

Nearly 1200 Are Enrolled At Hawkins

Nearly 1200 pupils are enrolled at John R. Hawkins High School this year, L. B. Henderson, principal, announced this week. He said 552 students are enrolled in grades 1-8, and 605 in the high school for a total of 1157.

Henderson said that the opening of the current school year brought additional courses for broadening and enriching the total subject offerings for high school students. New courses include World Geography, Reading Improvement, Boys Home Economics, Basic Business, Auto Mechanics and Advanced Biology. Physics is again being offered after an lapse of one year. Five full days of Shorthand and five full days of Typewriting 1 and 2 are now offered. Here-

fore these two classes were combined as one course and met two and three times per week, respectively.

Guidance services for students are also available this year, Henderson said. Some of these services consist of counseling pupils in the areas of vocational aims, interest scales, educational plans, scholarships and educational grants for seniors, and other areas of interest for pupils on the 9th-12th grade levels.

"We feel that these additions and modifications will be of great value to all our students," Henderson said. "We would also take the opportunity to thank all parents and school patrons for helping to make this year's school opening a successful one."

Town 'N Country Club Begins Season

The Town 'N Country Garden Club held its first fall meeting with Mrs. M. H. Powell as hostess. The theme was "Bring Beauty into your home."

Arrangements in the traditional manner were displayed in containers which matched the style of the bouquets. Dahlias, chrysanthemums, sweet Williams, scarlet sage, zinnias, and mixed petunias were arranged with various types of foliage. The hostess gave a brief discussion on Our Heritage of Traditional Flower Arrangements.

The business session was presided over by the president, Mrs. A. M. Alston. After greetings of welcome the business session proceeded with reports from the State meeting which was held in Charlotte in August. Highlights of the State Federation business sessions and tours were given by Mrs. S. H. Brown. Pertinent information on the Conservation Workshop was given by Mrs. C. H. Hawkins.

The yearly plans and projects of the Town 'N Country Garden Club include a flower arrangement workshop which will be held with Mrs. A. M. Alston in October, a Senior Citizens Tea, a flower show, the Christmas Decoration Contest, the "candy project" for the State Federation, a community project, and the Junior Gardeners.

Chicken a la king in pastry shells, a congealed salad, ice-cream pie and coffee were served by the hostess.

Other members present were Mrs. G. J. Exum, Mrs. V. C. Henderson, Mrs. E. W. Harris, Mrs. J. W. Walton, and Mrs. E. J. Ransome.

Fair

(Continued from page 1)

Walkie-Talkie - won by Jay Williams, son of Mr. and Mrs. Arthur Williams, and a student at Macon Junior High School; third prize, a Guitar - won by Vickie Webb, daughter of Coach Jimmie Webb and Mrs. Webb and a student at Mariam Boyd School. Tickets were drawn by Janet Vaughan, daughter of Mr. and Mrs. James Vaughan. She was presented a Hoola Hoop.

Lanier said that winners in Thursday's School Day would be announced in next week's paper.

Booths and exhibits in the exhibit hall have called forth much favorable comment, Lanier said. The Fair, he added, has a variety of rides and shows on the midway with attractions for all ages, and the free acts, given each night, have been popular.

The Lions Food Booth has had a big run and has received many compliments on the good food being served, Lanier concluded.

ASC

(Continued from page 1) will serve as chairman and vice chairman for the coming year. These positions are re-determined annually.

The delegates to the county convention will be the elected chairman, vice-chairman, and regular member of each community.

All 1968 committeemen will take office Oct. 2.

Attack

"The first attack was by a large beast who took one look at the boat from about

John R. Hawkins Graduate Enters Duke University

Miss Thurletta Maureen Brown, a 1967 honor graduate of John R. Hawkins High School, was one of some 1300 freshmen and transfer students enrolling at Duke University on Friday, Sept. 16th. Miss Brown was accompanied to Durham by her parents, Mr. and Mrs. Thurston Brown. On the agenda for the hundreds of parents assembled on the campus were meetings with University administrative officials and a reception at the home of Women's College Dean Margaret M. Ball.

THURLETTA BROWN

An assembly for freshmen scheduled for Friday night at 7:30 p. m. was the beginning of a full week of orientation with tests, interviews, conferences and luncheons. A special treat planned for freshmen by the University was the issuing of reserved tickets and the announcing that busses would carry them to Raleigh to the Duke-Wake Forest football game. Miss Brown was among the more than 22,000 who were crowded in Carter Stadium who saw the Blue Devils topple

100 yards off and then came against the current straight at us. I realized what was happening and started to turn the boat around to meet it head on. We managed to glance it at about 15 degrees but, even so, it shot out of the water and snapped at the side of the boat."

"The vessel lurched terribly as I wheeled it away in an attempt to shake loose and we shipped a lot of water," Leakey continued. "The croc had caught hold of the boat at the stern, some eight inches from where I was, and the violent turn shook him off. We ran the boat into the bank and evacuated at high speed!"

"After half an hour, armed with clubs, etc., we set off upriver again, assuming that normal crocs would not take on a boat with a noisy engine. However, less than a mile upstream, another giant spotted us and started towards us at a fantastic speed. We were no more than 30 yards from shore, and it was more than a 100 yards from us. By the time we made the bank - a direct route - he was only 30-40 feet away! I had seen enough and we walked some six miles back to camp and fetched the boat later by means of the ferry."

Will Outspeed Crocs

The National Geographic Society quickly supplied Leakey with funds for a larger, faster, safer boat.

Leakey, 22, and his wife, Margaret, an English-born anthropologist, head the Kenya section of an International Expedition organized recently to

explore the extensive fossil deposits in the Omo Valley. The Kenya team has been detached from the long-range study of early man in Africa being conducted by Dr. and Mrs. Leakey with grants from the National Geographic Society.

Other teams from the United States and France are taking part in this International Expedition. Scientists from Ethiopia are cooperating closely.

The project was made possible by the personal interest of Emperor Haile Selassie. The generous cooperation and support of his government has enabled the expedition teams to work in a difficult region of Ethiopia.

Educational Work

Educational work to help solve problems in resource development at the community and area level is one emphasis of Extension Department's new five year program, target 2, L. C. Cooper, extension agricultural agent, said this week.

Community resources development is concerned with economic and social problems that can be solved by group decisions and action.

Cooper said that the objectives of the organized community development organization are to provide an understanding of the particular problem, to analyze alternatives for solving problems, and to provide information in the services of various agencies to assist in its total development.

LITTLETON NEWS

Mr. and Mrs. Aubrey Clyborne of Greensboro visited Mr. and Mrs. Lee Riggan last week.

Dr. and Mrs. W. R. Jones and family of Rocky Mount visited Mr. Jones' mother and grandmother, Mrs. C. A. Jones and Mrs. Agnes May.

Mrs. Jesse Salmon spent Saturday in Richmond, Va., and spent the night with Mr. and Mrs. William Harris in Colonial Heights, Va. Mr. and Mrs. Skinner Jenkins visited Mr. and Mrs. Harris Sunday.

Hodges Riggan of Meridan, Miss., and Jack Graham Riggan of Long Island, N. Y., visited Roy D. Wright last week.

Guests of Mr. and Mrs. R. M. Alston during the weekend were Mr. and Mrs. J. J. Chaffin and family of Richmond, Va., Mr. and Mrs. C. W. Neilson and daughter of Raleigh, the Rev. Francis Alston of Ellerbe, Mr. and Mrs. William Justis Alston of Roanoke Rapids and Mr. and Mrs. Linwood Alston and family of Airlie.

Dramatic! Distinctive! Daringly new!

'68s Top Secrets are here 1968 Chevrolets

The 1968 Chevrolets are the very essence of modern design. Every line, every curve is in close harmony. It's a smooth, uncluttered look with roof lines compatible with body lines, grilles and bumpers that blend gracefully into long, rounded fenders. Clean, flowing, beautiful in their simplicity, these '68 Chevrolets are rich and advanced in styling beyond any you've ever seen.

A MORE SILENT RIDE

And for 1968, we've gone to every length to give you more peace and quiet inside. The most sophisticated computers have been used to strategically place body mounts and successfully isolate noise and vibration. Shock absorbers have been improved. The wheel stance on many models is wider for greater smoothness. Exhaust systems have been redesigned to make them whisper-quiet. Even the clocks tick more softly. A sound car is a silent car. The '68 Chevrolets are the most silent, highest quality cars we've ever built.

BETTER PERFORMANCE

There are new engines, a bigger standard Six and V8. There's a new

250-hp V8 you can order that runs on regular fuel. Many new engine components increase dependability and keep your new Chevrolet running stronger. There's a new rear axle ratio you can add for greater economy. On most engines equipped with automatic transmissions, there's a special heater for the carburetor which gives you more efficient performance in cold weather. And with every engine, you get the new GM exhaust emission control.

UNIQUE ASTRO VENTILATION

There's a whole new idea in ventilation, called Astro Ventilation, for Camaro, Corvette and the elegant Caprice Coupe. It's also available on many other models. By opening two new vent-ports on the instrument panel, you bring in outside air that can be directed where you want it. This way, you can leave your windows rolled up and add still more to your peace and quiet.

PROVED SAFETY FEATURES

You get the proved GM-developed energy absorbing steering column, folding front seat back latches, dual

master cylinder brake system with warning light, plus many more new features. Among them: energy absorbing front seat backs, and safety arm-rests that shield the door handles.

MUCH MORE THAT'S NEW

There are new roof lines, some formal and graceful, others sporty and quick. There are new instrument panels, richly designed and all controls within easy reach. There are new interiors, new vinyls, new fabrics, new colors. There are models with Hide-A-Way windshield wipers and headlights that disappear behind grilles. There are new side marker lamps, new recessed taillights. There's even a new ignition alarm buzzer that reminds you not to walk away and leave your keys in the car.

These are the newest, the most different, the most dramatically changed Chevrolets ever. And they're at your Chevrolet dealer's now. You'll thoroughly enjoy slipping behind the wheel, experiencing the smooth new handling and library-quiet ride and, more than anything, seeing and feeling the even greater quality built into every new Chevrolet for 1968.

Be smart! Be sure! Buy now at your Chevrolet dealer's.

There's more quality and value built into Chevrolets than ever before, making every new 1968 model an even better buy!
