Little Garden Club Has April Gathering

The Little Garden Club met in Emmanuel Episcopal Church Parish House for its April meeting.

Following the general business session, Mrs. Nellie Gardner presented a program, using charts and diagrams on flower arranging. She had ready-made arrangements, which she took apart to show the construction. She also placed great emphasis on type of container used.

The club has distributed three Praying Mantis egg cases in Warren County with 250 to 500 mantises encased in each. On hatching, they will eat upon one another for a

short while, until a larger size. Then they will go to work eating harmful insects.

It is hoped people will order these cases, as well as lady bugs, to use in their farming and gardening operations. These two insects are natural bug killers, and can eliminate the use of chemicals.

The Little Garden Club would like to urge everyone to go back to using as many natural ways of killing harmful insects as possible.

Over-Watered
