Manson Post Office Wins Govt. Citation

Manson, North Carolina, and its postal employees have been selected to receive the Postmaster General's "Citation of Merit" for outstanding cooperation in President Johnson's Natural Beauty Fountain program, Congressman Fountain announced Tuesday.

Congressman Fountain said he was advised by Postmaster General Lawrence F. O'Brien that the citation is awarded only to those communities whose postal facilities have received superior ratings in rigid inspections by regional postal officials.

The evaluation takes into consideration such factors as unusually attractive grounds and a concerted effort to make

the surroundings of the post office as visually interesting as possible. Congressman Fountain commended the postal employees for their superior accomplishments in the beautification effort.

"Mr. O'Brien has advised me," Mr. Fountain said, "that Manson will be cited for maintaining its postal facility in such a superior manner that it provides a clean, neat and pleasant place in which the public may conduct its postal business."

Congressman Fountain commended Postmaster Ellis E. Fleming, his postal employees, and the citizens of Manson for their contributions toward a cleaner, neater community.
