Delinquency Prevention Group Is Seeking Aid

The Warren County Task Force on Delinquency Prevention is now receiving applications for funds to support programs providing direct services to juveniles ages 10-17 (residential programs) or 7-17 (all other programs), according to Mary Hunter, Task Force chairperson.

Public or private programs are eligible if the target youth population is involved with juvenile court for status offense or delinquency petitions or behave in a manner that places them at risk of such court involvement, Mrs. Hunter stated. She noted that grant applications require specific details on the programs to be provided, documentation of youth served and the impact on those youth and procedures for fiscal accountability.

State funding from the Community Based Alternatives Section of the Division of Youth Services in the Department of Human Resources is budgeted at \$21,693 for Warren County for fiscal year 1985-86. These

funds require a 10 percent local cash or in-kind match. Federal funding from Juvenile Justice and Delinquency Prevention is \$6952, the chairperson reported.

Anyone interested in applying for these funds may pick up a grant application from Mary Hunter, Task Force chairperson, at the Warren County Schools Central Office, 109 Cousin Lucy's Lane in Warrenton. Twenty copies of the completed applications must be submitted at the Warren County Task Force meeting on March 18 at 1:30 p. m. at Warren County High School.

Mrs. Hunter said grants will be reviewed by the Task Force at its regular meeting, March 18. Persons requesting funding should attend this meeting. Final action of the Task Force will be taken April 15. The Task Force will then present its recommendations to the

Warren County Board of Commissioners.

The Warren County Task Force on Delinquency Prevention is appointed by the Warren Board of County Commissioners for the purposes of assisting the needs of youth involved in court for status offense or delinquent behavior and of recommending a plan of action for the county to address these needs.

Membership is comprised of representatives of public and private youth-serving agencies, government officials, and youth and adult community members.

The Task Force meets regularly at Warren County High School, the third Monday of each month at 1:30 p. m. The public is invited to attend the meetings.

Persons interested in more information may call Mary Hunter, Task Force chairperson at 257-3184.

LeBAUBE

Scout Executive Is Selected For Job In District

Richard E. LeBaube has been named a scout executive and will work in the Oconeechee Council's Great Northern District of Vance, Warren, and Granville counties.

The 28-year-old native of St. Louis, Mo. formerly worked in Greensboro and will move to Henderson as he assumes the new post. This is his first position with the Boy Scouts of America. LeBaube was given a tour of the district by Dave Flory, former great northern district executive now working in Cumberland County.

LeBaube is a graduate of Guilford College. He is married to the former Dianna Purdy of Greensboro and has one daughter, Kathryn, age seven months. The LeBaubes are members of the Lutheran Church.

Williams Named To Association

Larry D. Williams of Warrenton, sales manager for WHNC radio station in Henderson, has recently been accepted as a member of the National Radio Broadcasters Association.

The national professional society promotes higher standards of professionalism in the radio broadcasting industry.

The Warren County native is a graduate of John Graham High School in Warrenton and Carolina School of Broadcasting in Charlotte. He has studied at Caldwell Technical School in Lenoir, Central Piedmont Community College in Charlotte, and Johnson C. Smith University in Charlotte. He is an honor graduate of the Dale Carnegie Sales Course.

Williams is the son of Mrs. Vera Williams of Rt. 2, Warrenton and the late Leslie Williams. He is a frequent performer at Lakeland Arts Center in Littleton.

Grass And Woods Fires Are Reported

Six grass and woods fires have been reported to the Warrenton Rural Fire Department during the past week, according to department reports.

On Sunday at 1:14 p.m., the Warrenton Rural Fire Department assisted by firemen from the Inez and Arcola volunteer fire departments, responded to a grass and woods fire on property owned by Continental Forest Industries in the Parktown community. Cause of the fire was not listed. Reports indicate that 20 acres were destroyed.

A fire on property adjacent to Hecks Grove School south of Elberon in southern Warren County destroyed a log storage building and about 30 acres of grassland and woods Friday afternoon. The building was owned by Molly K. Boyd, and her property as well as property belonging to Ella Cheek and Tillan Anderson was destroyed. Children playing with fire was listed as the cause. The Warrenton Department was assisted by the Afton-Elberon and Inez departments.

A grass fire was also reported on Friday afternoon on property owned by Winnie Green of Route 3, Warrenton. No damage was listed.

Two fires were reported on Thursday on Airport Road on the northern outskirts of Warrenton.

At 1:41 p.m., a fire was reported in a grass field on property owned by Pete Lyles. The fire was confined to about one-half acre, according to reports, and was caused by burning brush.

At 2:40 p.m., a grass and hedgerow fire was reported on property

owned by Elizabeth Overby. Burning trash was listed as the cause of the fire.

On Wednesday, the department also responded to a grass fire on property owned by Cal Crosson of RPR 1332, but the fire had been extinguished by the Macon Volunteer Fire Department.

Captain Walter Gardner with the Warrenton Rural department said departments throughout the county had responded to numerous brush and woods fires in recent days as residents took advantage of the warm weather to burn leaves and trash.

"We've doubled the number of calls received in the county to date this year as compared to last year," Gardner said. "The combination of low humidity and fairly dry conditions almost always leads to an increase in fires."

The Warrenton Rural department and Town of Warrenton department also responded Monday to a fire caused by a gas heater at apartments on Bragg Street owned by Frankie Blaylock. The fire had been extinguished when firefighters arrived, and no damage was reported.

Camera Concept

Medical imaging of tumors and other tissue abnormalities in the human body could be greatly enhanced with the development of a new concept in gamma cameras that promises much more sensitivity than existing cameras.

Electronic components critical to the new concept's success are being designed and built at the Lawrence Berkeley Laboratory.

The camera, like other gamma cameras, uses gamma rays instead of light rays to take its "pictures."

"Of course you must remember, when I was getting 'A's' in arithmetic prices were much, much lower."
