

CHANCE FOR PEACE

Believed Anthracite Miners Will Make Some Concessions Tomorrow.

That They Will Offer a Plan for Avoiding Continuance of Strike Growing—Much is Hoped for from Tomorrow's Conference Between Anthracite Miners and the Operators.

Special to The Sentinel. YORK, April 4.—The anthracite scale committee met to prepare plans for bringing about a settlement of the existing differences in the hard coal fields. While members of the committee will discuss the adjustment to be made, it is believed that certain concessions which the operators have refused, will be either eliminated or so modified that the operators accept them without feeling that they have sacrificed their present position of controlling nothing. Behind the surface of indications of war in anthracite regions there is a curiously making for peace which appears to be growing stronger. Whether a satisfactory solution will be worked out depends upon how the present situation is handled by the operators of both sides.

President Mitchell, of the Miners' union, would not talk about the outcome today, in fact he has nothing to say about the hearing on the situation.

PROCESSES DISPOSED OF IN FEDERAL COURT.

Special to The Sentinel. REENSBORO, April 4.—In the federal court this morning John L. Sney, and L. C. Craver, defendants, were tried and acquitted on charges of illicit distilling. C. McKernan, of Orange, was charged with blocking the jury in several cases, but the jury has returned a verdict at noon. The following cases were disposed of today: John Grubb, Henry J. Davidson, illicit distilling, guilty. J. J. Jones, of Orange, retailing, not guilty.

W. J. Jorrell, of Surry, blockading, 15 months in Atlanta and 1500.

R. Wood, Hilary Wood, Surry, blockading, 15 months in Atlanta and 1500 fine for R. B. Wood, 15 months in jail for Hilary Wood. Up Martin, Sr., Sams, Martin, Jr., blockading, not guilty.

Case against W. B. Lucas, of Surry, charged with blockading, was continued to the 11th. It was believed he would block the jury, but he never came back, and the case was dropped. He made his appearance in court today, ordered to stand, and the marshal promptly removed him.

BOXING MEET AT SAN FRANCISCO TONIGHT

Special to The Sentinel. SAN FRANCISCO, Cal., April 4.—A boxing tournament for the Amateur championship will be held at the Mechanics' Pavilion this evening under the auspices of the Olympic committee. The number of entries is very large and the various bouts will fully occupy the evening and tomorrow. Boxers from New York, St. Louis, Chicago, Philadelphia and other western cities will participate in the contests. Every contestant will be carefully examined by a physician and no man will be permitted to enter the ring unless he has been found perfectly sound.

DEFEATS WAKE FOREST.

Special to The Sentinel. WAKE FOREST, N. C., April 4.—Wake Forest met Wake Forest yesterday at the University of North Carolina on the University grounds. The score was 6 to 0. The Wake Forest team and Wake Forest defeated Wake Forest yesterday.

W. C. is to play A. & M. here today. Wake Forest defeated Wake Forest yesterday.

GLENN'S REPLY TO HIGH POINT UNION'S REQUEST

Special to The Sentinel. RALEIGH, April 4.—Gov. Glenn made a statement this morning regarding the letter he wrote the union men at High Point to reply to one from the union men asking the governor to advise in matter of adjustment of trouble on between the union and manufacturing establishments in that city. He says he wrote them to the effect that as governor he was not sufficiently familiar with differences between employers and union to give advice as to course except general comment that they use great caution and prudence in whatever step is taken.

Governor Glenn denies with indignation insinuations made by some newspapers that he in any way avoided expressing himself. He says he answered the letter in regular course of correspondence, but is not sufficiently familiar with the situation to take issue one way or the other at this time except for general counsel of liberal spirit.

INTERESTING TEST CASE IN NOVA SCOTIA COURT

By Wire to The Sentinel. HALIFAX, N. S., April 4.—The case of O. M. Olmstead versus the King was taken up for hearing before the exchequer court this morning, Judge Burbridge presiding. The plaintiff is from New York and is suing the Dominion government for damages for injuries, etc., received in the Milford wreck of the International Railway in 1904. He was one of the passengers on the train leaving Halifax on the morning that the railway disaster occurred. He claims that he was slightly injured, that he lost a diamond valued at between \$400 and \$500, and other personal property. He also claims \$2,000 damages for loss of time. The case is a test case, as several other passengers, who were on the same train, have filed suits for damages, and whether they will be tried or not depends on the outcome of the present suit.

MILLINERY OPENINGS; MAGNIFICENT CREATIONS

The spring millinery opening of the Meyers-Westbrook Co. is on and will be continued tomorrow and Friday. The display is large and just as advertised, there being many magnificent creations in headwear for the ladies. This department was all day, thronged with visitors and to each a pretty carnation was presented. The decorations were elaborate and the exhibition was in every respect a honor to the new and very enterprising firm and its head milliner, Miss Poindexter. The ladies were unstinted in their praise of her work.

Mr. Westbrook, in an interview, remarked that their sales had been large and entirely satisfactory; that the compliments bestowed upon their display were encouraging as they gave evidence that the ladies appreciated the efforts of his company, to be up-to-date in all of its departments.

Mrs. Douthit's Opening.
The spring millinery opening of the popular and old established millinery store of Mrs. T. B. Douthit is on today and has been largely attended throughout the entire day. Miss Harrison, head milliner, received many nice compliments upon her large and artistic display of pattern hats and bonnets and the orders taken were indeed satisfactory for this, the first day. Mrs. Douthit will continue her opening through tomorrow.

MISSISSIPPI CONVICTS FIGHT FIRE VALIANTLY

By Wire to The Sentinel. JACKSON, Miss., April 4.—Buildings of the state convict farm in Rankin county, two miles from Jackson, were destroyed by fire early this morning. The prison was occupied by 150 white prisoners. Not one escaped but all fought valiantly to check the flames. Fifty head of cattle, large amount of provisions and farming implements were destroyed at a loss of \$40,000.

A letter was received today from Major John G. Young, of Winston-Salem, stating that the city militia of Winston and two bands would come to the 29th of May celebration.—Charlotte Chronicle.

ONE MORE RESCUED

Man Entombed in French Mine Twenty-Five Days Still Alive.

An Almost Miraculous Escape from Death.—At First It Was Reported That Ten More Had Been Rescued But This Proved to Be Incorrect.

LENS, France, April 4.—Men who have been exploring Sallaum mines since Friday last when fourteen miners who had been entombed 25 days were taken out alive, today came upon ten other miners with life still in them. They were found in pit No. 1 and quickly brought to the surface. The rescue of these men is regarded as even more miraculous than the finding of others not only because they have existed twenty-five days underground, five days more than the other men were buried, but because pit No. 1 was damaged more than any other by the explosion. The newly discovered men are in a frightful condition of emaciation. The dangers they faced and hardships they endured were even greater than those of the men found last week.

Later.—One additional survivor of the recent mine disaster, in which 1600 men lost their lives, was taken from the wrecked mine this morning. The rescued man had been underground twenty-five days and was in a pitiable condition. He could scarcely walk or talk. It was commonly reported about the mine this morning, when news of another rescue spread, that nine other men had been rescued. So far but one has been sent up alive and it is believed reports of additional men arose from the fact that he was found near a group of bodies of men who only recently died or were dying when reached by the rescuers. The rescued man said that, after food became exhausted, they turned cannibals and devoured corpses of two boys.

MEETS AT ATLANTIC CITY

By Wire to The Sentinel. ATLANTIC CITY, N. J., April 4.—The twelfth annual session of the New Jersey State Council Daughters of Liberty opened here today. Delegates representing every local council in the state are here and the Grand Atlantic hotel, where the delegates have established their headquarters, is crowded to overflowing.

This morning the credential committee held a meeting in the amusement hall of the hotel, to receive the credentials of the delegates, who came to register. The opening session of the council will be held in the Steel Pier theatre on Virginia avenue and the Boardwalk this afternoon.

This session of the state council will be the most important in the history of the order, as it will decide the question whether or not men shall be admitted to membership without previously becoming affiliated with American Mechanics' orders. At the national convention held in Chicago last August it was resolved to make the question one of state option. Nine states at their annual conventions since that time have adopted the measure as follows: Pennsylvania, Vermont, Georgia, Tennessee, Kentucky, Missouri, Colorado, Wisconsin and California. It is quite likely that New Jersey will follow suit, although the delegates are said to be nearly equally divided on the question.

PROTEST BY DOWIE

People Will Not Submit Quietly to This Move.

Issues Orders to His Chief Counsel in Zion City as to Course of Proceedings He Has Decided Upon And Which He Urges His Counsel to Pursue.—Dowie Has Been in Mexico.

By Wire to The Sentinel. CHICAGO, April 4.—John Alexander Dowie, with every fighting instinct aroused to the highest degree, is on his way to Zion City. He will make a last desperate effort to regain control wrested from him by the administrative body of his church. Dowie sent a telegram from his mountain retreat in Mexico, directing Deacon V. Barnes, his general counsel, to cancel deputy overseer Voliva's power of attorney and appoint Fielding H. Whitte in his stead. Whitte is Dowie's friend in Zion City. Voliva and his followers do not believe Dowie will be willing to enter court and suffer exposure of his private life.

Voliva and his adviser have made plans that will combat Dowie's efforts to regain control.

CHANGES IN ARMY PROMOTIONS MADE.

By Wire to The Sentinel. WASHINGTON, April 4.—The promotion of fifteen civil engineers from the rank of lieutenant, junior grade, to that of lieutenant comes as a surprise to the members of that corps, but it has not, by any means, represented the wishes of those who desire that the rank of the civil engineers should be changed in order to make the branch more attractive to civilian candidates. A proposition was recently made in favor of having the rank fixed as to make additional number in the higher grades. Under the law this can be done by the president by an executive order. The recommendation made by representatives of the civil engineers was not adopted; instead the president decided to confine the change to the rank of lieutenant and lieutenant junior grade, so as to have promotions with the line officers with whom they take precedence, as is the case with officers of the other staff corps of the navy. This has the immediate effect of promoting fifteen junior civil engineers, but it is not considered as affording the relief which the civil engineers have been holding out as their just due.

STATE BRANCH OF RED CROSS SOCIETY FORMED

Special to The Sentinel. RALEIGH, April 4.—North Carolina State Branch National Red Cross Society has been formed at Asheville with Mrs. Z. B. Vance, widow of the late Senator and Governor Vance, president; Mrs. Theo. Davidson, wife of former attorney general of state, secretary. Other officers will be chosen later.

W. A. Sullivan, of Pinnacle, was one of Winston-Salem's visitors today.

MANY PEOPLE KILLED IN RAILROAD WRECK.

By Wire to The Sentinel. NORFOLK, Va., April 4.—The "Canon Ball" passenger train on the N. & W., due to arrive here at 11:30, was wrecked at Jupiter, twelve miles west of here. List of the dead and injured is said to be large. Numbers and names are lacking. Physicians are being rushed to the scene in special trains from both Norfolk and Suffolk.

NEW APPLIANCES FOR TROOPS IN THE FIELD

By Wire to The Sentinel. WASHINGTON, April 4.—The assistance officer in the Army building in Whitehall street, has been instructed by Commissary General Sharpe to get up what is known as a "housewife." This is one of the ideas adopted from the Japanese, who equipped their soldiers with these little packages, containing useful articles which men are likely to need when they are away from home. In the soldiers' new kit which the general staff of our army recommended for adoption there is provided a "housewife," to contain some buttons, thread, pins, and, if practicable, a pair of small scissors. The work of getting up this new article, which will be given to each of the sixty thousand soldiers of the army, will develop on the subsistence department, and for the present the army commissary in New York will have the work of preparing samples, if he can find nothing in the department stores to answer the purpose. Of course, the article must be a model of condensation, so there may be a minimum of weight combined with an economy of space. The "housewife" will have to be carried by the soldier, and it is desired that the burden of the trooper shall be increased as little as possible.

CENTENARY CHIMES WILL BE RUNG AT 8:45 TONIGHT

This evening at 8:45 o'clock, Winston people will have the pleasure of hearing the eagerly looked forward to Centenary chimes in their beauty and sweetness. This is the quality aimed at by the manufacturers, Messrs. Walter H. Duffree & Co., of Providence, R. I. This gentleman is present himself to see that they are properly arranged. Carrying power and sweetness are incompatible qualities, so the latter is what Centenary chimes will possess. The atmospheric conditions, as well as freedom from the usual every day noises on Sunday, will enter largely into distance at which they can be heard.

Tubular chimes, similar to these, have been placed in Lawrenceville, N. J. School, a preparatory school to Princeton College; Vassar College, where they are used by the pupils for marching as well as school calls. In some homes North they are used for the morning calls. In Charlotte, Mr. Stewart W. Cramer has a set connected with his organ in his home. These tubular bells are used in many of the cathedrals North for altar bells. Indeed, music never sounds sweeter than on some clear night when the usual traffic of the day is over.

Bells two inches in diameter are used in the records on the gramophone, graphophone and most of Edison's inventions. The tubes themselves, fifteen in number, are worth examining. In the tower of the belfry they are so placed that by hands and grooves no accident can possibly happen to them, also caps above the tunings, preventing any water from injuring the key board. This is composed of fifteen notes from A flat to D flat, in which places in three keys are played; also below this are numbers so that even a child, after a little practice, can use them. Ropes run through grooves are used in the first landing; these are connected with wires which are attached to the hammers above and strike the bell at the top of the cylinders. The Providence company, from which these chimes were purchased, have forwarded heretofore one of these latest sets.

The electrical connection will not be made by Mr. Joseph Latham till after Easter; then they will be fixed so that they can be attached to or detached from the organ. The chimes will be quite an addition to Centenary church and Winston itself.

CHICAGO DECIDES.

That City Votes to Own But Not to Operate the Trolley Lines There.

The Matter of Operation, Mayor Dunne Says, Will Be Taken Up Later And Decided On.—Ownership Only Authorized by Election in Chicago Yesterday.

By Wire to The Sentinel. CHICAGO, April 4.—Mayor Dunne said this morning he would now go as far toward releasing his dream of the city trolley system as is authorized by result of yesterday's election. "I shall proceed at once," he said, "to take over traction lines. Never mind about operation. That question can be again submitted to the people at a general or special election. I am going to take over lines and a certain Chicago will find a way to operate them."

BIG CELEBRATION AT TUSKEGEE INSTITUTE

TUSKEGEE, Ala., April 4.—Today is the opening day of the celebration in honor of the twenty-fifth anniversary of the establishment of the Tuskegee Normal and Industrial Institute and everybody seems to be in a fever of excitement and anticipation. The celebration will last three days and will begin this evening with a large meeting, which will be attended by the students, the members of the faculty and a large number of invited guests, including Mr. Andrew Carnegie, President Eliot, of Harvard University, Secretary of War Taft, Robert C. Ogden, president of the Southern Education Board, Seth Low and many other men of distinction.

Some of the invited guests have already arrived, while others are expected here this afternoon. Mr. Ogden, who is also president of the board of trustees of the institute, will bring a number of his friends from New York on a special train. The list of speakers, who will deliver addresses during the three days of the celebration includes, besides those already mentioned, the following:

Bishop William Crowell Beane, who will preach the anniversary sermon; Dr. M. C. B. Mason, corresponding secretary of the Freedmen's Aid and Southern Education Society, of the Methodist Episcopal church, of Cincinnati; Principal Booker T. Washington of Tuskegee Institute; Judge W. H. Hart, of Tuskegee; Prof. S. G. Atkins, secretary of the Board of Education, African Methodist Episcopal church, Kansas City, Kan.; J. C. Napier, president of the Ore. Cent. Saving Bank, Nashville, Tenn.; President John H. Abernethy of the University of Alabama; Dr. E. C. Morris, president of the National Baptist Convention, Helena, Ark.; Dr. Lyman Abbott, Dr. H. B. Frissell, principal of Hampton Institute; Dr. W. Bruce Evans, principal of the Armstrong Manual Training school, Washington, D. C.; Bishop G. B. Galloway, of the Methodist Episcopal church, South, of Jackson, Miss.; Oswald Garrison Villard, of "The New York Evening Post" and others.

GOES TO AFRICA TO STUDY SEVERAL TYPES

By Wire to The Sentinel. NEW YORK, April 4.—Dr. Nicholas Senn, of Chicago, sailed today for a four months' tour through Africa for the purpose of making a study of the lowest types of humanity to be found in the equatorial regions of the dark continent. He will first go to Liberia, Portogee, to attend the annual session of the Medical Congress. From there he will cross the Mediterranean to Africa and travel by caravan and rail from Northern Africa to the South end. He expects to arrive at Cape Town after a journey of four months.

Card of Thanks.
We desire to take this method of extending to our many friends our most sincere thanks for kindness shown us during the illness and after the death of our little daughter.
Mr. and Mrs. J. H. Smith.

The Hospital Association held its monthly meeting yesterday afternoon. Only routine business was transacted. Several bills against the institution were paid.

Emperor of Japan.
