BRYAN'S VIEWS ON SITUATION. In Interview in Norwegian Town He Discusses American Politics Briefly.

Says That Democrats Should Make Fight in Next Campaign On Anti-Trust Issue—Says It Is Too Early To Discuss Possible Platform of the Democratic Party.

By Wire to The Sentinel. TRONDHEIM, Norway, June 21.—William Jennings Bryan and wife arrived here this morning and are the guests of United States Minister to Sweden Charles H. Graves, who was appointed as the representative of the United States to the coronation of King Haakon tomorrow. The Bryans will be present.

Mr. Bryan traveled in democratic simplicity from Christiania. Many Americans on the train forced Mr. Bryan to hold an impromptu reception. Mr. Bryan said to a Publishers' Press representative: "I have been out of America so long I am incompetent to discuss recent political developments here."

"It seems to me the tide is turning against the trusts. It looks as if the question of whether the trusts shall control America or America exterminate the trusts will be the paramount issue in the next election."

"As to whether the Democrats will take radical or conservative stand, some things denominated as radical in 1896 are now considered conservative because the people have been studying and found radical legislation really a protection to honestly acquired wealth. Nothing is more dangerous to legitimate accumulations than abuses long uncorrected."

Bryan leaves Sunday for the "Land of the Midnight Sun." Returning he goes to London. He will make the trip along the Rhine and end the tour for the present at Gibraltar. He sails from there for New York, arriving August 25. After the fall elections he will make a three months' trip of Australia.

THAYER GIVES EVIDENCE. Fourth Vice President of Pennsylvania Railroad Testifies Before Inter-State Commerce Commission.

By Wire to The Sentinel. WASHINGTON, June 21.—This was the day when presidents of all railroads, which have been under scrutiny during the investigation of coal business by the Inter-State Commerce Commission, were invited to appear and offer such testimony as they might desire. None were present.

John B. Thayer, fourth vice-president of the Pennsylvania, said they distributed on pro rata basis fixed by physical and commercial capacity of mines.

During Thayer's testimony half a dozen subordinates were brought forward to supply information. Mr. Tuump, general superintendent of transportation, at the conclusion of response, remarked that the present system is square and challenged anyone to find a flaw in it.

In order to show there is no tendency of the Pennsylvania to keep independent operators from opening mines Thayer said there are now 301 operators working 516 bituminous coal mines of whom 97 were not in business in 1901.

MR. PRICE'S REGIGNATION. In the Hands of District Attorney Holton—President Roosevelt's Action in Matter.

Local Republicans are puzzled to know just who was responsible for the appointment of Mr. George H. Brown to the collectorship of the Western North Carolina district. It has been published that the secretary to President Roosevelt wired State Chairman Adams that Mr. Harkins was removed for cause. The retiring collector, however, tells the Salisbury Post that he sent in his resignation nearly a year ago and that it was effective the first of July next. Mr. Harkins is also quoted as saying that Secretary Shaw asked him about his successor and that he recommended Mr. Brown as a suitable man, but did not actively endorse him. A local Republican tells The Sentinel that Mr. Harkins told him last November that he had resigned.

It is also announced that Assistant District Attorney A. H. Price sent in his resignation to the attorney general yesterday—and without being requested to do so.

The Sentinel speaks authoritatively in saying that it is the custom for the resignation of an assistant district attorney to first pass through the office of the district attorney. It is also a fact that Mr. Price's resignation has not been forwarded to Washington and it may not be, for several days at least. It is more than probable that it is now in the hands of Mr. Holton.

Added to the above State Chairman Adams states that he has received a telegram saying that the President has ordered that Mr. Price be not removed.

The Asheville Citizen hears from a reliable source that the attorney general will try to persuade Mr. Price to recall his resignation, and later it was learned that the resignation would not be accepted on any account.

This morning's Industrial News, organ of the Republican organization, says: "For some time the news has been noised abroad that Congressman Blackburn has been using the office of assistant district attorney as an asset upon which to trade for the State chairmanship. Rumor has it that he has promised the place to J. F. Newell, of Charlotte; Zeb Saunders, of Albemarle; John Dobson, of Surry county, and, perhaps, others. At all events he has made no attempt to conceal his desire for the scalp of A. H. Price, the present incumbent."

"The latest move in the game was a request by the congressman from the eighth, that Price be removed and a recommendation for the appointment of ex-Judge A. L. Coble."

LECTURES ON BIRDS. Prof. T. Gilbert Pearson Before Teachers' Summer School at Raleigh.

Gilbert Pearson, president of the North Carolina Audubon Society, the one at noon being on bird life generally and the second one tonight on North Carolina birds. Both these addresses have been delivered in many parts of the country and are exceptionally able and comprehensive. All departments of the summer school are now well organized and doing highly satisfactory work. The enrollment is more than six hundred.

JEWS FEAR OUTBREAK. Many of Them Are Fleeing From Different Places in Russia.

By Wire to The Sentinel. ST. PETERSBURG, June 21.—A dispatch from Brest-Litovsk received says that notwithstanding official warning against attacking the Jews at a conference of anti-Semites held there arrangements for a general Jew-baiting were discussed. The Jewish population, panic-stricken, is fleeing. The leading Jews have sent telegrams to Minister of Interior urging him to take steps for their protection.

Uses Neel Method. Dr. R. L. Rierson, who has an office just behind Dr. Conrad's dental offices, is prepared to treat blood, nervous and respiratory diseases by the Neel method, founded by Dr. Neel, of Chicago. In connection with this treatment he will use an up-to-date machine which has just been installed in his office. This machine generates ozone and changes it into a peroxide compound which is inhaled by the patient.

It is said that this treatment is especially effective in nervous and blood diseases. The introduction of the ozone into the blood has a beneficial effect and in many ailments the results are said to be wonderful indeed.

Price Against Blackburn. The Salisbury Post says: "Mr. A. H. Price does not authorize the statement but it is said he will take the stump against Blackburn this fall. He is a strong campaigner and should be a more fun in the campaign than is now bargained for."

When shown the above a local Republican stated that Mr. Price would not make a canvass against Blackburn.

It is easy to say what you would do in another man's place, but when it comes to doing the proper thing in your own place—well, that's different. A boy never lets his new watch run down.

Don't waste time finding fault with yourself; that's what your friends are for. If a woman is in love with a man she always believes what he says when she says she doesn't. Admirers of the rural maid are apt to be in the hoe-bean class.
