A MEDLEY.

Of seasonable supplies, such as are needed in everyday life just glance over the little list and see what will fit you today. Fruit jars, rubbers and tops—we have that extra good thick rubber like we used to keep! Flour, meal and meat just a little left, come quick. For ice cream sherberts we have a grated and sliced pine-apple that they say is just a little bit better than the other fellows—try it—or it may be a spool of thread you want, any number—or a pound of nails. "Golden Rod" cheese is now town talk—that T we are blending is superb—then there are all kinds tea and table spoons, pocket and table cutlery etc—didn't know we had it did you? Well we have most anything else you could want or call for, is one of our competitors advertised "If you can't find it anywhere else just call on—". We put it this way, "What you can't find here don't look for it anywhere else". Ask your neighbor about those country hams we are selling and that "white house" and lovefeast coffee—there's nothing like it. All kinds soaps, scrubbing soaps and washing powders too. Ice cream salt and all kinds flavoring extracts "Sugar Loaf" molasses sells in season and out cause it can't help it, it's so good. Order 1-2 doz. of those 1-2 sliced sweet pickles—we'll risk your calling for the other 1-2.

Jelly Glasses too! Jelly Glasses too!

We were wide awake while some of the others were asleep when the olive crop was being distributed—we have a surprise for you in that line—nice bottled pickles too—for when you go to the park—all this, the rest and everything that's nice and good. A sister called the other day and asked if we had any nice, fresh apples, we showed 'em to her and said "Yes-sir-ree just look at the vine, they haint been pulled long". They suited, as does everything else that comes or goes from.

HUNTLEY-HILL-STOCKTON COMPANY

PORTION OF R.J. REYNOLDS TOBACCO COMPANY'S PLANT 1906

The Largest, Best-Equipped and Cleanest Flat Plant Tobacco Manufacturing Plant in the World

The Reynolds factories, equipped with every modern appliance for producing the best chewing tobacco by a clean, sanitary and healthful process, under the direction of men who have made the business a life study, are located in the centre of the Piedmont tobacco belt, known to the world as the best productive soil for tobacco with an aroma so delightful, pleasing and appetizing that it created and popularized the fondness for chewing tobacco.

Only choice selections of this well-matured, thoroughly cured leaf are used in SCHNAPPS and others of the high-grade Reynolds brands, and expert tests prove that this tobacco requires and takes a smaller amount of sweetening than any other and has a wholesome, stimulating and satisfying effect on chewers. SCHNAPPS is the brand that made the Reynolds factories famous as the manufacturers of the best and most popular brand of chewing tobacco, and made necessary an enormous growth from a small factory in 1875 to the largest flat-plant factory in the world. The men who started it started it in 1875.

Reynolds Co., in 1875, are directing it to-day. There are a greater number of manufacturers making imitations claimed to be just as good as SCHNAPPS than any commodity manufactured; yet there are more pounds of SCHNAPPS chewed than the total amount of all imitations brands, or tobacco of similar appearance.

Be sure the letters on the tag and under the tag spell S-C-H-N-A-P-P-S, and you will have the genuine R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.
