THE GREATS OF ALL TONIC

The ingredients that enter into S. S. S. and the method of combining and preparing them so that they build up and strengthen every part of the body, make it the greatest of all tonics. S. S. S. is a remedy—PURELY VEGETABLE—and while it is restoring the system, it is purifying the blood of all poisons and matters so that it can supply to the system the strength and nourishment it needs to be in perfect condition during the depressing summer months that are to follow.

Spring is the season when most every one needs a tonic. It is nature's time for renewing and changing; and as everything puts on new life, the sap rises in vegetation, the earth thaws out from its winter freezes, and all respond to Spring's call to purge and purify themselves, there is a great change also takes place in our bodies. The blood endeavors to throw off the poisons and accumulations which have formed in the system, and been absorbed by it, from the inactive winter life, and calls upon every member to assist in the elimination. The system is often unequal to the struggle, the appetite grows fickle, the energies give way, the spirits are depressed, and a general run-down condition is the result.

Then the body must have assistance—it must be strengthened and aided by a tonic, and S. S. S. is the ideal one. Being made entirely from roots, herbs and barks, it does not disagreeably affect the system in any way as do most of the so-called tonics on the market which contain Potash or some other harmful mineral ingredient to derange the stomach, unfavorably affect the bowels, or otherwise damage the health. S. S. S. acts on the stomach and digestion and assists in the assimilation of food; it rids the system of all impurities and imparts vigor and tone to every part of the body, establishes the healthy circulation of the blood, stimulates the sluggish organs, and gives an appetite and relish for food that nothing else does, and by its use we can feel ourselves with as hearty, hungry an appetite in Spring as at any other season.

It acts more promptly and gives better and more lasting results than any other tonic and is absolutely safe because of its vegetable purity. Dyspeptic, irritable, nervous, and tated people will find S. S. S. is just the medicine that is needed for the purification of the blood, which, from its diseased or impure condition, is causing their trouble, as well as for toning up and helping the entire system. When you take your tonic this Spring experiment, but get the best—the tonic with forty years of success behind it, and endorsed by the best people all over the country—**S. S. S., THE GREATEST OF TONICS.** It is necessary at this time, when the system is depleted and weakened at point, that the right remedy be used—one that is especially adapted to the condition. S. S. S. has proved itself to be this remedy for many years. If it is taken at the first of Spring the system will be so built up and strengthened that the disagreeable effects of the season will not be felt as warmer weather comes on.

Getting Better All the Time.

In what many of our customers tell us in speaking of the service at the Climax Barber Shop. We are glad that our efforts to give the public a better barber service have been appreciated and we can assure the public that we have spared no time or expense to give to the people of Winston-Salem a barber shop second to none in the State. We are indeed grateful for the very liberal patronage accorded this shop during the first six months since under the present management and we can assure all that nothing will be left undone that would tend to better or improve our facilities of service at any time.
