STATEMENT MADE. The Corporation Commission Gives Result of Inquiry Into Hamlet Wreck.

Say: Wreck Was Caused by Failure of Agents of Railroad Company to Obey Rule: But That It Would Serve No Purpose for Commission to Find Which Agent or Agents Violated Rules.—Recommends Use of Block System. (Special to The Sentinel.) RALEIGH, July 27.—The North Carolina Corporation Commission is making a statement today to the effect that their investigation of the causes of the wreck in the Seaboard Air Line near Rockingham June 22 developed the fact that the collision was caused by failure of agents of the railroad company to observe and obey the rules and regulations of the company governing the movement of trains. The report states that it would serve no purpose for the commission to find which agent or agents are guilty of negligence in this matter as such finding would not be binding or conclusive on any one and might be prejudicial in other investigations. The report states that the commission is satisfied that the collision would not have occurred had the block system been in operation on the portion of the road where it occurred. The operator at Rockingham and the operator at Hamlet, only six miles apart, allowed trains to leave these places at practically the same time, meeting each other beyond their control. This could not have happened under the block system. In conclusion the commission says it has no power to order the block system and signals to be used between Hamlet and Monroe but they do most earnestly recommend that the Seaboard install the system as soon as practicable.

TOWNE WANTS TO BE BRYAN'S RUNNING-MATE

(By Publishers' Press.) WASHINGTON, July 26.—If Bryan should be elected president, the vice-president will for the first time in the history of the country sit at the Cabinet table and become an active participant in the administration in addition to performing his duties as president-elect of the Senate. This declaration was made this morning by Representative Charles Towne of New York, who is prominently mentioned as Bryan's possible running mate in the next campaign. Towne frankly admitted the position of vice president would be very attractive to him, especially in view of what he knew to be Bryan's theories about the importance of the office. He said that while he would not campaign for the nomination, he was entirely willing to go on the ticket with Bryan. He would not run with any one else than Bryan. He felt he would be in a position to help Mr. Bryan in campaigning.

ENGLISH NAVAL ESTIMATE VOTED ON

(By Publishers' Press.) LONDON, July 27.—The house of commons today took up the consideration of naval estimates to vote on the proposition of the government to reduce the original program by jacking down only three battleships of Dreadnaught class instead of four, two ocean-going torpedo boat destroyers instead of five; eight submarine boats instead of twelve. The proposed reductions have been the cause of a great deal of discussion in naval circles. Many especially bitterly opposed the reduction, arguing that the failure to stand by the original program would weaken the hitherto invulnerable efficiency of the navy. The board of admiralty experts all threatened to resign if the reduction was made. The question has agitated the cabinet. A bitter minority opposed the reduction and there was talk of a split in the cabinet over the question. A majority, however, held out for the reduction.

GOV. GLENN DENIES NEWSPAPER REPORT

(Special to The Sentinel.) RALEIGH, July 27.—Gov. Glenn expresses indignation at the publication made in the New York American and reprinted in some state papers about what is declared to have been an attempt on the part of certain Tammany leaders on the occasion of the governor's visit to New York some months ago to force the governor of North Carolina to sign a pardon for Hawley, one of the "gold brick" convicts. He says the whole publication is a tissue of lies and that he told representatives of certain papers by whom it has been reprinted that this was the case. It would seem that the purpose of the publication on the part of the New York paper was to discredit Tammany, whose guest Governor Glenn was while in New York on that occasion. The article was sent out from Atlantic City while the governor was there some days ago and he told a representative of the New York paper who sent it that there was no truth in the article.

MEN ARRESTED FOR CHICAGO MURDER

POUGHKEEPSIE, N. Y., July 26.—Frank J. Constantine is locked up in the Dutchess county jail in this city on a charge of murder. The prisoner was positively identified this afternoon by a young woman from Chicago. CHICAGO, July 26.—Frank J. Constantine, the alleged murderer of Mrs. Louis A. Gentry at her home, 582 La Salle avenue, January 6, last, is under arrest in Poughkeepsie, N. Y. Constantine is said to have been recognized by a woman who once lived in the apartment building in which the murder was committed. She reported to the police authorities at Poughkeepsie that the man was Constantine and he was at once arrested. Sheriff Hoffman of Dutchess county, N. Y., telegraphed to the local police that he was holding Constantine, saying that the prisoner did not deny his name, but claimed that he was a brother of Frank J. Constantine. Letters, cards and papers found in possession of the man all bore the name of Constantine. The murder of Mrs. Gentry was one of a series of brutal crimes against women which was committed in this city early in the year, which aroused public indignation to white heat. No motive for the crime has ever been discovered. Constantine and Mrs. Gentry were alone in the apartment at the time. She died without being able to utter a word and no trace of Constantine was discovered after he had left the building except from a storekeeper of whom he bought a hat thirty minutes after the murder. Constantine was a boarder in the Gentry apartments, and a razor marked "C" was found on the floor just outside the doorway. It has always been the theory of the police that he approached the woman from behind and cut her throat before she was aware of his intention. He was seen by a number of people to run from the building but with the exception of the proprietor of the hat store, nobody is known to have seen him since he left the building. A. G. Gentry, the husband of Mrs. Gentry, who is a prosperous business man, offered large rewards for the arrest of Constantine, and numerous men were arrested in various parts of the country, but all of them were later released.

BURTON HAS NOT YET GIVEN UP

(By Publishers' Press.) WASHINGTON, July 27.—A brief argument in support of the application for a rehearing in the case of Joseph H. Burton late senator from Kansas, under prison sentence for alleged abuse of consular prerogatives, has been filed in the office of the clerk of the Supreme Court of the United States by Burton's attorneys. The argument is directed in the main to two points, that the court erred in holding as constitutional section 1782, under which Burton was convicted, and that defendant was improperly tried on charge of receiving and agreeing to receive compensation for services rendered to Rialto Company in connection with fraud order pending in the postoffice department.

RESULT OF INQUIRY MADE IN SWITZERLAND

(By Publishers' Press.) WASHINGTON, July 27.—After all these years American women are now to learn that what they have supposed to be chamois skin, with which they smooth out wrinkles on the face is really aromatic cotton-wool. According to a report printed by the department of commerce and labor today, not enough chamois skins are obtained throughout the world to supply the United States for more than a single day. The substitute referred to by the department as "roll lined sheep or lamb-skin lining" is lighter and finer than chamois skin. For strength and durability chamois is preferable. According to the report a recent inquiry in Switzerland shows that the annual crop of chamois skin averages between 5,000 and 6,000.

NORFOLK & WESTERN BUYS PROPERTY HERE

The Norfolk and Western Railroad has bought the remainder of the block of land at the lower end of its yard here, this giving the company the entire block between Bolivar Creek and Roanoke streets. This will give the Norfolk and Western considerably more track space and will eventually enable it to make better connection with the Southern. The new yard will be used in making up trains. The purchase of the property involves the expenditure of about \$20,000. An additional amount of money will of course be expended in order to get the new yard down to the level of the old yard. This work will not be started for some time yet. George Pfaff, who has delivered The Sentinel at Centerville and South side for several years, has accepted a position with the Meyers-Westbrook Co.
