

At John Graham

Rocky Mount Visited

By EMMY LOU COLEMAN
And ANGELA D. BALLANCE

Last Wednesday, the Gold community at John Graham went on a trip to Rocky Mount. The trip was designed to enhance the Gold community's study of China. For lunch the group ate at a Chinese restaurant, Canton Station. They also visited a nature park and went on a shopping spree at Tarrytown Mall.

Monday, the last school day for students at John Graham, was Awards Day. Students received various awards for their achievements during the school year. Ben Howard, our principal, also designated Monday as a "dress-up day." Pupils were to dress as neatly as possible.

We would like to remind everyone who is eligible for the computer workshop that it will be held at John Graham this summer. Also, a day camp will be held at Norlina Middle and Hawkins Elementary Schools during the summer.

Gary Ballance, the former writer for the John Graham newspaper article, did a fine job, and we commend him for his writings in the paper. We wish him good luck at the high school.

Tobacco Tips Given Center Is Ready For Applications

(Continued from page 2B) must be available. Soil that has ample organic matter content allows more water to be available for longer periods of time. This reduces drought stress and irrigation demands.

Given Degree

Nathaniel Hawkins, son of Mr. and Mrs. Walter H. Hawkins of Warrenton, received a bachelor's degree in business administration from Norfolk State University during its 48th annual commencement exercise on May 12.

A 1979 graduate of John Graham High School, Hawkins also holds an associate degree from Chowan College in Murfreesboro.

during the 60-day period after transplanting, the amount of nitrogen and water available to the tobacco is critical. Without adequate water and the proper amount of nitrogen the leaf will not mature on time. This often leads to the leaf being picked before it is ripe resulting in poor quality tobacco.

Another big benefit of a crop rotation is pest control. John VanDuyn, North Carolina Extension entomologist, says that "rotation is the farmer's most powerful pest management tool." Atwell Day, a tobacco farmer from Roxboro, once treated for nematodes yearly. Since going with a rotation, he has seldom needed to use a nematicide. Jim Roney of Mebane has eliminated his average annual nematicide costs of \$55 per acre since switching to a grass-based rotation.

There are many other benefits of using a rotation including better fertilizer use, and that often means less fertilizer needed. Higher production as well as higher quality is a typical response from tobacco crops grown in rotation.

The Community Development Corporation is now accepting applications for enrollment of children six through 15 years of age in its day care center for school age children located on East End Avenue in Littleton. The corporation also sponsors two pre-school day care centers in Littleton and Roanoke Rapids.

Activities to be offered include building and carpentry, social studies, sewing, music, science projects, cooking, language development and math games, dramatic play, and craft games. Field trips are also being planned.

For Title XX eligible parents, care will be free or at reduced cost.

For information about enrolling children, contact Venetta Grant or Clara Underdue, 586-4546, or evenings, 586-3358.

If a leather or suede garment or handbag gets wet, allow it to dry naturally. Never try to hurry the process by putting it in contact with direct heat.

Adcock Winner Of Bass Tourney

Allan Adcock won the Warren County Bass Club June Tournament on Lake Gaston. Second place winner was Robert V. Allen, and "Big Fish" honors went to Butch Bolton.

This marked the second time this year that Adcock and Allen have placed first and second on Lake Gaston. In April, they accomplished the same feat.

Mr. and Mrs. Pete Price of Stewart's Branch on Lake Gaston hosted a club cook-out for club members and their families. Co-hosts were Mr. and Mrs. Keny Clayton and Mr. and Mrs. Jimmy Booker.

During the regular monthly business meeting, Gene Richardson, club president, presented a trophy to Allan Adcock for his April win.

The July tournament will be held on Jordan Lake.

Smoke Balloon
The first manned flight was on Nov. 21, 1783, near Paris's Bois de Boulogne. It was a 25-minute trip in a hot-air balloon by two young Frenchmen. The Montgolfier brothers, designers of the balloon, believed that smoke, not hot air, provided lift, so they chose such smoke-producing fuels as rotten meat, old shoes, and wet straw for their early flights.

Action Said Heavy In Junior League

Mobile Homes aren't what they used to be.

Today, they're better than ever! More valuable than ever too. Trouble is, many Mobile Home Insurance plans only provide very basic coverage. Which can really cost you when you have a claim.

Nationwide's new Mobile Homeowners insurance is designed to give you broader coverage for a price that's competitive with many less complete plans. So call today for details.
