Standing, left to right, are 10-year pin recipients Annie Miller, Mallie Watkins, Mary Harrison, Betty Sylver, Rachel Richardson and Andrews. (Staff Photo)

Warren Sportswear Firm Honors Veteran Employees

Employees of Carolina Sportswear Company were honored at a luncheon on March 8 at The Rafter's in Warrenton. The purpose of the occasion was to present awards to employees with 5, 10, 15, and 20 and 25 year's service.

Special guests for the occasion were Jerry Costa, assistant vice-president of Campus; Ernie Harrison, chief industrial engineer; and John Ibsen, personnel manager. Also attending as special guests were the department managers of Carolina Sportswear: Audrey Paschall, Harriette Tharrington and Joe Walker.

Plant Manager John Andrews presented the service pins to the employees at the plant, prior to going to lunch. At this time, pictures were taken to commemorate the occasion. As he presented the pins, Andrews congratulated each employee for a job well done.

Employees receiving

five-year pins were Clarissa Russell, Patricia Faye Richardson, Rosa Macklin, Dorothy King, Magnolia Watson and Cheryl Richardson.

Ten-year pins went to Barbara Branch, Katherine Williams, Doris Hines, Annie Miller, Mollie Watkins, Mary Harrison, Betty Sylver and Rachel Richardson.

Joannie O'Neal received a 15-year pin and Helen Capps received a 20-year pin.

The highlight of this occasion was to recognize, in a special way, those employees with 25 year's service. The addition to the service pin, Andrews presented a plaque and a \$1,000 cash award to Evelyn Paynter, Grace Rudd, Mildred Schuster and Emily St. Sing. He praised them for their loyalty and support through the years.

Each of the recipients recalled some of the events that had happened during their employment and expressed their thanks to Andrews

and the company for this benefit.

Evelyn Paynter, who celebrated her birthday on the same date, was presented a miniature birthday cake with one candle and the entire party sang "Happy Birthday" to her.

Following the luncheon and the presentation of awards, Costa addressed the group and expressed his appreciation for their loyalty and service. He commended them for a job well done and acknowledged that the greatest asset were people like them who made Carolina Sportswear the success it is today.

Paintings of the "Last Supper" were common during the Renaissance. Practically every monastery dining hall displayed one, National Geographic says.

Lake Gaston Firm Joins Century 21

Lake Gaston Properties, Inc. of Littleton has joined the Century 21 real estate network, according to an announcement this week by John T. Nelson, Jr., president of the local company.

The transaction makes Lake Gaston Properties the first local company in the lake area to become nationally franchised.

"Century 21 will give our staff in-depth training in real estate transactions as well as sales, financing, and investments," Nelson said. "We feel our association with Century 21 will better equip us to meet the diversified needs of the growing Lake Gaston market."

Nelson also noted that the franchise would give the firm access to Century 21 clients and listings throughout the nation.

"This is especially important since there is no Multiple Listing Service® on Lake Gaston, and many of the people currently buying and selling property here are from outside the area."

Lake Gaston Properties, which has a staff of

9, will continue to be individually owned and operated.

The company was begun in 1972 by Nelson, whose family at the time owned American Heritage Campground in Littleton.

Sales associates in the firm are: Marilyn Nelson, Joe Newsom, Ann Hawfield, Linda Seay, Donna Liles, Shirley Kiser, Ed Wheeler, Bob Oliver and Mona Griswold.

Lake Gaston Properties, Inc. has two locations on Lake Gaston. The main office is located at Salmon's Landing, and a second office is at Eaton's Ferry Bridge.

Changes Aired In Dove Dates

North Carolina sportsmen may have the opportunity to hunt doves over the Thanksgiving holiday in the future.

This was one of the proposed changes in hunting, fishing and trapping regulations for 1984-85 considered by the N.C. Wildlife Resources Commission at a recent meeting in Raleigh.

The proposed change in dove hunting times will be presented at a public hearing March 16, and if adopted, the change would become effective July 1.

The change would involve a three-way split season for doves. The proposed three-way split season for doves would run from September 1-29, November 17-24 and December 14 through January 15. This season would allow hunting during the Thanksgiving holiday period while maintaining seasons when dove number peak. The proposal would be subject to federal guidelines.

The annual public hearing for hunting and fishing changes for this area will be held at the Nash County Court House in Nashville on Friday, March 16.

Demonstration Set At Littleton Site

A demonstration using a Hurst tool will be held in a vacant lot next to the Littleton Fire Station on Sunday, March 18, at 2 p. m.

The tool is used for cutting into all types of metal and is especially useful in freeing victims of automobile accidents.

The public is invited to the event which is being sponsored by the Warren County Rescue Squad.

Herb Wall, a representative of Life Protection Systems of Garner, will demonstrate the equipment.

Cattlemen Meet At The Rafter's

The Warren County Cattlemen's Association met March 6, at The Rafter's Restaurant. There were several topics for discussion at the meeting which lasted about two and one-half hours.

Purchasing a pasture renovator was among the main business at the meeting. The Warren County Cattlemen's Association decided to purchase the no-till drill. The drill will be rented out to Warren County farmers at the cost of \$10.00 per acre.

Also on the program were two veterinarians from the Apex Veterinary Clinic who talked on herd health in beef cattle.

Gary Miller and R.L. Rollins with McNess Co. sponsored the meal and closed out the meeting discussing their products.

Ideas for the Next Generation

A veteran chemical engineer is passing on his ideas for coal-fueled engines to younger researchers whom he hopes will make his dreams a reality. One plan is a design for a coal engine with no sliding parts that could take a car from Texas to the East coast on \$7 worth of coal. But the engine has never been built and that is what Dr. William Harris hopes his students will do.

NOTICE TO PUBLIC OF NO SIGNIFICANT IMPACT ON THE ENVIRONMENT AND NOTICE TO PUBLIC OF REQUEST FOR RELEASE OF FUNDS

County of Warren
P. O. Box 619
265 North Main Street
Warrenton, N. C. 27589
Telephone: (919) 257-3115

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:

On or about March 30, 1984, the above-named County will request the North Carolina Department of Natural Resources and Community Development to release Federal funds under Title I of the Housing and Community Development Act of 1974 (PL 93-383) for the following project:

Warren County Economic Development Project-1984, \$750,000 direct financial assistance to Owens-Illinois, Inc., for use in equipping a corrugated container manufacturing facility to be located in Warren County. U. S. 1, South, Warren County, North Carolina.

Purpose of Notice

This notice is intended to meet two separate procedural requirements of 24 CFR Part 58: (1) To provide notice to the public that the County of Warren has determined that the request for release of funds for the above-named project will not have a significant impact on the environment, (2) To provide notice to the public that the County of Warren is requesting the release of funds for the above-named project.

Finding of No Significant Impact

It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and accordingly the above-named County has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969 (PL 91-190).

The reasons for such decision not to prepare such statement are as follows:

It is anticipated that there will be no serious, long term, adverse impacts on either the human or natural environments as a result of this project.

The existing public utilities that will be utilized have more than adequate capacity to accommodate the needs of the proposed industrial facility.

State and Federal laws governing air quality, water quality, noise levels, endangered species, protection of historic and archaeological sites, etc., will not be abridged.

An Environmental Review Record respecting the within project has been made by the County of Warren which documents the environmental review of the project and more fully sets forth the reasons why such Statement is not required. This Environmental Review Record is on file at the above address and is available for public examination and copying upon request at 265 North Main Street, Room 3, Warrenton, North Carolina 27589.

No further Environmental Review of such project is proposed to be conducted prior to request for release of Federal funds.

Public Comments on Finding

All interested agencies, groups and persons disagreeing with this decision are invited to submit written comments for consideration by the County of Warren to the office of the undersigned. Such written comments should be received at the address specified on or before March 29, 1984. All such comments so received will be considered and the County of Warren will not request the release of Federal funds or take any administrative action on the within project to the date specified in the preceding sentence.

Release of Funds

The County of Warren will undertake the project described above with Economic Development Block Grant Funds from the North Carolina Department of Natural Resources and Community Development under Title I of the Housing and Community Development Act of 1974. The County of Warren is certifying to NRCD that the County and Ms. Eva M. Clayton, in her official capacity as chairperson of the Warren County Board of Commissioners, consent to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to environmental reviews, decision making and action; and that these responsibilities have been satisfied. The legal effect of the Certification is that upon its approval, the County of Warren may use the Block Grant funds and NRCD will have satisfied its responsibilities under the National Environmental Policy Act of 1969.

OBJECTIONS TO STATE RELEASE OF FUNDS

NRCD will accept an objection to its approval only if it is on one of the following bases: (a) that the certification was not in fact executed by the certifying officer or other officer of the applicant approved by NRCD; or (b) that the applicant's environmental review record for the project indicates omission of a required decision, finding or step applicable to the project in the environmental review process. Objections must be prepared and submitted in accordance with the required procedure (24 CFR Part 58) and may be addressed to NRCD at P. O. Box 27687, Raleigh, N. C. 27611.

Objections to the release of funds on bases other than those stated above will not be considered by NRCD. No objection received after April 14, 1984, will be considered by NRCD. Comments must specify whether they concern the finding of no significant impact or the intent to request the release of funds.

EVA M. CLAYTON, Chairperson
Warren County Board of Commissioners
P. O. Box 619
265 North Main Street
Warrenton, North Carolina 27589
