## THIRD WEEK OF THE WAREHOUSE MEETING.

Reported for The Sentinel.

The meetings at the warehouse are now in the third week with increased interest and power. The audiences remain attentive and interested through the invitations, and last night five persons responded to the invitation. Some came during the singing of the hymns by the congregation. One came forward while Mr. Saxton sang a stanza of "Almost Persuaded." Evangelist Yenell made plain and forcible some of the examples of the New Testament conversions, as found in Acts of Apostles, the only book of model conversions in the Bible. It was shown how inconsistent it is to depart from these models in the present day. People should be converted now as they were in the days of the Apostles. It was impressed upon the people the importance of doing what they know is right.

Service tonight at 8 o'clock. There will be another illustrated service on Saturday night and a great mass meeting is announced for Sunday at 3 p. m. Interest still continues in the question box, and Mr. Yenell answers a number of questions each night.

## ROYAL ARCANUM WINS BEFORE SUPREME COURT

Special to The Sentinel.

RALEIGH, May 17.—Opinions were delivered this evening by the supreme court in nineteen appeals. The case of most general interest was A. G. Brenizer, of Charlotte vs. Royal Arcanum, involving the question of whether money in the hands of collectors and treasurers of Royal Arcanum paid in by members as assessments for "widows and orphans fund" are liable to attachment to satisfy claims in this State against the supreme council. The majority of the court, Associate Justice Connor writing the opinion, hold that this money is not subject to attachment. Chief Justice Walter Clark files a dissenting opinion holding that attachments should hold against funds accumulated and in the hands of officers in this State from premiums and assessments, for death loss whose payment is refused or to pay a claim like that of the plaintiff in this case which is in lieu of a death loss, being to recover back assessments paid into the fund by Brenizer by reason of the wrongful cancellation of his policy or breach of contract through the general increase of assessments put in force by the supreme lodge some months ago. The majority opinion of the court which settles the suit in favor of the Royal Arcanum holds that whether the funds in the hands of the local council collectors and treasurers are treated as property of the corporation immediately upon its receipt by them or as the property of members of the local councils until transmitted is immaterial. If the first it is impressed with an implied trust, if the second it cannot be attached for a debt of the supreme council Royal Arcanum. Otherwise the result would be disastrous to thousands of widows and orphans.

In the case of State vs. T. B. Farrington from Guilford the sentence of Farrington to one year on the roads for retailing liquor without license, although only two offenses were proven, the last eighteen months before the indictment, is sustained, Justice Connor writing the opinion of the court.

## WAS THIS RUSSIAN, FUGITIVE KIDNAPPED?

By Wire to The Sentinel.

NEW YORK, May 17.—Dr. Gregory Maximo, former president of short-lived Baltic Republic, and who was a political refugee from Russia because of his attitude while editor of Russ of St. Petersburg, is believed to have been kidnapped from his hotel in this city last week by Russian secret service men and shipped back to country of the czar, a prisoner in the hands of his abductors.

Despite the fact that such a plot would be very difficult of accomplishment, in fact practically impossible, an investigation at the hands of Ivan Narody, former Secretary of State of Baltic Republic and who is now stopping in Chicago, has resulted in securing information to the effect that members of the revolutionary band in this city saw a person answering the description of Dr. Maximo, together with three other Russians, on a dock to sail for Europe about a week ago. Dr. Maximo was expected by Mr. Narody, who became alarmed when he found he did not arrive. Last night he got into communication with sympathizers in this city with the result that he is firmly convinced Dr. Maximo is now on ocean being taken back to Russia. He intends putting the matter up to Washington.
