his own judgment as to their newsworthiness, but any person has a legal right to take pictures of any public march.

Klan security guards are not policemen. They have no authority beyond that of any other citizen. On the rented property where the Klan is holding a rally, they may, perhaps, be assigned duties to assure orderliness, but that is as far as any authority goes.

Off such a rented lot, on the streets they have no authority whatsoever. They simply took the law into their own hands and robbed a young man of his possessions.

Franklin County authorities and state authorities know that the law was violated and that the violation was done by uniformed agents of the Ku Klux Klan and that it is a maxim of law that a corporate body is responsible for the acts of its agents. Both the Klan and the security guards are responsible for a criminal act and we trust that it will not be allowed to go unchallenged by those charged with the enforcement of laws.

A Little Cloud On Our Horizon

When the Ku Klux Klan rents a pasture and holds a rally, it has a legal right to regulate the behavior of any persons who come into that pasture. But, the Ku Klux Klan has no legal right to regulate the behavior of other citizens of the public streets of North Carolina. And, when four Klansmen forced a photographer to give up his film in Louisburg on Saturday, those Klansmen took the law of North Carolina into their hands and did violence to the majesty of the law of North Carolina.

The young photographer apparently tried to get help from a part-time policeman in Louisburg, and wasn't successful. The Louis-

A True Story

The Roxboro Courier Times

We are not quite sure where the following story was printed originally, but it has so much truth connected with it, we are passing it along:

A young man lived with his parents in public housing unit. He attended public schools and participated in the 'Free Lunch Program." He entered the Army and upon discharge retained his National Service Life Insurance. He enrolled in the State University, working part time at State Capitol to supplement his GI education check. Upon graduation he married a Public Health nurse and bought a home with an FHA loan, then obtained an RFC loan to go into business.

A baby was born in the City Hospital. He bought a small ranch with the aid of Veteran's Land Program and obtained emergency feed from the government. Later he put part of his land into the Soil Bank and payments soon paid off his ranch. His father and mother lived on the ranch and very comfortably on their Social Security checks. REA lines supplies the electricity, the government helped him clear his land, the County Agent showed him how to terrace it and the government built him a fish pond-

then one day he wrote his congressman: "I wish to protest these excessive governmental expenditures and attendant taxes. I believe in rugged individualism. I think people should stand on their own feet without expecting a handout. I am opposed to all Socialistic trends and I demand a return to the principles of our Constitution and the policies of States Rights."

Quotes

A big lie is more plausible than truth. People who write fiction, if they had not taken it up, might have become very successful liars. - Ernest Hemingway.

burg Police chief said he heard that it had happened, but that the photographer didn't complain to him.

This is a small thing. And, someone in authority had better do something about this small thing before it grows into bigger and bigger violations of the law. The police in Louisburg had better make it their fulltime duty to run down the four bully boys of the KKK who relieved this photographer of his film. The solicitor of this district has sworn to uphold the law, and it is his duty to run this incident down and to prosecute those responsible. The State Bureau of Investigation should get into it and stay in it until it has the guilty parties.

Governor Moore is now out of the State attending the National Governors Conference. It is important that he be there, but it is even more important that the majesty of the law in North Carolina be upheld. The Governor's office here can inform Governor Moore of what has happened, and can get from him a statement assuring the lawabiding people of North Carolina that the guilty parties will be hunted down and tried.

If the Klansmen get away with incidents such as this, the Klansmen soon could branch out into bigger things. Then, the fat will be in the fire of the KKK's crosses, and North Carolina will be shamed before the country and the world, and North Carolina's will be in for heartbreak and sorrow.

What happened in Louisburg Saturday is a little thing, but little clouds on the far horizon have been known to blow up into big storms. The law-enforcement officials of North Carolina, headed by Governor Moore,

can stop this little cloud if they act now. If they don't, North Carolina will have a big storm.

A Correction

In an acccount of the proceedings of the Warren County Board of Education at its meeting of July 12, this newspaper inadvertently stated Edgerton Rideout appeared before the board seeking to lease the abandoned Snow Hill school. It should have read the Axtelle Special school.

The designation of the wrong school has caused some embarrassment to Charles Williams and Moses Kelly who have a deed from the Board of Education to the Snow Hill school. This newspaper regrets the error and any embarassment it may have caused Messrs. Williams and Kelly.
