PERRY, KITTRELL,

WASHINGTON, D. C .- Have pening to America, and that not you recently stopped to think enough is being done about them. about what is happening in It's abundantly clear that the

average American still believes in and upholds the fundamental freedoms and principles upon which our nation was founded and built. He knows there can be no real freedom without order, and without respect for recovery. All persons

law. Regrettably, even one bombthrower or sniper or male volent ringleader can throw our society into turmoil, disturbing the lives of millions of solid citizens who work hard, bother no one, and respect the rights of others.

And, as we all know, there are many bomb-throwers in America; there are many rebellious people; there are many disruptors of public order. Our newspapers keep us constantly aware of these challenges to the beliefs and institutions which have made America the greatest and the most powerful nation in the history of God's creation. Today our big city streets are

more dangerous than even the toughest frontier town of the old west, and just as wild.

Our public schools are in a state of near chaos as a result of Federally - inspired misdirection. And I might note that the Nixon Administration is no better than previous Administrations in this regard, perhaps worse - because it has misled our people. Pornography is freely available in every state of the nation, including North Carolina and the President's Commission on Pornography is on the verge of officially endorsing a wildly permissive "study" of the problem which completely ignores the accumulated Dope - now fashionably called by other names-is in frequent use by members of every level of society from top to bottom- young and old alike. Despite all this, I disagree

It isn't really sick. churches and schools and especially on college and university campuses.

We are in desperate need of more responsible leaders on every level, but, even more importantly, we need a more aggressive Christian citizenship -men and women who oppose lawlessness whenever and wherever it occurs, citizens who will support the curbing of unnecessary government spending even when they them-

## Changes May Be In Order After 65

RALEIGH-If you have had 65 birthdays or more, you may be planning to make some changes in your daily routine. Although many activities may be changed or eliminated, eating certainly will not be one of them, observes Mrs. Marjorie Donnelly, extension foods specialist, North Carolina State University. For all life long you need food that contains nutrients needed for upkeep of body tissues and bones.

Although a good diet over the years is recommended, it is never too late to improve your own well-being by improving your diet. Surveys show that diets of many older persons rich foods and citrus fruits in

are lacking in milk, proteinadequate amount, Mrs. Donnelly points out. In addition, the diets these persons choose often result in overweight.

Now that you have more leisure time, Mrs. Donnelly suggests you plan your meals in advance. Include meat, milk, breads and cereals and vegetables and fruits in these meals, she advises.
