Peoples Bank Introduces

"THE ONE ACCOUNT"

"Is It a Checking Account, a Savings Account or an Investment Account?"

"Yes." Peoples Bank introduces one account that does the work of three. It's called, simply, "The One Account," and Peoples Bank is the only major bank in North Carolina to offer anything like it.

1. The convenience of a checking account.

All the funds in your account are fully accessible with regular checks and through the hundreds of PAT and RelaySM system automatic teller machines. There are no service charges as long as your balance is more than \$500 - a feature competitive with most ordinary checking accounts.

2. The security and steady earnings of a savings account.

If your account balance is between \$1,000 and \$2,499, you earn 5 1/4% interest.

3. The higher yield of an investment account.

A balance of \$2,500 or more

earns interest at competitive market rates set by the bank every 30 days. Higher balances earn at higher rates.

You can open "The One Account" with any amount of money. If your monthly minimum balance is greater than \$1,000, you will earn interest as follows:		
5.50% with a minimum balance of \$2,500	6.00% with a minimum balance of \$5,000	5.25% with a minimum balance of \$1,000
7.00% with a minimum balance of \$10,000		

It makes good sense to consolidate your checking, savings and investment accounts into "The One Account," because no other single account can offer the high return, insured safety and convenient access of "The One Account."

It's a checking account, savings account and investment account all rolled into one. To sign up for "The One Account," visit one of the sixty-two Peoples Bank offices serving Eastern North Carolina communities.
