Dear Santa,  
My name is Pamela Cheryl Thompson, I am 5 years old. I have tried very hard to be a good little girl this year. My Mommy and Daddy seem to think I'm good most of the time. I would like to ask you to please bring me a Ken doll to match my Barbie doll, a Barbie doll suitcase, a Miss Suzette doll and a few Barbie doll clothes.  
Santa, please try to bring me a few nuts, some candies and some fruit for my stocking.  
I don't have any little brothers or sisters at home, but please be good to all my little friends and to all the other children everywhere, even those whose names I don't know. I'm sure they are just as excited as I am and can hardly wait for you

Soil test reports will be coming to Warren County farmers without a recommended grade or ratio of fertilizers.

That is grade number 5-10-10, or 6-6-12 and other recommended ratios. Only the total amount of Nitrogen, Phosphorus and Potassium and other ingredients will be recommended. The farmer is given the decision as to the grade or ratio of fertilizer to use. The objectives of this change is to help the farmer to think in terms of plant nutrients and allow the farmer to select the fertilizer grade they prefer and can purchase at the best price. We are sure that this change will cause many farmers to think about their fertilizer and become aware of what is in the bag and utilized by the plant.  
Your fertilizer dealer and Agricultural Agents will help any grower who needs help to make the conversion to the grade fertilizer.

Say you saw it advertised in The Warren Record.
