RED MEN NOW IN SESSION AT RALEIGH

Special to The Sentinel. RALEIGH, May 3.—The eighth annual session of the great council Improved Order of Red Men for North Carolina has organized for business with eighty representatives from counties in all parts of the state present. The report of the keeper of records showed a gain of twenty new lodges in the State during the year and 1,200 new members. The "long talk" of the great sashem and report of other officers were received and referred to special committees for distribution and classification of the work.

Invitations were received from High Point, Greensboro, Wilmington and Elizabeth City for next year's great council meeting. The selection of the place is left open for the president. The Black Hawk team of Red Men last night exemplified the work of the various degrees. There was also a public reception during the evening complimentary to the visiting representatives. From 5 to 6 o'clock was spent with Col. F. A. Olds in the North Carolina Hall of History.

PROPOSES TO CONNECT WITH N. & W. HERE.

HIGH POINT, May 2.—A large and enthusiastic meeting of citizens was held tonight in the opera house for the purpose of considering a proposal by Mr. D. Allen and associates for a new railroad to run south to connect with one of the trunk lines. The meeting was unanimously in favor of the proposition and another meeting will be held Friday night to consummate the plans.

The meeting was the direct result of the Philadelphia syndicate represented by Mr. E. D. Steele, of this place, the company that will build a trolley line from High Point to Thomasville, in buying out the Thomasville and Glen Anna Railroad, owned by Mr. M. J. Jones, of Thomasville. This line runs south from Thomasville, a distance of 14 or more miles and it is intended to bring this line to High Point, making a complete belt and carrying it on to Winston, then to connect with the Norfolk and Western.

GOLDSBORO DEPOT MATTER UNSETTLED.

Special to The Sentinel. RALEIGH, May 3.—The members of the North Carolina Corporation Commission went today to Goldsboro to give both sides a hearing as to the location for the union depot, which the Atlantic Coast Line, the Southern and the Atlantic & North Carolina railroad companies have agreed to build. A certain element of the citizens are opposing the site which the railroad companies have agreed upon. The commission will hear the contentions of both sides before deciding the matter.

ACTOR-SHAW WEDDING IN CITY OF LONDON.

By Wire to The Sentinel. LONDON, May 3.—William Waldorf Astor, Jr., and Mrs. Nanette Langhorne Shaw, of Richmond, Va., were married in All Souls church this afternoon. Only immediate relatives of the contracting parties were present.

Ten Hungarians passed through the city this afternoon. They came from Hagerstown, Md., and were en route to Charleston, S. C.

Leslie M. Shaw.

Secretary of the Treasury.

BASKET BALL GAME AT Y. M. C. A. TONIGHT

Receipts From This Championship Contest Will Be Sent to San Francisco Y. M. C. A., Which Suffered Loss by Recent Disaster.

The proceeds from the championship basket ball game to be played in the Y. M. C. A. gymnasium tonight, will be contributed to the Y. M. C. A. relief work at San Francisco. The \$10,000 Y. M. C. A. building at San Francisco was wrecked by the recent earthquake, and the 1700 American Young Men's Christian Association are responding to the call for aid. The local association has decided to send the proceeds of the game tonight in addition to a number of personal subscriptions.

The game will be one of the most interesting played in the Y. M. C. A. gymnasium this season as it will probably decide the season's championship. The season's record is as follows: Red, won 2, lost 0; White, won 2, lost 1; Blue, won 0, lost 2; Orange, won 1, lost 2. If the Red win tonight they will be champions for the season. If the Blue win, the Red will have to play the deciding game with the White later.

The line-up is as follows: Red, Lawrence and Nann, forwards; Black, well (Capt.) center, Ashburn and Johnson, guards; Davis, substitute. Blue, Martin (Capt.) and Stith, forwards; Smith, center; Tesh and Maxwell, guards; Naylor, substitute. Game called at 8:15 o'clock.

FARMERS ORGANIZING IN STOKES COUNTY.

According to the Reporter the farmers (tobacco growers) of Stokes county, are organizing. During the past week sub-associations of the North Carolina Farmers Protective Association were organized in Wearfield, Francisco, Danbury and Capella townships. The object of the association is to pledge the farmers to stand together and hold their tobacco in order that more reasonable prices may be paid them for their product. The association proposes, when it shall have enlisted all the farmers, or even a majority of them, to be in a position to dictate prices and guarantee an average of at least 12 1/2 cents. The plan is to erect in the principal tobacco towns prize houses or packing houses where those who are not able to hold their tobacco may carry it and borrow upon the product about 75 per cent. Money for this purpose is guaranteed the farmers by practical business men all over the country and by the banks of the South.

ONLY 291 FAILED TO PAY POLL IN STOKES.

Several citizens of Winston-Salem are natives of Stokes and they are naturally interested in the affairs (politically and otherwise) of that county. Therefore the following from the Reporter will be of interest to them:

Two years ago there were 473 unpaid polls in Stokes county. This year there are only about 291, and this figure includes all those who are taxable by wrong names and those who have died and removed to other counties. What proportion of these are Democrats and Republicans, cannot, with any accuracy, be determined, as both parties are making their usual claims. But it is certain that nearly 200 more votes will be cast at the next election over the vote of 1904, and for this reason there will be a closer fight and more hotly contested election than was the case two years ago.

GOV. GLENN'S SPEECH IS HIGHLY PRAISED.

Special to The Sentinel. RALEIGH, May 3.—Congressman W. W. Kitchin in a letter received here today said, in speaking of Governor Glenn's recent address before the congressional committee on the Appalachian Forest Reserve bill, that the governor's "magnificent address in behalf of the Appalachian Forest Reserve bill, in my judgment, created more comment than I have ever heard before of any speech before a congressional committee."

WILL OF J. D. WALL FILED BY EXECUTOR

Postmaster C. A. Reynolds, as executor of the will of the late John D. Raleigh Times, spent afternoon here with Clerk Tramm on probate.

Mr. Wall's estate is estimated to be worth about \$25,000. All of his property is left to his wife and two children, Hilda K. and John D. Wall. The question of selling Mr. Wall's interest in the hardware business of the Wall-Huske Co. is left optional with the executor. The amount acid by the deceased was \$14,000.

LIBERALS PLEASED AT WITTE'S RESIGNATION

They Think With Him Out Of The Way There Is Stronger Probability of Securing Reform Concessions at Hands of the Czar.

By Wire to The Sentinel. ST. PETERSBURG, May 3.—The downfall of Witte and the elevation of M. Goremykin to be premier is the sole topic of discussion in official and other quarters. The change is acceptable to liberals, who declare there is a stronger probability of securing reforms by Russia with Witte's advice no longer headed by the Czar. The new premier is the greatest agrarian expert and will devote much of his time to devising means for peacefully settling unrest among peasants, which Witte has been unable to do.

GREAT CROWDS AT WAREHOUSE MEETINGS

Another large crowd assembled at the Star warehouse last night in the series of services being held by Evangelists Yeuell and Saxton. The enlarged platform was well filled with singers and Mr. Saxton led the chorus. The famous "Glory Song," used so much at the Torrey-Alexander meetings, is being sung. Mr. Saxton's solo, "Going Down to the Grave," was effectively sung. His voice is a deep, rich baritone. At the close Mrs. Saxton rendered another violin solo.

Evangelist Yeuell gave another strong sermon on the text: "And Lot pitched his tent toward Sodom." He gave a vivid picture of Lot's separation from his uncle Abraham, his sojourn in Sodom and his escape through the intervention of Angels.

He showed how many young men pitch their tents toward Sodom and then enter it. His use of scripture, poetry, literature, sarcasm and humor, shows him an orator. He is fearless in his denouncing of sin. In showing how many are trying to lead a double life, but failed, he used with good effect the story of Dr. Jekyll and Mr. Hyde.

It is expected that a great audience will be present tonight to hear his lecture on "The Shipwrecks of Life." It is illustrated by a first-class stereopticon. The proceeds will go for the benefit of the San Francisco sufferers. There will be a song service at the opening. Mayor Eaton has promised to be present, if his duties will permit.

PROSPECTIVE BRIDE PAINFULLY BURNED

GREENSBORO, May 3.—Miss Annie Poindexter of 123 West Lee street, was badly burned about her arms and body last night in trying to save her wedding trousseau from destruction by fire. On May 10 Miss Poindexter and Mr. J. T. Hayes, of Durham, are to be married. Last night, while the hall of her home was used as a display room for the numerous articles of lace, silk and delicate wearing apparel going to make a beautiful and happy bride, a large lamp suspended in the center of the hall broke and fell right in the midst of all the fixings. They caught fire and despite the efforts of several ladies, were entirely consumed or hopelessly ruined. While Miss Poindexter's burns are painful, it is not thought they will be serious enough to cause a postponement of her nuptials.

NEGRO FOUND DEAD NEAR N. & W. DEPOT

A negro named Will Garland was found dead this morning in a tenement house east of the Norfolk & Western depot. Some women reported the matter to the police, who referred it to Capt. J. M. Roberson, coroner.

The women claimed to know very little about the man, except that he was about 35 years old and had been subject to "spells," something like fits. Another report says that the man had been drinking heavily for several days.

Coroner Roberson stated this afternoon that he had arranged for an inquest to be held at 5 o'clock to see if there had been any foul play.

Damage by Texas Flood.

FORT WORTH, Texas, May 3.—All north Texas is suffering from excess rain. Railways leading into this city are badly damaged and trains are greatly delayed. This section has the finest wheat and oat crop in its history but it is feared considerable damage was done to it by the rains. Farmers are feeling despondent over the outlook.

Message to Congress.

WASHINGTON, May 3.—President Roosevelt sent to congress this afternoon a message recommending the passage of a resolution expressing gratitude of the United States government to foreign countries and sovereigns for their expression of sympathy on account of the San Francisco disaster and their offers of relief.

Dr. Stokes, of Salisbury, was here this afternoon looking after some professional business.

OPPOSING FORCES FAILED TO AGREE.

Special to The Sentinel. RALEIGH, May 3.—The conference last night called by Mayor Johnson between the leaders of the present movement for an election on the question of "discretionary" or "prohibition" and temperance forces of the city who are opposing any election on the question at this time did not result in any agreement and in fact, widened the breach between them. The election advocates will proceed with the completion of their petitions while many of the leaders in previous temperance efforts, including W. N. Jones, N. B. Broughton, Josephus Daniels and a number of prominent ministers and laymen of the churches declare that they will not participate in an election at this time if it is called. Their contention is that prohibition now would result in no enforcement so that the ultimate result would be a return to open saloons.

MINERS CONVENTION NOW IN SESSION

By Wire to The Sentinel. SCRANTON, May 3.—The tri-State convention of anthracite miners opened this morning for the first session and while today was given over to nothing more than mere formalities of organization the public will know by the end of the week whether or not there is to be a strike.

The convention will probably be in session three days in order that the 600 delegates may have a full opportunity to express themselves on the issue.

President Mitchell opened the convention without an address. He said this morning it was doubtful if he would make any extended speech during the convention.

There is still no absolute certainty as to the outcome, though talk of a strike is strong.

Some profess to believe Mitchell has something up his sleeve, which he will spring at the last moment. Others say the operators may indicate a slight concession. A member of the scale committee said this morning:

"Delegates, after full consideration of all that has been done, will vote to go on a strike."

Convention adjourned until 1:30 this afternoon to give the credential committee an opportunity to go over credentials presented.

"REALITY OF JESUS CHRIST," THE SUBJECT

"Reality of Jesus Christ" was the subject of a practical sermon preached at Burkhead M. E. Church last night. The attendance was larger than any night this week. The discourse was directed principally to the members of the church and made a fine impression. The question of closing the special services was presented to the members of the church and other Christians present for an expression of opinion. Several responded and every one spoke in favor of continuing the meeting for a few nights at least.

Rev. Mr. Turner will preach to night.

Has Large Fruit Crop.

Mr. E. M. Long, a successful farmer of Tobaccoville, today sold his last load of leaf tobacco of the 1905 crop on the Winston market. Mr. Long reports the wheat crop in his section fine—never looked more promising. "I will have plenty of fruit this year, too," said Mr. Long, who added that there would be plenty of peaches, apples, pears, etc., in his section. The trees in the low lands were the only ones that suffered.

CLOSE OF MEETING

Convention of Cotton Growers And Manufacturers Came To End Yesterday.

Convention Resulted in No Tangible Agreement on Questions at Issue, Although Quite a Number of Topics Were Discussed Fully by Delegates to the Conference.

By Wire to The Sentinel. WASHINGTON, May 2.—Without adopting a single resolution outlining any course of action or any policy the Conference of Cotton Growers and Manufacturers became a thing of the past last night. Today many of the delegates are sightseeing.

An attempt was made during the conference to secure the passage of a resolution urging the government to do away with the crop condition reports by the agricultural department. This was finally laid on the table.

Growers wanted a permanent organization between themselves and the spinners that their scheme for selling direct to the manufacturer might be advanced, but it was opposed by the manufacturers.

A diplomatic committee brought in a report which was adopted. It declared the delegates from various associations represented had not been empowered to enter into perpetuation of organization.

The manufacturers were not enthusiastic about the plan of the growers to build warehouses, grade cotton and sell direct to the manufacturers, thus avoiding speculation and the middlemen. Spinners, particularly Englishmen, thought it was a good scheme but it was intimated to Southernists that their plan to store cotton and thereby control prices would require a larger amount of capital than they could at present command.

But, according to President McCall, of New England Spinners' Association, the conference was a success. He said he did not expect the two interests that have not come together in a hundred years to agree on all things at the first meeting. He told the conference before adjourning that informal interviews were almost as beneficial as the conference. Manufacturers now better understand the conditions in the South and he believed that farmers are now better aware of what the manufacturers want and when they want it.

TRINITY WINS FROM VIRGINIA, 4 TO 2.

Trinity College defeated the University of Virginia in a pretty game of baseball at Durham yesterday by the score of 4 to 2. Clement did the pitching for Trinity and allowed Virginia only four hits.

Governor Glenn was among those who witnessed the game.

CAROLINA VS. VIRGINIA AT CHAPEL HILL TODAY

The University of North Carolina and the University of Virginia are contending for honors on the diamond at Chapel Hill this afternoon. This is the deciding game of the series, each team having one victory to its credit.

Anniversary of Poland's Constitution.

By Wire to The Sentinel. CHICAGO, May 3.—The Poles in this city are today celebrating the one hundredth and fiftieth anniversary of the adoption of Poland's Constitution. Many of the meetings will be held this evening at which prominent Polish orators will deliver addresses among them City Treasurer John F. Smialski.

Speck von Sternburg.

Ambassador Extraordinary and Plenipotentiary from Germany.
