Mace and nutmeg are sister spices. Mace is more pungent than nutmeg, but the spices can substitute for each other.

Why Would A Bank Put So Much Value On Something Money Can't Buy?

No one is surprised these days when a bank touts the quality of its services or announces with pride the addition of another zero in its assets column.

And certainly, these things are important. It's just that, at BB&T, we view them from a somewhat different perspective. Because, what we value above all else is something quite different. We place a premium on attitude.

Attitude shows up on the balance sheet only indirectly. But we venture to say that you'll notice the difference it makes when you enter any one of our branches.

You'll find, for example, that instead of merely providing a service, we're interested in the full range of your long-term financial plans and needs.

We believe that our commitment to long-term thinking gives us superior insight. And that this insight gives us the ability to understand the need and value of integrated financial solutions for our customers.

Responsiveness is another BB&T attribute. We're committed to responding to any request for our services in the absolute minimum amount of time.

Ultimately, you'll also discover that BB&T delivers the highest quality financial services across the board.

Quality. Commitment. Performance. For the things that mean more than just money, come to the place that's more than a bank.

BB&T
It's More Than A Bank.
It's An Attitude.
