TO THE PEOPLE WASHINGTON, D. C .- Money.

Now there's a word that attracts attention. Faces light up and ears perk up when someone starts talking about money coming in. Unfortunately, I must write today about money going out. Your money; tax money. And this, too, is a pretty important topic to most folks

L. H. FOUNTAIN

Reports

Congressman

There is a widespread feeling among our people that the Federal tax structure needs overhauling. Loopholes need to be plugged. The tax burden needs to be more equitably distributed. And this feeling is finding expression in the Tax Reform Act of 1969, which has already passed the House of Representatives and is now in the hands of the Senate. I have briefly mentioned this Act before in my newsletter. I would like to discuss it in more de-

these days.

The Federal income tax has been in effect for about 50 years and "like Topsy, it just grow-Some tax incentives or loopholes served a good purpose when first enacted, but a reassessment is needed now. We need to reevaluate. It is not fair to the average American taxpayer to pay his taxes in full while some very highincome people pay no income taxes at all.

The Tax Reform Act includes some 27 groups of tax provisions. This is a good start, but more needs to be done. Under the Act as now proposed, virtually no individual with very high income (for example, those making \$200 thousand a year or more), will be able to escape payment of all taxes. A minimum tax will be established and specific tax benefit provisions are reduced.

The great middle - income group of taxpayers (5,000 to \$15,000 tax bracket), the group that actually foots most of the American tax bill, will receive tax relief of at least 5 per cent. In addition, there will be some simplification in tax reporting because the size of the standard deduction will be increased from \$1,000 to \$2,000. The changes will be phased in gradually during 1970, 1971 and 1972.

At the same time, those in the under \$5,000 category will have even greater reductions. The under \$3,000 bracket will receive tax reductions of up to 64 per cent. In fact, very few heads of families in this bracket will have taxes to pay.

Since there are 27 groups of provisions in the Act, I cannot cover them all in detail here. So, I will simply mention some of those of most general interest:

-private foundations (charitable in nature) will now have to pay something toward the cost of government for the first time. They will be taxed at the rate of 7-1/2 per cent on investment

-tax-exempt organizations. including churches, will have pay taxes on income they receive from the operation of profit-making businesses.

Needed Secretary

NEEDED-WIDE AWAKE, sharp, efficient secretary. Work interesting, not confined to detail boredom Top salary, paid vacation, hospitalization and other fringed benefits. Write SEC, Box 70, Warren Record, Warrenton, N. C., giving resume, education, age and experience.

COMFORT FOR SALE: WOLVERINE BOOTS LEIGH

Molyerine ACTION BOOTS & SHOES

-unlimited charitable -deductions will no longer be possible and the limit will be set at 50 per cent of income.

-single persons over 35 will receive a new lower tax rate, halfway between that available to married couples and that previously available to single persons.

-moving expense deductions will be allowed for those changing jobs. The ceiling will be set at \$2,500.

-the income averaging provision of the present law will be simplified and made more generally available to all.

-the tax advantages of commercial banks relating to special reserves for bad debts will be withdrawn.

-the oil depletion allowance will be decreased from 27-1/2 per cent to 20 per cent.

-The tax-exempt status of state and municipal bonds will be "virtually" eliminated and the Federal Government will offer a subsidy to local governments to enable them to pay the higher interest rates which will be necessary. I am fearful that this particular action is going to seriously handicap the ability of local governments to market bonds so essential to local progress. I hope the Senate will delete this provision.

Let me mention again that that Act still has a long way to go before being finally enacted into law. The House has passed it, but the Senate must now act. Those who have further suggestions should get them to the Senate right away.

Whatever is finally done must be done with an eye to fiscal integrity and to fair and just treatment of all of our people. The average American taxpayer wants to pay his fair share of the cost of running and defending our society, but he wants his share to be fair.
