The czar is considering the suggestion of having Count Hessian, Stokovich and Lvoff, who were leaders of ultra-conservative groups in the douma to join the new cabinet, the object being to further divide the douma forces.

OPERATION ON DOG FOR APPENDICITIS HAS NOT RECEIVED MESSAGE FROM GOMPERS

PHILADELPHIA, July 24.—If a dog has a faraway look in his eyes, or whines continually, or refuses to eat, or, most important of all, if he limps in his right hind leg, he is in a dangerous condition. He probably has the most fashionable of dog diseases, appendicitis.

Paratus, the mascot of the torpedo boat Hoskins, which is now lying at League Island, is the first dog in this city who will go under the knife to have its appendix removed. The animal is now lying in the dog hospital at Eighth and Diamond streets. It will be operated upon tomorrow.

The operation on the dog was suggested by one of the surgeons at League Island, who gave the animal a thorough examination on Saturday at the request of the sailors, who believed their pet was dying. He suggested a surgeon who would take the case and, with all the care that would be shown to a human being, Paratus was removed to the canine hospital. Here the dog was put through another examination by a man versed in the disease of animals, who agreed with the naval surgeon that Paratus was suffering from appendicitis.

At first, after the operation was found to be necessary to save their pet's life, the seamen who accompanied Paratus to the hospital were not fully satisfied to have their pet "skinned" as they put it, and it was only after receiving assurance that he would recover that they consented to the operation.

"Mind I don't commit myself. I don't say that Tammany will be for Hearst. I only say that his opposition to our ticket last year will not, of itself, make it impossible for Tammany to support him in the convention."

Mr. Murphy said he had no opinion to express at this time as to whether or not Mr. Hearst will be nominated.

Ambassadors of Various Countries Represented at Luncheon Given After Adjournment of Morning Session of Peace Conference.—Business Transacted by Conference.

(By Publishers' Press.) LONDON, July 25.—The inter-parliamentary peace conference this morning adopted a resolution urging the next Hague conference to discuss the limitation of armaments. In the meantime pressure will be brought to bear on various parliaments represented at the conference to take action regarding the subject as well as to define what shall constitute contraband.

Luncheon followed the session at which William J. Bryan, Ambassador Reid, ambassadors of several of the other powers and a number of British cabinet officers were present.

Bryan made a short speech at the luncheon in which he said: "The limitation of armaments can only be accomplished if some nation takes the lead in the determination to make its citizens happy that their content will give greater security than many navies. Moral courage is before physical courage and the value of human life is incalculable. I could not love a God who made the taking of human life a condition of high development."

This afternoon delegates to the conference paid a visit to Windsor Castle.

The conference will come to an end tomorrow with a banquet at the Crystal Palace.
