Farmers May Increase Income By Stocking And Leasing Farm Ponds

By NAT WHITE
Soil Conservationist
The family size farmer needs to search constantly for additional sources of income. There are many ways he can use his surplus time, land, and farm resources to increase the farm income. One way is to provide recreational facilities for the folks from town.
Landowners with good farm ponds have been pleasantly pleased with the ease with which they leased their ponds to a good group of fishermen. The farm ponds were built to furnish water for irrigation, livestock, and other farm uses. Where the fishing is good the landowner can collect 6% on his investment from a fishing club, use the pond in any way he desires, and enjoy the fishing himself. The Soil Conservation Service will assist landowners and operators

in constructing, stocking, and managing a farm pond.
Several Warren County farmers have increased their farm income by providing better hunting and leasing their hunting rights. Most farmers who planned to charge fees or lease their hunting rights in advance have been pleased with the results. Hunting can be greatly improved with minor changes in farming practices. Sometime this involves a simple delay in plowing fields that furnish food and cover for wildlife.
One of the most spectacular ventures in furnishing good hunting for a fee has been in providing dove fields. Several Warren County farmers have furnished good dove hunting for 20 to 40 hunters with simple changes in their farming practices. William Bender needed to plant some hay for his cattle,

and the Warren Soil Conservation District needed additional funds with which to operate. Bender used browntop millet for his hay crop, three excellent dove hunts followed and the Warren Soil Conservation District solved its financial problems for one year.
Where silage is harvested on a farm, dove hunting fees can be charged with little effort. If the hunt is stopped at 4:30 Daylight saving time the doves have time to feed, and several hunts can usually be had over the same field. Where browntop millet is planted and harvested for hay close to the silage corn the number of hunts can be increased. On some of these dove fields seven hunts were conducted last season.
Where farmer and sportsmen get together in planning and financing farm recreation there is pleasure for all concerned.

GARDEN TIME

When jonquill leaves turn brown they are ready to dig, divide and replant. If they have been dug and divided at least once in the last three years, you may wish to leave them alone for another year of blooming. If you lift the bulbs every year, they should be stored in a cool dry place.
Keep your tomato plants tied to the stakes as they grow. Use pieces of torn cloth or soft string and do not tie the stems too tightly against the stake. Prune by removing the young shoots as they form in the axils of the leaves (where the leaf stems join the main stem). Keep well mulched with pine needles or clean grain straw and water as needed.
Don't expect too much from your plants if they are growing in your backyard where they may be shaded and competing with tree roots for moisture and nutrients. They prefer full sun.
Watch carefully for lacebugs on pyracantha, azaleas, Washington hawthorne, Rhododendron, etc. Dust thoroughly, especially undersides of leaves, with five percent malathion dust. The same treatment will control spider mites (red spiders) and aphids (plant lice) on roses, azaleas and many other ornamentals.
Flea beetles are likely to escape your notice until after damage occurs. These are small insects which resemble the ordinary flea. They eat round holes in the young leaves and are especially destructive on Irish potatoes, snapbeans, tomatoes, peppers, eggplant and many other vegetable crops. Rotenone dust, one percent is effective and safe to use because it is harmless to warm-blooded animals. It will also control Mexican bean beetles. Sevin dust, five percent, will also give good control.
"Can ornamental plants be treated for nematodes?" Yes, by soil drenching with Nema-gon.
Clear an area around the plant from 2 to 5 feet in diameter, depending upon the size of the plant. Build a small dike with soil around the rim of the area to be treated to contain the drench water. Add Nema-gon to water as directed on the container and pour around plant. For best results, the soil temperature should be between 60 and 80 degrees.

Warren Chapter Of DAR Meets At Littleton

By MRS. ANNIE B. GRAHAM
Warren Chapter, Daughters of the American Revolution, held its June 7 meeting in Littleton. Person's Ordinary—the "last of the old ordinaries," now being restored by the Littleton Woman's Club—was the "first stop" for chapter members and their guests, and the beginning of a delightful meeting.
Mrs. J. M. Stokes, Littleton hostess was gracious in her greetings and, after a tour of the Ordinary, presented Mrs. W. W. Johnston, granddaughter of Gen. Matt Ransom, who spoke most interestingly about Person's Ordinary, built by Thomas Person (at one time Quartermaster General of North Carolina). According to legend, she said, Cornwallis slept here, and among other notables among its visitors were LaFayette, Tarleton, Aaron Burr and Horace Greely.
Mrs. Johnston also said that it was Dr. Lena Hawks, president of the Warren County Historical Society, who contributed interesting and necessary data relative to the authenticity of Person's Ordinary. Later, at the request of Rep. John H. Kerr, the State of North Carolina gave \$4,000.00, and N. C. Antiquities Society \$400.00 towards its restoration. Today, this quaint building—a stage coach stop between Halifax and Petersburg, Va., and a relay station for Hillsborough and Halifax and Edenton—with three rooms downstairs and two upstairs, is being gradually restored and furnished as funds become available from the annual bazaars of the Littleton Woman's Club, and the generosity of interested donors. With heat and water now installed, Mrs. Johnston announced with enthusiasm, "Completely restored is our goal."

After the visit to Person's Ordinary, the meeting was continued at the home of Mr. and Mrs. J. M. Stokes. They and chapter members who assisted as hostesses—Mrs. J. E. Adams, Mrs. Charles Johnson, Mrs. J. E. Rooker, Mrs. Mary Shields and Mrs. Arthur Williams—greeted the members and the following guests: Mrs. John Treadwell, DAR Asst. State Treasurer, and Mrs. John Kircheimer, Director of the sixth district from Raleigh, Mrs. E. N. Hicks of Henderson, Mass.
Loucious McArthur Fogg, colored, of Route 1, Warrenton, to Lillie Mae Pitts of Route 1, Norlina.
Michael Ceparano, white, of West Babylon, N. Y., to Susan Mary Denon of West Babylon, N. Y.
Lewis Andrew Smith, white, of Capron, Va., to Patricia Diane Bessley of Capron, Va.
Troy Daniel Shaw, white, of Xenia, Ohio, to Connie Gay Booher of Xenia, Ohio.
Lula Rafael Cembano, white, of Washington, D. C., to Barbara Ann Martin of College Park, Md.
Paul Allen Schreiber, white, of New York, N. Y., to Susan Lynne McDaniel of Longview, Wash.

son, Mrs. Cleveland Stallings, Mrs. William Alston and Mrs. Moseley of Littleton; Mrs. R. B. Butler, Mrs. John G. Ellis, and Mrs. Walker Burwell of Warrenton.
Mrs. William Skinner was welcomed as a new member of Warren Chapter.
Prior to the business meeting, delicious refreshments were served in the dining room from a beautifully appointed table, which had as a centerpiece an arrangement of lovely pink roses and carnations. Mrs. William Skinner poured punch.
Mrs. W. R. Baskerville led the chapter in the Pledge of Allegiance to the Flag and the Lord's Prayer, which was followed by an impressive memorial tribute to Mrs. Graham Venable Boyd by Miss Rooker. The group stood in memory of a beloved member, who had contributed greatly as regent, secretary and committee chairman.
The regent then spoke on the recent meeting of the DAR Continental Congress in Washington. She reported 2000 Daughters' present—representing a total membership of 189,225, in 2,899 chapters in the National Society. She also reported 11,067 new members accepted in 1968—a net gain of 1202. The Southeastern District, she said, led the nation where 30% are under 35 years of age. The White House reception, with Mrs. Nixon, "the First Lady," greeting the guests, was most enjoyable.
It was reported that the following "First's" were won by North Carolina: (1) Jim Fogartie of Charlotte, the Nation-

Miss Wilson Bride Of J. H. Ward, Jr.

Mr. and Mrs. Ollie J. Wilson of Indianapolis, Ind., announced the marriage of their daughter, Pamela Kay, to Jack Harrison Ward, Jr., son of Mr. and Mrs. J. H. Ward of Indianapolis.
The wedding took place on Sunday, June 7, in Plainfield Bible Church. The attendants were Mrs. Sam King, sister of the bride, and the groom's father, Mr. J. H. Ward, Sr.
The bride attended Moody Bible Institute and Indiana Bible College. The groom graduated from Sam's Technical Institute. He is the grandson of Mrs. Numa Weaver of Indiana and the late Mr. Weaver of Warrenton.
Mrs. Lawrence Stevenson of Norlina attended the wedding.

Receives Degree

Miss Angela Robinson, daughter of Mr. and Mrs. C. W. Robinson, Sr., of Manson, received the B. A. degree in Social Sciences from Atlantic Christian College in Wilson.
The degree was awarded at the 67th annual commencement on May 30. President Arthur D. Wenger presided over the exercises. Ray Lindsey, president of the University of the Americas, delivered the commencement address.

MISS LINDA LOUISE LEE

Engagement Announced

Mrs. Elbert Lee of Rauhut Street, Burlington, announces the marriage of her daughter, Linda Louise, to Melvin D. Tunstall, Jr., of Ross Street Extension, Burlington, son of Mr. and Mrs. Melvin Tunstall of Warrenton.
The wedding will take place July 5 at 4 p. m. in the First Baptist Church on Apple Street. Miss Lee was graduated from Jordan Sellers High School and is employed at Kayser-Roth Hosiery Company.
Mr. Tunstall, a graduate of John R. Hawkins High School in Warrenton, attended the Technical Institute of Alamance and has recently completed a tour of duty in the U. S. Army. He is employed at Western Electric Company.

In Hospital

Patients in Warren General Hospital on Wednesday morning were listed as follows:
Lula Peoples, Ethel Pinnett, B. W. Curran, Myrtice Neilson, Hattie Sorrell, Rodney Walker, Gordon Hathcock, Dora Dixon, Malcolm Stewart, Catherine Green, Mary Ann Williams, Endia Henderson, John Shearin, Reuben Mayfield, Joe Lynch, Willie Williams.

About 12 percent of all English words stem from the Greek language.

N. W. Students Receive Over \$18,000 In Grants

More than \$18,000 in grants and scholarships have been awarded to 1969 graduates of North Carolina High School, Mrs. Catherine J. Smith, guidance counselor at North Warren, said yesterday.

Commencement exercises were held at North Warren on Sunday afternoon.

Colleges and universities which embrace North Carolina, Virginia and Massachusetts have responded in a positive way to give an educational opportunity to those in need for the agrarian low income families served by North Warren, Mrs. Smith said, "This is a giant step toward supporting, stimulating and encouraging young youth to become productive young citizens," she said.

The awards include achievement and institutional scholarships, North Carolina tuition grants, prospective teacher scholarship loans, such federal funds as the Educational Opportunity grants, grant-in-aid, cooperative work study program, and the Negro Scholarship Service Fund. Other sources, Mrs. Smith said, are the Cooperative Program for Educational Opportunity, the National Achievement Program for Outstanding Negro Students as funded through the National Merit Corporation, the Urban League, and the Ford Foundation.

Doris Ellen Terry, Delores Jerman and Vera Palmer have received full coverage at Duke University and Winston-Salem State College, respectively. Linda Ann Johnson and Veronica C. Davis are eligible for supplementary aid from NSF to complete their cost at Smith College, Northampton, Mass., and Hampton

MISS JORDAN

Dean's List

Miss Carolyn D. Jordan, a 1968 graduate of John R. Hawkins High School, made the fall and spring Dean's List at Johnson C. Smith University at Charlotte. The daughter of Mrs. Mary Jordan and the late Mr. Richard Jordan of Route 1, Norlina, she is now attending a six weeks summer course at Johnson C. Smith University.

Marriage Licenses

Archie Samuel Roberson, white, of Route 1, Kittrell, to Karl Barbara Head of Warrenton.
George Albert Henderson, colored, of Route 5, Henderson, to Jerry McCoy Jones of Route 5, Henderson.
Richard Lee Duncan, Jr., white, of Route 2, Chester, Va., to Patricia Ann Wilson of Route 1, Prince George, Va.
Jan Jelmert Jorgensen, white, of Shelby to Ellen Laurence Baxter of Clemson, S. C.
James Edward Vaughan, white, of Route 1, Norlina, to Brenda Ann Norwood of Henderson.

Robert Hampton Hunt, white, of Richmond, Va., to Ingebert Ann Beata of Route 2, Montross, Va.
Richard Carroll Humphrey, white, of Capron, Va., to Agnes Raye Godwin of Ridge-way.
George Calvin Kidd, white, of LaCrosse, Va., to Judy Irene Toone of LaCrosse, Va.

NEW! PHILCO-FORD

An air conditioner that shifts speeds automatically, cools more uniformly!

Energy released by just one pound of the sun would keep a kitchen stove going with all burners on for several hundred years, National Geographic says.
I wish to express my sincere appreciation to Dr. F. P. Hunter, the nurses and others at Warren General Hospital and to the friends for the flowers, cards and letters during my stay in the hospital. Your kind expressions and good wishes will always be remembered by me.
MRS. CLARA KING

Cards Of Thanks

Copy for cards of thanks must be in this office by Tuesday night, earlier if possible, accompanied by \$1.00 to cover cost of insertion.

Famous Philco NOISELESS DESIGN

Engineered to a whisper
Operating sound is reduced with special components and engineering design, not merely muffled with insulation on the cabinet. Operates quietly, even at high speed!
• Simulated wood decorator front
• Hide-Away controls
• Adjustable thermostat
• Special ventilation control
• 2 cooling speeds, 2 fan speeds
• Washable Double Dirt Curtain air filter
• Adjustable louvers
• No-drip dehumidification
Prices Start At **149⁹⁵**
