Taking The Bite Out Of The Bear.

Even during bull markets, some Wall Street investors worry about the bear showing up to take a bite out of them. But *you* can get the best of the bull and take the bite out of the bear, if you join the Payroll Savings Plan and buy U.S. Savings Bonds. Bonds have a variable interest rate that lets you share in higher returns during bull markets and a guaranteed minimum to protect you against the bear.

Bonds give you the best of both markets. Because you know that if the bear should appear, his growl will be worse than his bite.
