Littleton Lions Search Attics For Yard Sale

Members of the Littleton Lions Club, their wives and friends are now looking in their attics and garages to find any surplus items which may be used for their summer yard sale. The sale will be held Saturday, July 9 (weather permitting), from 9 a.m. until all items are sold at the lot in front of the C. H. Lambeth Warehouse and between Roses and Red and White parking lot and the Fire Department.

In addition to the yard sale, the Lionesses will hold a bake sale. Several of the Person Ordinary Bottles will also be on sale. The bottles are the last of a limited edition of only 300 Bicentennial bottles sold by the Lions Club in 1976 with etchings depicting the revolutionary tavern and stage

Ruritanettes Hold Meet At Clubhouse

The Ruritanettes of the Afton-Elberon Club met on June 27 at the club house. The meeting was called to order by Mrs. Ann Brown. Following the song and pledge of allegiance, a prayer was given by Mrs. Barbara Kinton.

Old and new business was discussed. Plans are being made for the annual picnic to be held in July.

The hostesses for the month were Mrs. Gracie Munn and Mrs. Delia Stegall. Delicious refreshments were served and the meeting adjourned.

stop operated in the 1770's and named for the Thomas Person family of Littleton. Ceramic work and pillows made by the Mental Health Department of North Carolina will also be sold and refreshments will be available to the public.

Items on sale will include toys, kitchen utensils, dressers, chairs, TV sets, washing machines, lamps, toasters, typewriters, kettles, lawn mowers, air conditioners, cash registers and many other items.

Applications For Work Show Rise

Work applications on file with the Henderson office of the N. C. Employment Security Commission at the end of June were up by 250 over the same period last year, Office Manager W. Hall Brooks reported this week.

Brooks said his office had a total of 1,500 applications at month's end. Active job openings at the end of June were 20, down from 35 a year ago.

ESC personnel placed 34 applicants on jobs during June, compared with 87 placed during June, 1976.

Compensable weeks claimed for unemployment insurance during June showed a decline over June of 1976, dropping from 3,190 to 2,114 last month, Brooks reported.

In just one year KitchenAid could save your family thousands of gallons of water... and precious energy.

KITCHENAID DISHWASHERS USE A LOT LESS WATER THAN WASHING BY HAND.

Based on independent tests, many newspapers, radio and TV stations, and public utilities are urging families to conserve water by using an automatic dishwasher, such as KitchenAid, instead of washing dishes by hand.

A KitchenAid Imperial dishwasher fully loaded with a day's dishes will use less than 12 gallons of hot water on the Normal cycle and only 7 1/2 gallons on the Short cycle. Compare those figures with the 18 to 30 gallons of water used each day by the average family washing dishes by hand!

WASHING DISHES BY HAND TWICE A DAY*

Tests	Water Used Weekly	Yearly
#1. Wash in one side of double sink, rinse in other side, changing water in both sides as needed.	158 gal.	8,216 gal.
#2. Wash in one side of double sink and refill as needed, in other side rinse in moderately flowing stream, turning off when not needed.	127 gal.	6,604 gal.

Tests	Water Used Weekly	Yearly
#3. Wash and rinse in constant moderately flowing stream. (A common technique!)	214 gal.	11,128 gal.

USING KITCHENAID DISHWASHER (SUPERBA KDS-18) FULLY LOADED ONCE A DAY

	Weekly	Yearly
Normal Cycle	94-1/2 gal.	4,914 gal.
Short Cycle	52-1/2 gal.	2,730 gal.

KitchenAid Imperial and Custom models use even less water for the Normal cycle than the top-of-the-line Superba!

SIGNIFICANT WATER AND ENERGY CONSERVATION WITH KITCHENAID

As indicated here, the contribution to water and energy conservation made possible by the use of a KitchenAid dishwasher is extremely significant.

Compared to the hand washing tests, KitchenAid could save you about 32 to 160 gallons of water a week. Or more than 1,600 to 8,300 gallons a year!

WATER SAVED WITH KITCHENAID (SUPERBA KDS-18)

Test	Weekly	Yearly
Test #1. 63-1/2 gal.	3,302 gal.	
Test #2. 32-1/2 gal.	1,690 gal.	
Test #3. 119-1/2 gal.	6,214 gal.	

KITCHENAID USES LESS HOT WATER THAN ANY OTHER LEADING AUTOMATIC DISHWASHER

When you compare the hot water used by the leading automatic dishwashers, you'll see why KitchenAid is your best buy for conserving water and energy. See for yourself.

DISHWASHER WATER USAGE—KITCHENAID VS. OTHER TOP-OF-THE-LINE BRANDS**

	KITCHENAID (KDS-18)	FRIGIDAIRE (DWU-5)	GENERAL ELECTRIC (SD950 SD1050)	MAYTAG (WU 601)	WASTE KING (SS 911)	WHIRLPOOL (SOL 9000)
Normal Cycle	13.5 gal.	14.7 gal. (+8.9%)	17.5 gal. (+29.7%)	13.75 gal. (+1.85%)	15.0 gal. (+11.1%)	13.9 gal. (+2.9%)
Short Cycle	7.5 gal.	8.8 gal. (+17.3%)	11.5 gal. (+53.3%)	Not Offered	Not Offered	9.3 gal. (+24.0%)

*For detailed information see your KitchenAid dealer. **Water usage figures based on manufacturers' published data

WHEN IT COMES TO HOT WATER CONSERVATION, YOU CAN'T BEAT KITCHENAID. ONE MORE REASON WHY PEOPLE SAY THEY ARE THE BEST.
