Work By Local Artist Selected

Warren County artist Dianne T. Rodwell has received notification from the Montana Watercolor Society that one of her paintings has been accepted for participation in WATER-MEDIA '84, the Montana Watercolor Society 1984 Annual Juried Competition open to all artists residing in the United States. The exhibition will open with a private preview on Sept. 8 followed by public opening on the 9th at Gallery 85, Emerald Drive, Billings, Mont. It will close Sept. 29.

Juror for this event was Philip Jamison who resides and paints in West Chester, Pa., and at his summer home on the island of Vinalhaven, Maine. A graduate of the Philadelphia College of Art, he is a member of the American Watercolor Society and in 1970 was elected Academician of the National Academy of Design.

Mrs. Rodwell's painting selected by Jamison for the national competition is titled "Through the Fantasy Forest," an original gouache on illustration board, 13 7/8" by 10 1/4" art image. The make-believe wooded landscape was rendered in the technique of salted watercolor, a process Rodwell teaches in her periodic gouache workshops sponsored by the Warren County Community Schools Program.

Rodwell originals have also been selected by the Democratic and Republican Central Committees for participation in the 1984 Gubernatorial Election Art Auction held in Great Falls.

Her works will be available for the 6th Annual Ducks Unlimited Art Auction Sept. 19 and 20 in Great Falls, as well as the upcoming Ducks Unlimited event in Warrenton.

Weekly **Health Tip**

FROM WOODY KING

PLEASEING PETS

Owning a pet not only may make you feel good, but may also be good for your health. The companionship provided by a dog or cat can lower one's blood pressure and improve one's mental health, thereby possibly reducing the incidence of stress-related ailments. Even the movement of fish in their tank can be tranquilizing to the viewer and can draw attention away from the pet-owner's worries, thus lowering stress and blood pressure. One study showed that among heart attack victims, pet owners survived longer than non-pet owners.
