

Jackets Win Two In Play At A. Springs

John Graham YellowJackets won a double-header at Aurelian Springs on last Friday night, the boys winning 41 to 36 and the girls taking a 34 to 28 victory.

The Yellow Jacket girls, downed at Enfield last Tuesday night, after taking four in a row, got back on the victory road Friday. Off to a poor start in the first quarter when they were held to 2 points to Aurelian Springs' 6, the visitors netted 12 points in the second quarter to cut the lead to 2 points at the half, and pulled ahead in the third quarter to take a lead which they maintained until the final whistle.

Martha Thompson led John Graham with 12 points. Others playing were Sandra Wood 7, Charlotte Wood, Phyllis Loyd 7, Gayle Ser's 4, Nancy Short 2, Valerie Miles, Melba Thompson, Jane Connell 2. Gibson was high scorer for Aurelian Springs with 12 points. Others playing were Adkins 3, L. Warren, Williams 1, Hamill 9, Chichester, Butts, Robertson 3.

Boys Game

Three Warrenton boys netted 10 points each to lead John Graham to its victory. The visitors took a first quarter lead, 8 to 6, and held it all the way, although the locals managed to cut the lead by one point in the third quarter when they outscored the Jackets 14 to 13.

Robert Shearin, Jimmy Rivers and Leon Edmonds each scored 10 points. Others playing were Ellington 1, Schnurr

4, White 2, Currin, Daniel 4. Perkinson led Aurelian Springs with 10 points. Others playing were Crawley 5, Cox 8, Blalock 7, Liles 4, Dickens 1, Gibson 1.

The Yellow Jackets had an open date Tuesday night due to exams.

Norlina Boys Win, Girls Lose In Two Conference Games

Norlina High Schools split double-headers on both Friday and Tuesday nights, with the boys winning 58 to 47 in a game with Enfield, and a game with Enfield, and 80 to 64 in play with Aurelian Springs, and the girls losing both contests, 32 to 48 to Enfield and 30 to 45 to Aurelian Springs.

ENFIELD GAMES

After the first quarter when each team netted 9 points, Norlina proved no match for the strong Enfield girls who pulled away in the second quarter and coasted to the win.

Peggy Lynch was high scorer for Norlina with 15 points, followed by Kathryn Perkinson with 9. Others playing were Debbie Floyd 6, Phyllis Ingle, Nancy Capps, Jan Hawks, Mary Lou Stallings, Jeanna Bobbitt 2, Jane Knight.

Boyd Viverette led Enfield with 17 points. Others playing were Maryha Taylor 6, Peggy Slade 8, Cheryl Neville 15, Scott Woodard, Patricia Mears 2, Betty Troutman.

Boys Game

The Norlina boys took a first quarter lead under the torrid shooting of James Hicks and held it all the way. Hicks netted 24 points to lead his teammates to victory. The usually high scoring Lew Hege, who recently established a scoring record at Norlina, was held to six points. Others playing were Lee Hawks 6,

Michael Macon 4, Charles Draffin 6, Phillip Parham 8, Mike Baker, Mike Seaman 2, Kent Whitmore 2.

Kenneth Sykes was high scorer for Enfield with 17 points, followed by Bobby Cressno with 16. Others playing were Sammy Rothrock 4, Jimmy Atkins 2, Jack Yates 6, Steve Willey.

A. SPRINGS GAME

Norlina girls held a one point lead, 19 to 18, at the end of the first half with Aurelian Springs, but sagged in the final two quarters for a 45 to 30 defeat.

Peggy Lynch netted 18 points in a losing cause. Others playing were Kathryn Perkinson 3, Debbie Floyd 2, Phyllis Ingle, Nancy Capps, Sandra Hicks, Jan Hawks 5, Mary Lou Stallings 2, Jeanna Bobbitt, Jane Knight, Carolina, Jerri Yancey.

Adkins led Aurelian Springs with 14 points, followed by Gibson with 12. Others playing were Robertson 9, Hamill 3, Williams 6, Butts 1, Warren, Chichester.

Boys Game

Norlina boys took a 21 to 17 first quarter lead and held it all the way behind the marksmanship of James Hicks who netted 27 points. Michael Macon netted 17 points and Charles Smiley 10. Others playing were Lee Hawks 2, Lew Hege 4, Charles Draffin 6, Phillip Parham 9, Coleman Perkinson 3, Mike Baker 2.

Crawley matched James Hicks with 27 points, to lead the Aurelian Springs boys, followed by Cox and Perkinson with 11 points each. Others playing were Blalock 2, Liles 6, Dickens 5, and Hux 2.

Pvt. R. J. Richardson Completes Training

FT. JACKSON, S. C. — Army Private Robert J. Richardson, 24, son of Lloyd Richardson, Route 3, Box 199, Warrenton, N. C., completed eight weeks of advanced infantry training Jan. 12 at Ft. Jackson, S. C.

He received specialized instruction in small unit tactics and in firing such weapons as the M-14 rifle, the M-60 machinegun and the 3.5-inch rocket launcher.

His wife, Rachel, lives on Route 1, Box 219, Littleton, N. C.

THE CURE

"Doctor," said the pretty nurse, "every time I take a patient's pulse it gets faster. What shall I do?" "Blindfold him!"

Most of the Soviet Union lies farther north than Minnesota.

GARDEN TIME
M. E. Gardner
N. C. State College

The pruning of ornamental shrubs is one garden operation that is most likely to be neglected, poorly done or overdone. Many gardeners still think that they are not doing a good job unless they do heavy cutting or, sometimes, de-horning. Such treatment results in destroying the character of the plant and it may require two or three years to overcome such severe pruning. In the meantime, the plants look ugly and their growth processes are slowed down due to the heavy reduction of leaf area.

Frequently, the wrong plant is selected for a particular location, when preparing the landscape plan for your home, and then an effort is made to keep the plant in bounds by pruning. It is much the better plan to select the right plant for the right location in the beginning, and thus your pruning problems are reduced to a minimum.

If you have plants which need pruning, now is a good time to get the job done. I like what I choose to call deep pruning. This type of pruning is employed to correct growth in such broadleaved evergreen plants as Burford's Chinese holly, ligustrum, sasanqua camellia, photinia and other similar types. To me, it is a sensible treatment because if you had not seen the plant before pruning you probably could not recognize that it had been pruned at all.

As an example we might consider two Burfordi plants growing in good locations. They are about six feet tall and have a spread of about eight feet. They need some corrective pruning but no severe treatment.

Remember that you are going deep by removing whole branches from the inside and some shorter laterals from the periphery or outside. This will require careful study before you do any pruning because you want to accomplish two things: maintain the general shape and character of the plant; and select only those branches which will not remove too much foliage in any one area of the plant. The idea is to open up the plant uniformly rather than leaving gaping holes here and there. This will admit light penetration and promote the growth of foliage on the inner portions.

Now is a good time, also, to check your shade trees. There are always some small limbs which have died due to shading. These are rather easily removed and, in many cases, you can remove them yourself with a pruning saw, if the trees are not too tall. Removal now will prevent wind breakage during summer storms and cluttering your lawn grasses.

If you have large limbs to be removed, I suggest that you employ competent help to do the job for you.

In other words, you should have some idea as to where you will get a loan.

(7) Loan approval. If the loan agency approves your plan for a loan, you will be ready for the next step which is to sign an agreement with your choice of builder, usually the low bidder. (8) Sign a building contract. This may be a standard form setting forth construction start and finish dates, terms of payment to contractor, contract price of house, etc. (9) See that plans and specifications are followed. During construction you or a dependable representative and the loan agency representative will check to see that all plans and specifications are followed.

For additional information on building, for house plans, and standards to be considered in building a house, contact agents with the Agricultural Extension Service with offices located in the Agricultural Building.

STEPS TO BUILDING A HOUSE

Within the American society there is a certain minimum level of living in the home that is expected if one is to be respected as a good citizen and neighbor. This level of living is available to anyone who conscientiously works for it.

The following are steps to building a house: (1) Select a building site. (2) Select a plan to fit the needs of the family, making minor changes where necessary. (3) Make a plot plan if required. This plan locates the house on the lot. (4) Fill out standard specification forms. This describes every item used in the con-

DOLOMITIC LIME

We have received several calls concerning the function of lime as a result of last week's news article, "The Value of Soil Test and Lime." This has led to a discussion of dolomitic lime. All soil test reports will state that when using lime in the Warren County area use Dolomitic Lime.

Dolomitic lime contains calcium (CA) and Magnesium (M). A proper balance between Calcium and Magnesium is necessary for high yields. Both Calcium and Magnesium are needed by the plant and soil Rhizobium before maximum production can be obtained.

Lime should be applied 4 to 6 months prior to planting and thoroughly disked into the top 6 to 8 inches of soil.

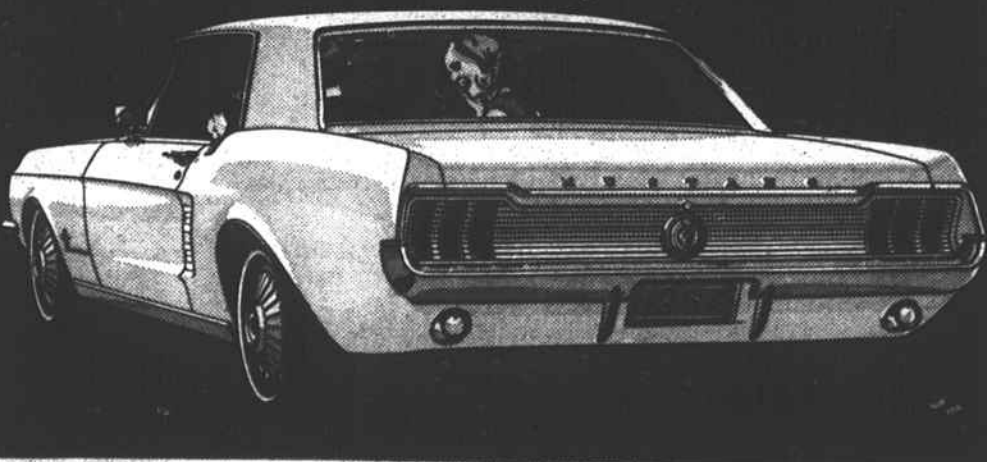

Soil acidity can not be neutralized over night and generally requires 6 months to a year before a definite change can be measured. Quicker response is obtained if the soil is worked several times prior to planting.

Just how important lime is to your soil crop needs—only a soil test report can tell.
