

1906 YEAR.

WILL REPEAT DEMANDS THIS AFTERNOON WITH SOME CONCESSIONS.—OPERATORS REJECT THESE PROPOSALS.—MICHIELL WILL THEN PROPOSE DIFFERENCES BE SUBMITTED TO STRIKE.

By Wire to The Sentinel.
WASHINGTON, April 5.—In event of a strike operators refusing to accept of demands of the miners they be modified or in original form presented at the joint conference of Mitchell will, in last evening, to avoid a strike propose that differences be submitted to arbitration. The refusal to consent to the arbitration proposition was a strike.

The joint committee met again this evening to go over the demands which have been before the joint conference with operators this afternoon. The operators accept the proposition for arbitration the scale committee will call convention next week at Asheville or Wilkesbarre.

The committee was uncommunicative this evening on the outcome. The position of the operators is unchanged this evening. When the proposition for arbitration was suggested they said the arbitration commission represented an arbitration principle and that miners had virtually refused to accept it or continue operations under the commission to another day.

It is not known whether the proposition this afternoon will be a success. Operators have stated they will accept the arbitration hearing this afternoon's session of the conference will be called at 1 o'clock.

ATTEMPT ASCENT OF LOFTY MOUNTAIN.

By Wire to The Sentinel.
ME, April 5.—The Duke of the Duke has almost completed his preparations for his attempt next July to ascend Mount Ruwenzori in Equatorial Africa. In view of the experiences of Mr. Douglas H. H. and other explorers, the Duke considers that the time has come for the most propitious season for the attempt. Ruwenzori, which is an altitude of about 17,000 feet, is between the lakes Albert Nyanza and Edward Nyanza and is bounded by Stanley as one of the peaks of the "Moon," the range of the Pindus, the Greek geographer of the second century, believed was the source of the Nile.

The Duke and the Italians who will accompany him will probably land at the lake and will travel by train to Florence on Lake Victoria. The expedition will embark and sail on the lake in order to reach the shore. It is here that the real work will be organized. Besides the Duke it will consist of about 100 men, to be employed in transporting the baggage of the expedition, and the Lake Victoria, the expedition will cross that part of Uganda between the lake and the spurs of Ruwenzori. This is to take fifteen days. As this is under the British protectorate it is not expected that the expedition will meet with any difficulties.

The expedition will take a number of the newest scientific instruments which have been tested in the Geological Observatory here. He hopes he will succeed in his attempt unless heavy rains or mists not interfere. It is stated that the Duke, a German member of the Alpine Club, has ever succeeded in climbing the top of Ruwenzori.

FOR EATON'S COURT IN MARCH.

By Wire to The Sentinel.
PELICE Crutchfield's report shows that there were 119 convictions before the mayor and judges were sent on to the court. The fines and costs amounted to \$480.75; collection cash, \$250.00.

125 cases before the mayor. Peary had 11 cases convicted; bound over; J. R. Hutton had 2 and 2 bound over; F. A. had 6 cases and 2 bound over; Hartness had 10 cases; R. W. had 21 cases and 2 bound over; Valentine had 20 cases and 1 over; C. A. Pratt had 18 cases; C. Royal 7 cases.

Holt, of Oak Ridge, was in this afternoon.

IMMIGRATION BILL TO BE REPORTED SOON

By Wire to The Sentinel.
WASHINGTON, April 5.—The House Committee on Immigration will be prepared to report an immigration bill in a few days, providing for important changes in the laws. A subcommittee is now considering the dozen or more bills before the committee, and from this number a general bill will be framed. Chairman Howell hopes to have the bill on the House calendar this week. So far as the committee has gone the bill reported will be essentially different from the recommendations of the Immigration Bureau. The majority of the members of the committee are in favor of a head tax of \$5. This will undoubtedly be one of the provisions of the bill. Another provision will probably require that immigrants shall have a certain amount of pocket money with them when they arrive later. The amount now favored is \$50 for the heads of the families. The object of this provision is to keep out poverty-stricken class and also to prevent violations of the contract labor laws. There will also be a provision in the bill for an educational test of immigrants. Representative Gardner, of Massachusetts, is making a strong effort to have the bill so framed as largely to restrict the volume of immigration, but other members of the committee are in favor of regulations insuring physical, mental and moral soundness, regardless of the number of people admitted.

FAMOUS ARTIST AND BRIDE MAY VISIT CITY

The home of our townsman, George P. Pell, was delighted on yesterday at the reception of a telegram from New York announcing the arrival there from Europe of Mr. Pell's cousin, Madam Gustav de Strale, wife of the Lord High Chamberlain of Sweden who has just been placed in charge of the affairs of Sweden in Washington and Mr. Duncan B. Harding, a famous artist of Paris, with his beautiful bride, late Miss van Benthuyzen, a New Orleans society belle, to whom he was wedded on the 7th ultimo, at Geneva, Switzerland. Mr. Harding and bride passed Greensboro this morning on No. 37 and were joined by Mr. Pell who rode with them as far as Charlotte. They were on their way to New Orleans for a visit of two weeks and it is probable that on their return they will visit Winston-Salem. It will be interesting to the other North Carolina families to know that Madam de Strale was Miss Marie Virginia Harding, daughter of Mr. Edward L. Harding, a Connecticut merchant who moved to Raleigh before the war and married a well known Carolina belle, Miss Lucy Booker Ramsay, of that city. Mr. Harding, the artist, is the second son of that marriage, and was born in Raleigh. He now resides in Paris.

PLANTING OF GLASS IVY BY THE S. F. A. SENIORS

The Seniors of the Salem Academy and College met at 9 o'clock this morning and planted the glass ivy just below the south entrance of the Academy. The happy event was attended by the entire school. The following program was carried out:

Song, "Salem."
Short addresses by Bishop Rondthaler, Dr. J. H. Clewell, Miss Emma Lehman and Miss Blanche Nicholson, president of the class.
Song, "Ivy."
Song, "Gaudianus."
Planting of ivy, by class officers.
Class yell.

REPRESENTATIVE POLLOTT ONE OF COMMITTEE

By Wire to The Sentinel.
WASHINGTON, April 5.—Speaker Cannon today designated the following members of the house to represent it at Philadelphia April 17, at the two hundredth anniversary of the birth of Benjamin Franklin: Olinde, Pennsylvania; Stevens, Minnesota; Canning, Iowa; Watson, Indiana; Fassett, New York; Sears, Massachusetts; Smith, Maryland; Pollo, North Carolina; Ryan, New York; Watkins, Louisiana.

George P. Pell came in this afternoon from Charlotte, going to Mayodan.

LAVA IS FLOWING. Mount Vesuvius in Italy Again in Eruption and Situation is Very Serious.

People of Naples and Neighboring Towns in Great Alarm, Many of Them Having Fled in Terror.—Pedestrians Using Umbrellas to Protect Them from Showers of Lava.

By Wire to The Sentinel.
ROME, April 5.—Mount Vesuvius is again in eruption. The situation is very serious. Five streams of lava are descending the mountain sides into the villages. All residents of the neighboring villages have left their homes and taken refuge out of reach of the lava. A dispatch from Naples says that showers of ashes from Vesuvius are falling on that city. The eruption has become so active that people in the surrounding villages have become greatly alarmed. Showers of ashes are falling in this city so thick that pedestrians are carrying umbrellas. The sky is obscured from view.

WILL GREENSBORO OR RALEIGH BE CHOSEN?

Special to The Sentinel.
RALEIGH, April 5.—A committee consisting of A. M. Seales, Z. V. Taylor, P. D. Gold, R. D. Douglas and G. F. Newman, latter secretary of the chamber of commerce, are here to appear before the State Democratic Executive Committee tonight and urge the selection of Greensboro as the place for the state convention. It is difficult to judge at this stage of the contest what the outcome will be between Raleigh and Greensboro. Committee men, many of them, when asked as to the situation say they are in favor of Greensboro but it looks like Raleigh will get it. However, to a man up a tree it appears that the committee men favoring Raleigh are mighty scarce.

UNIVERSAL POSTAL CONGRESS OPENS.

By Wire to The Sentinel.
ROME, April 5.—The Universal Postal Congress opened here today with every country belonging to the Universal Postal Union represented. The United States is represented by Capt. N. M. Brooks, superintendent of foreign mails in the Postoffice Department, and Edward Rosewater, proprietor of the Omaha Bee, who was one of the delegates to the Congress of 1897, which was held at Washington, D. C.

One of the questions which will probably come up for consideration is the adoption of a universal postage stamp. Mr. Rosewater is opposed to the plan, on the ground that, as the stamps would be alike, it would be impossible to strike a balance, for there would be no way of telling where the stamp had been purchased.

CONDITIONS IN CHINA ARE MUCH IMPROVED.

Special to The Sentinel.
WASHINGTON, April 5.—Recent reports received by the state department from agents in China show that conditions in the empire are improving. Stringent orders were issued about two months ago by the emperor to various viceroys to take drastic steps to prevent any further quarrels.

It is now the opinion of the officials of the state department that a general uprising, which two months ago seemed certain, will not occur, at least in the immediate future.

DOLAN IS EXPELLED BY DISTRICT UNION.

By Wire to The Sentinel.
PITTSBURG, April 5.—Delegates to the District miners' convention this morning expelled President Patrick Dolan and Vice President Bellingham from the organization. Dolan still maintains his legal right to the presidency and the matter will now go to court.

Maj. T. J. Brown and Mrs. C. L. Summers left this afternoon for Ingleside to visit Mrs. Willis E. Hall. They will return next week.

PLAN OF GERMANY. Now That Morocco Matter is Settled There is Much Interest in This.

Prominent Newspaper Asserts Belief That Kaiser's Next Move Will Be Relative to Siam.—Peace of World May Be Put in Menace by Early Developments.

By Wire to The Sentinel.
BERLIN, April 5.—Now that Morocco question has been settled peace of the world is likely to be in menace again. Kaiser, encouraged by the outcome of the Morocco conference, seems determined to share in Siam. The Pan-German Weekly Review today publishes an article entitled, "After Morocco comes Siam," which seems to give a clue to the German program. The Review argues that Germany cannot recognize the existing agreement between England and France, defining spheres of influence in Siam and points out that Germany's commercial interests there are important and in fact greater than those of England or France. In conclusion the article says: "We express a strong desire that the government will defend its interest in Siam more vigorously and with less tendency to compromise than it did in Morocco." Sensational developments are expected soon.

INSURANCE HEARING IN STATE OF WISCONSIN.

By Wire to The Sentinel.
MILWAUKEE, Wis., April 5.—Mr. Miles M. Dawson, of New York, the actuary of the Armstrong Insurance Investigating Committee, arrived here today to assist the Wisconsin Legislative Committee in the investigation of the Northwestern Mutual Life Insurance Company.

CIRCUS IN CHICAGO.

By Wire to The Sentinel.
CHICAGO, April 5.—Ringling Bros. Circus opens the circus season in this city tonight and will give its first performance at the Coliseum, where the preparations have been going on ever since March 29.

According to the announcement of management of the show it will be bigger and more interesting than ever before. The menagerie has been augmented since last year and includes several rare and valuable additions. The circus has a herd of forty elephants, which is said to be half of the elephants in the United States. There are 250 horses with the show this year, also 300 dancing girls and a total of 1,300 performers. Among the most thrilling features will be a young German, who will ride down a deep incline on a bicycle and after turning a complete somersault in the air, land on his wheel on a platform 875 feet distant. A French woman will do a similar trick seated in an automobile.

CHICAGO PACKER SWIFT DIES IN BOSTON TODAY

By Wire to The Sentinel.
BOSTON, April 5.—Edward C. Swift, Chicago millionaire beef packer, died here early this morning. He had lingered between life and death the past four days, suffering from pneumonia.

UNION VETERANS' CELEBRATION.

By Wire to The Sentinel.
UTICA, N. Y., April 5.—The Onondaga County Veterans' Association will celebrate the anniversary of the close of the Civil War, which ended with Lee's surrender to General Grant on April 9, 1865, by a banquet in Bacon Hall tonight. The principal speaker of the evening will be Gen. S. M. Curtis, now of New York, but formerly of Ogdensburg. Gen. Curtis is often referred to as the Hero of Fort Fisher. He was commander of the Union forces which took Fort Fisher, and is at present national inspector of soldiers' homes. The entertainment committee of the association has made special efforts to make the anniversary banquet a memorable affair.

Deputy Sheriff Coffey arrested a white man named Snow last night and committed him to jail. Snow is accused of whipping his wife and daughter, both of whom are confined to their beds by sickness, the wife, having pneumonia and the daughter diphtheria. Deputy Coffey says that Snow, whose home is just east of the old Winston reservoir, was intoxicated when arrested.

CRITICISM OF NAVAL APPOINTMENT SURPRISES

By Wire to The Sentinel.
WASHINGTON, April 5.—Navy Department officials who have to do with the personnel of the service are much surprised to learn that any fault is found with the authorities over the issue of orders which transfer Chaplain W. H. J. Resney, of the Roman Catholic church, from duty at the Brooklyn navy yard, to the yard at Portsmouth, N. H., where that officer will be attached to the prison ship Southey. The assignment was regarded as a compliment to the chaplain, and to one here dreamed for a moment that it could be construed in other way. Any movement in behalf of the chaplain on the part of his friends in New York will be regarded here as misguided and certainly without the authority much less the instance of Captain Resney. He is described by the officers of the Bureau of Navigation as one of the best and most useful of the naval chaplains, and on this account was selected for duty with the prison ship, where he will get sea duty pay, and the work requires patience, discretion and industry. Not every chaplain will do for such a responsible billet, and the fact that objection is made on the part of some of the chaplain's admirers appears to the naval authorities here as altogether unprecedented. It is not likely that the orders of the chaplain will be changed under the circumstances. He was not selected by way of punishment of any sort or as a result of political operations of any kind. It was his turn to get other duty and his ability and record entitled him to the compliment of getting some duty which is difficult in proportion to his fitness to fill the bill.

FEDERAL COURT MATTERS

Special to The Sentinel.
GREENSBORO, April 5.—So far the federal court has disposed of quite a number of the smaller cases. There was nothing of special interest in the proceedings today.

The sending of three men from one neighborhood in Surry county to the penitentiary and one to jail, by Judge Boyd yesterday afternoon produced something of a consternation among the moonshiners. For several courts these back-wooders have been dealt with very leniently. Judge Boyd has come to the conclusion that more severe judgments are needed to repress the increasing number of little stills in almost every county, since the Watts law went into effect. From Orange county alone, where formerly no cases at all came before the federal court there are eight on the present docket for blockade distilling. The men of Surry, who were sent to the penitentiary yesterday are from a section where blockading has always been a regular business. It was the scene of the killing several years ago of Deputy Collector Barnwell, a brother-in-law of Judge Ewart, by moonshiners and recently officers have been repeatedly shot at from ambush in that section. Judge Boyd said in passing sentence on Jarrell, Wood and Copperplate, that the lawlessness among this element of Surry county's population had to stop. If there was any way to do it, by punishing those convicted in the federal court of violations.

In the case against a negro, named Will Jones of Orange Tuesday a white man, principal witness for the government, testified he went to Jones home Sunday morning and got him to sell him a jug of whiskey. Judge Boyd directed a verdict of not guilty, saying a white man who would admit he induced a negro on a Sunday morning at his own home to sell liquor was not worthy of belief.

PRINCE VON BUELOW BECOMES SUDDENLY ILL

By Wire to The Sentinel.
BERLIN, April 5.—Prince Von Buelow, German chancellor, was overcome with a fainting attack in Reichstag today and was carried unconscious to an ante-room. It is still uncertain whether the attack was a mere fainting spell or the result of some more serious illness.

A SPLENDID PLAY.

A small audience witnessed "The Mummy and the Humming Bird" last night. The performance was a splendid one and characterized by some really artistic work. The leading roles were portrayed in an unusually effective manner. The play deserved better patronage.

ELKINS TO SPEAK. West Virginia Senator Announces That He Will Discuss Rate Bill Friday.

Elkins is Chairman of Senate Committee on Interstate Commerce and Has Been Regarded as One of the Leaders of the Opposition to the Bill.—Panama Canal Committee Appoints Sub-Committee.—Business of House.

By Wire to The Sentinel.
WASHINGTON, April 5.—When the senate met this morning Mr. Elkins, of West Virginia, chairman of the committee on interstate commerce, gave notice that he would speak tomorrow afternoon on the pending railroad rate bill.

Federal Court Bill Passes. A bill providing for holding of six months term of federal court at Birmingham, Ala., passed by a vote of 88 to 48. The measure was before the house yesterday but failed of passing then because of the opposition of Mr. Wiley of Alabama.

Sub-Committee Appointed. The senate committee on the Panama Canal today appointed sub-committee consisting of Senators Kittredge, Knox and Morgan, to devise a bill to provide permanent form of government for the canal zone.

SEVERAL ADDRESSES AT TUSKEGEE TODAY.

By Wire to The Sentinel.
TUSKEGEE, Ala., April 5.—One of the interesting features of the anniversary celebration is the revival of old-time plantation melodies. The student choir has been drilling several weeks for the occasion.

Today's addresses were for most part by negroes, either graduates of Tuskegee or associates of Washington in the education of the race. The first was by J. M. Canty, graduate of class of 1890, who has been teacher for sixteen years at West Virginia Institute.

Principal H. R. Fissel, of Hampton Institute, Hampton, Va., spoke of the world-wide influence of the founder of Tuskegee.

Dr. W. Bruce Evans, principal of the Armstrong Manual Training School, Washington, told of the influence of Tuskegee and Hampton, not only upon methods of teaching negro race but upon education generally.

At the afternoon session John W. Robinson, graduate of Tuskegee who has been six years in Africa teaching American methods of cotton culture, spoke of his work in that country. He predicted a great commercial and industrial future for Africa if controlling powers there will only cultivate the friendship of the native, educate his mind and train his hand to cultivate the boundless resources of the continent.

KING PRINTING CO. IS INCREASING FACILITIES

The King Printing Company, this city, now has one of the very best equipped plants in the entire South and is turning out high-class work of various kinds. Some idea of the amount of business being done by this company may be gained from the fact that it is operating day and night shifts and is arranging to install another hottype machine for law brief work.

The King Printing Company is making a specialty of law brief work and its facilities for doing such work in a neat and accurate way are unsurpassed. Special attention is paid to this class of printing and its execution is assured at all times.

PROBABLY MANY KILLED IN A GERMAN TOWN.

By Wire to The Sentinel.
BERLIN, April 5.—The large hall in which local associations in Nagold, South Germany, were celebrating their annual fête, collapsed this morning. All were buried beneath the ruins. Estimates regarding the number killed vary from one to three hundred. Many corpses have already been extricated from the ruins.

—Mr. Paul Elkin, son of Mr. J. R. Elkin, of this city, has purchased the Siler City Grit and will hereafter edit that paper, which is published weekly. Paul's many friends here wish him well in his journalistic venture.
