MINERS' TROUBLES

Union and Non-Union Men In Pittsburg District Fight.

Two of the Latter Are Missing and One is Dangerously Wounded.—Eleven of Those Engaging in the Fight Have Been Arrested.

(By Publishers' Press.)

PITTSBURG, Pa., Aug. 16.—Labor troubles between union and non-union miners are said to be responsible for the bloody cutting affray at Butter Junction on Alleghany River this morning. Two unknown non-union men are supposed to have been killed and their bodies thrown into river. One non-union miner is dying with horrible gashes on his body.

Officers arrested eleven men but two escaped. The officers with nine prisoners are now en route to the county jail. Details of the affair as yet are unlearned.

Later—Officers and prisoners arrived at the jail at 11 o'clock. The man fatally stabbed is Stef Reaway. Charles Slindar was also badly beaten. One of the missing victims is named Mosely. He is supposed to be at the bottom of the Alleghany river.

Several officers remained at the scene of the trouble and additional arrests will be made.

Three weeks ago the mines of the Freeport Coal Company were changed from union to non-union. Trouble was anticipated and precautions were taken. The displaced miners remained quietly in their homes and it was supposed that the danger of an outbreak had passed. Vigilance was relaxed. Last night, however, 29 of the new arrivals were attacked by men who they had supplanted in the mine. Their superior numbers made short work of non-union men. Sticks, stones and knives were the weapons used in the fight and every one of the non-unionists sustained injuries more or less. It was late in the night before the beaten men revived sufficiently to notify the authorities. County officials were sent for and many arrests followed.

JOHN WESLEY GAINES MAKES PREDICTION

(By Publishers' Press.)

WASHINGTON, Aug. 16.—En route to New York where he goes to participate in the reception to Bryan Representative John Gaines, of Tennessee, stopped over here long enough to hand out the following predictions:

"I've figured it all out, Roosevelt is a pseudo-Bryan president. He has popularized and forced three measures that involve principles for which Bryan and other good Democrats stand. If this much of reform has been brought about by a man who is a pseudo Democrat the people will be more than willing to cast their votes to have all the reforms in legislation and government affairs that Bryan will give them. Bryan will be the next president."

The political situation here switched about owing to the caucus of six eastern states, Maine, New Hampshire, Rhode Island, Vermont, Connecticut and Massachusetts, with a view of placing the next convention in Boston or some city in the east.

The liveryman then settled the controversy by knocking his antagonist out.

WOUNDS INFLICTED ON HEADS OF TWO MEN

Pink West was arrested last night and locked up. He is charged with abusing his wife. When arrested West had an ugly scar on the back of his head, which he alleges was inflicted by his step-son, Louis Brown, striking him with a brick. It appears that Brown went to the rescue of his mother and struck West to prevent an assault upon the latter's wife. Brown has not been arrested. The wound on West's head was sewed up by a physician.

Shortly after the arrest of West Lee Hudson was brought to the police station with an ugly scar on the back of his head. His story was to the effect that a negro named Barkley struck him with a brick. Barkley, who was also arrested, claims that he threw Hudson down and in falling his head struck a rock. The gash in Hudson's head was sewed up by the same doctor that attended West.

(Special to The Sentinel.)

GREENSBORO, Aug. 16.—Police-man Stedman last night fired four shots at a fleeing negro, Joe Morehead, who had been arrested and was being carried to police headquarters when he made a dash for liberty. The shooting occurred about 11 o'clock and a large crowd was attracted to the scene. The negro had been arrested by the officer at a negro dance hall for an assault upon a woman. After firing the four shots, neither of which took effect, Mr. Stedman finally gave chase himself. The officer overtook the negro near Zion colored church, and brought him to police headquarters. Morehead, who is better known as "Black Joe," has been in trouble a number of times before.

MANY WERE KILLED

Explosion of Dynamite In A Texas Town Has Fatal Result.

It Is Thought Number of Those Killed Will Be Between 30 And 60 People.—Accident Occurred at Railway Station in Texas Town.

(By Publishers' Press.)

EL PASO, TEXAS, Aug. 16.—The explosion of a car load of dynamite at Chihuahua and Pacific Railway depot at Chihuahua last night killed between 30 and 60 persons.

The cargo was being transferred from one car to another when Mexican workmen dropped a box of dynamite and the explosion set off the entire car load. Every laborer and foreman, the latter an American, was blown to atoms. Fragments of bodies were blown for a mile and roofs of the vicinity were littered with pieces of human flesh. Many small buildings near the scene were wrecked, a number of people being injured in their homes. Windows were cracked in all parts of the city and flying debris struck pedestrians, inflicting painful injuries in many cases. The earth was shaken as if by an earthquake.

REPORT OF EXPERT WHO WENT TO HYDE

(Special to The Sentinel.)

RALEIGH, Aug. 16.—Assistant State Veterinarian G. A. Roberts returned from Hyde county where he went under the direction of the state department of agriculture to investigate the epidemic that is causing the death of so many horses in that section. He found that at least one hundred horses have died in two townships, Lake Landing and Currituck, in Hyde county. Of all the cases he found there were only three that gave any promise of recovery. The disease is what is commonly known as staggers and is thought to originate from fungus or mold in the feed or water. Dr. Roberts says not only the feed on hand for stock is practically ruined by the continued rains but the crops throughout the county are almost a total failure. He will return at once to investigate more fully the situation as to the epidemic and do what he can to check it, carrying with him apparatus and appliances for combating and studying more effectually the disease. He will also go into Craven, Pamlico and Beaufort counties on the same mission, complaints having come in to the department from these sections during the past few days.

Dr. Roberts found that many people have shipped their fine horses away since the disease appeared. He thinks though that a more economical and as safe a course would be to get food for them without the territory infected, or rather affected as he is of the opinion that the disease is not contagious.

POLICE ATTACKED.

Russian Revolutionaries Mal o Many Assaults On Officers.

This Is Believed to Be the Beginning of a General Movement by Terrorists Against the Officers of the Law.—Probable That These Attacks Will Lead to Repressive Measures.

(By Publishers' Press.)

ST. PETERSBURG, Aug. 16.—Unusual activity on the part of the police has been noted today and it at least has been directed toward former members of the douma. Whether this police activity is the outcome of terrorist attack on policemen last night is not known. Wholesale attacks on policemen and soldiers in various parts of the empire yesterday and last night are attributed directly to terrorists and revolutionaries. The outrages indicate that warfare declared by revolutionary organizations following the dissolution of the douma has been begun in earnest. That the task imposed upon the ministry of trying to quiet the country will be made more difficult by these outbreaks there is no doubt.

Public opinion does not support the terrorist's program. The attacks upon the police and soldiers are certain to lead to the adoption of repressive measures by the government and terrorists are evidently relying upon this to win opinion to their side once more.

RESULT OF RACES BY COLORED FIREMEN

The annual convention and tournament of the colored State Firemen's Association adjourned this afternoon. Durham extended an invitation for the next convention and tournament and it was accepted. The date will be the second Tuesday in August 1907. The old officers were re-elected, with the exception of marshal, which place was made vacant by the death of S. Dibble. T. H. Hairston, of this city, was elected in his stead. The officers are: John S. Plummer, president, Warrenton; F. F. Chambers, first vice-president, Statesville; Dr. S. P. Wright, second vice-president, Salisbury; J. G. Lattie, treasurer, Winston-Salem; C. S. Taylor, financial secretary, Charlotte; Peter Collins, recording secretary, Warrenton; Prof. A. J. Brown, statistician, Washington; C. C. McIntire, chaplain, Rocky Mount.

The tournament opened yesterday afternoon with the hook and ladder contest. Rocky Mount and Winston tied, the time being 28 2/5 seconds.

Concord failed to raise the ladder, and after making a good run was compelled to abandon all hope for the prize. The prizes in this contest were \$40 and \$20.

In the first hook and ladder grab contest, in which Winston started the race the judges failed to manipulate the stop watch correctly, necessitating another run. The second effort was won by Winston, the time being twenty-nine seconds. Prize \$40.

Concord came in this time with thirty-one and a quarter seconds. Prize \$20. Rocky Mount made no time in her turn.

The one hundred yard foot race was won by Winston, Tom Dooley running it in nine and one-half seconds. Rocky Mount was second. Prizes \$3 and \$2.

The visiting firemen have conducted themselves admirably during their stay in the city, for which they have received the commendation of the officers and citizens generally.

Prof. L. R. Randolph returned from the National Firemen's Association this morning and made his report. He stated that Mr. J. D. McNeill, president of the white association of the state and the National Association, evinced a strong and forceful interest for the welfare of the negro firemen.

RACES THIS MORNING

There were three entries in the hand-reel race. Wilson won first money, her time being 31 seconds. Winston was second, time 31 1/2 seconds; Oxford was third, making the run in 34 seconds. The first prize was \$40 and second \$20.

Winston won first prize of \$20 in the grab reel contest. Wilson came second, winning \$20. In the hook and ladder contest, yesterday afternoon Winston and Rocky Mount tied for first honors. This morning it was agreed to divide the prizes without running another race. Winston was awarded first money in the short hook and ladder contest.
