Prompt Reporting Of Changes Asked By Social Agency

People getting Supplemental Security Income (SSI) payments should promptly report changes in their other income and resources to Social Security, John Peraza, Social Security branch manager in Henderson, advised this week.

"Increases or decreases in income may affect the amount of monthly SSI payments," Peraza said. "People getting SSI checks should report changes or expected changes in their wages, self-employment earnings, veterans pension payments, and other income."

Changes can be reported by contacting any social security office, he said.

Persons getting SSI checks should also promptly report change of address, marriage, separation, and any other circumstance that might affect their payments, Peraza said.

The Supplemental Security Income Program makes monthly payments to people with little or no income and limited resources who are 65 or over or blind or disabled.

The federal SSI Program is run by the Social Security Administration, an agency of the U. S. Department of Health, Education, and Welfare.

The Henderson Social Security Office is at 425 South Chestnut Street. For phone number for Warren County residents, call 792-2344.
