Warren Farmers May Graze Or Harvest Some Diverted Acres

Warren County farmers were reminded yesterday that some acreage shifted from crop production in conserving use under government diversion and conservation programs now may be used for haying and grazing provided prior approval is obtained from the ASC county committee.

Warren is one of 20 North Carolina counties whose farmers will be allowed to

graze diverted acreage due to shortage of food and forage caused by drought.

W. S. Smiley, chairman of the county ASC committee, said that the emergency privileges are offered to provide additional forage for livestock because drought in the area has substantially reduced pasture and forage, severely restricting livestock feed supplies.

Smiley said that the haying

and grazing privileges apply to land set aside under the Conservation Reserve and Cropland Adjustment programs as well as land diverted under the annual programs for wheat, feed grains, and upland cotton. After committee approval is obtained, farmers may use the forage on the diverted acreage, thus affording an immediate additional source of forage supplies, he said. Use of the acreage for these purposes is expected to help prevent liquidation of livestock herds.

This emergency program provision affects a total of approximately 1200 farms in the county which are participating in one or more of the diversion and conservation programs, Smiley said. Downward adjustments will be made in program payments to farm-

Charles Cheek Resigns

Rep. Fountain Seeks More Information

Rep. L. H. Fountain said Wednesday morning that he still insists on a full explanation of the appointment of Charles Alvin Cheek as business manager of the Warren Headstart program.

Cheek resigned his position Tuesday as coordinator of a three-county youth program embracing Warren, Vance and Franklin Counties.

Cheek's father, the Rev. G. E. Cheek said his son tendered his resignation Tuesday afternoon to S. A. Davis, president of the Recreation Council of Memorial Recreation Forest.

In a telephone statement from Washington Wednesday morning, Rep. Fountain said: "Appropriate federal authorities have confirmed acceptance of the resignation of Charles A. Cheek as business manager for the federal supported Warrenton Headstart program."

"However, I will still insist that appropriate federal authorities provide the full explanation previously re-

quested as to how and why the appointment was allowed, and what is being done to prevent a repetition of such a situation."

Cheek said that his son resigned for "the best interest of the program and everyone concerned, since he was the center of the controversy."

As coordinator of an anti-poverty project in three counties, Charles Cheek was in charge of administering almost \$200,000 in federal funds.

The controversy stemmed from the fact that Charles Cheek, a former Wake County school principal, was on parole from two life sentences for first degree burglary.

Charles Cheek was credited by the Office of Economic Opportunity with doing "an excellent job so far."

The evaluation of Cheek's work followed a demand by Second District Congressman L. H. Fountain for a "full report and explanation" of Cheek's selection as business manager of the recreational council of Memorial Recreation Forest.

Little League Play Ends

Little League baseball ended its season here Monday with a play-off to determine the standings of the club. The Indians won first place by defeating the Dodgers, 15-2 in the first of the two games played by boys from eight to twelve years of age. In the second game the Yankees downed the Braves, 6-1. As a result the Indians won first place, the Yankees second, the Dodgers third and the Braves fourth.

Little League play started here on June 8. Double games were played on each Wednesday and Saturday afternoons.

The players took a two week break in the middle of the season when members of all four teams played in an all-star game at Greenville on July 1.

Following the games Monday trophies were presented to the team managers and to the umpires.

Serving as umpires during the season were Rip Aycock, Alpheus Oakley and Howard Oakley.

Managing the Indians were Lewis Rooker and Burwell Powell.

Soft Drink Sales In Warren Over \$800,000

Fizz Big Business In County

New York - Residents of Warren County have developed a big thirst—for soda pop, that is. As a result, the fizz biz has become big biz locally.

More pop is being consumed and more money is being spent in that direction than ever before.

In the past year, according to the latest estimate, local residents put away soft drinks at the record rate of 471 bottles (8-ounce) per capita.

They went for the works—cola drinks, ginger ale, root beer, sparkling mixes and the wide variety of fruit pops and other beverages.

On an overall basis, some 8,337,000 bottles were consumed in the year by the local population. This was in addition to the unbottled drinks served in lunchrooms, at vending machines and the like.

By way of comparison, the figures show that total consumption locally in 1960 amounted to 6,875 bottles. The increase for the five-year period was 21 percent.

The details of the soft drink business and its operations come from the Department of Commerce and from industry reports. Data is given covering every state.

Measles Vaccine Is Now Available

The Warren County Health Department has measles vaccine available for children ages one year through six years, Dr. Lloyd H. Harrison, acting health director, announced yesterday.

Dr. Harrison said that this type of measles (not to be confused with three-day German measles) lasts about ten days to two weeks. Its symptoms appear about 10 days after exposure, and is characterized by red, watery eyes, sore throat, bad cough, and a fever of 103 to 104 degrees and is often followed by serious complications.

Immunization clinics are held each Tuesday from 8 a. m. to 4 p. m. at the Warren County Health Center. Dr. Harrison urges parents of children in this age group who have not had this type of measles to contact their family doctor or to take their children to the immunization clinic.
