

### Balloting Deadline Listed

# Annual ASC Election Plans Are Announced

Preparations are under way for the approaching annual ASC community election, Lynn S. Carr, ASCS county executive director, announced this week.

According to Carr, a list of names of all known persons who are eligible to receive nominating petitions and ballots is available in the county ASCS office. "Farmers in the Fishing Creek, Fork, Sandy Creek and Shocco communities will begin nominating candidates for the ASC election on Oct. 5," he said.

Nominating petitions have been mailed to eligible farmers and certain information is required to ensure acceptance of the forms. Only resident farmers may be nominated. "Eligible voters who receive nominating petitions are asked to complete the form carefully and include the name of one resident-farmer nominee, the signatures of at least three eligible voters who support the nominee, and certification that the nominee is willing to serve, if elected," Carr said.

Completed petitions should be dated and mailed (or hand-delivered) to the county ASCS office no later than October 30.

According to Carr, valid nominations will be placed on the ballot for the election beginning Nov. 24 and continuing through Dec. 4.

"No person can be denied the right to vote because of race, sex, age, color, religion, handicap or national origin," Carr said. He also outlined eligibility requirements for making nominations and voting in the farmer committee elections: (1) legal voting age, with an interest in a farm as owner, operator, tenant or share-cropper eligible to participate in any ASCS program; and (2) for wives who operate farms with their husbands, listing on the deed of conveyance. "In addition, any person under legal voting age may vote, if he or she runs a farm, and a legal guardian who runs a farm for a child may vote for that child," Carr added.

ANDREWS

### Andrews Finishes

#### Basic Training

AB Rufus "Carlton" Andrews has completed basic training at Lackland Air Force Base near San Antonio, Tex., graduating on Sept. 12.

Airman Andrews entered the Air Force on July 26 through the delayed entry program, following graduation from Warren County High School. He is the son of Sylvia Andrews, of Norlina, and Rufus Andrews, of Ridgeway.

### Nearly \$10 Million

#### Sold On Leaf Mart

The Warrenton Tobacco Market is nearing the \$10 million mark in sales as it enters its sixth sales week.

Mrs. Alice R. Robertson, sales supervisor, reported Tuesday morning that 5,927,071 pounds of tobacco have been sold for \$9,909,082.12. An average of \$167.18 has been reached for the year, with a total of 90,578 pounds going to Stabilization stocks for the year. That figure represents .02% of this year's leaf.

Sold on Wednesday, Oct. 4 were 420,963 pounds for \$707,442.98. An average of \$168.06 was figured for that day, with 51,167 pounds going to Stabilization, or 12% of that day's leaf.

This week's sales days are today (Wednesday), Thursday and Monday.

Individuals may make nominations and vote in any county in which they are eligible ASCS voters, but they may not vote in more than one community. "If an eligible voter has separate farm interests in more than one community in the same county, special care will be taken to ensure that only one ballot is issued," Carr said.

### Hit-And-Run Charges

(Continued from page 1)

James Jerome Shearin, of Rt. 2, Norlina, was charged with accessory after the fact for assisting in repainting the damaged Ford and driving while license revoked for initially driving the car to the nightclub. Timothy Jiggetts, also of Rt. 2, Norlina, who had walked with Thomas Shearin to observe the victim's body, was also charged with accessory after the fact to a felony.

Betty C. Register is congratulated by Keith Molnar, South Hill, Va. store manager, after being selected as Peebles August Associate Of The Month. Mrs. Register is the daughter of Mrs. Ida C. Carroll, of Guardian Care, formerly of Warren County, and the late Robert D. Carroll.

### R-9-P Is Outstanding Tool

Stalk and root destruction of flue-cured tobacco (R-9-P) has become a widely accepted and practiced management tool and it is no wonder why. For the time, effort and expense of stalk and root destruction, the benefits—reduced disease, weed and insect pests for the following year, as well as a healthier crop—make it an outstanding tool for tobacco growers.

Timely stalk and root destruction work well in combination with the use of crop rotation and resistant varieties to help hold chemical costs low and reduce the risks of disease the following year.

Destroying stalks and roots as soon as possible helps control diseases the following year in two ways. First of all, the sooner the stalks and roots are destroyed, the fewer the generations of nematodes and other pests to develop this year will be. Each new generation increases the field population by tens, hundreds or thousands of times.

The second way early destruction helps is that it allows more time for the decay of the stalks and roots before transplanting-time next year. Therefore, timing is critical.

Make plans now to destroy your stalks as soon as ASCS regulations have been met.

**GLENN BOYD INC.**

Dear Friends:  
Due to the tremendous amount of trade-ins and lease returns, our lot is once again packed. In fact we have approximately...  
**250 VEHICLES!**  
We realize the tax has increased by 1% this month. In order to reduce our inventory back to 100 cars, we are offering to pay the 1% increase for you during this sale! Sale begins Wednesday morning, October 11 and will continue through the week until the last customer is served. Financial representatives will be on our lot for your convenience for instant credit approval.  
Join us for huge savings during the week. Note that all prices will be posted in the windows. I thank you for your business.

Sincerely,  
*Glenn Boyd*
