MAY NAME HEARST REPLIES TO SHAW

His Endorsement By Buffalo Convention Regarded As Quite Possible.

Independence League's Candidate for Governor of New York Seems to Stand Good Chance of Being Endorsed by State Democratic Convention.—Chances Have Greatly Improved Recently.

(By Publishers' Press.) NEW YORK, Sept. 17.—Extensive inquiries made by Publishers' Press representatives indicate that as things stand today William Randolph Hearst's chances for securing the endorsement of the Democratic convention at Buffalo have greatly improved. Even some of his strongest opponents admit that the opposition is disorganized and that the situation from their point of view is desperate. New York politicians say Hearst will control the delegates from nearly twenty state counties and that if he can get either New York or Kings he will be master of the situation. What really alarms the Democratic machine politicians, however, is the evidence of the growing demand for the editor as a candidate for governor.

STRONG TICKET IN SURRY.

Democrats Name Dr. C. F. Holcombe for the Legislature.—Convention Addressed by Hon. W. W. Kitchin.

(Special to The Sentinel.) MOUNT AIRY, Sept. 16.—The Democrats of this county met in Dobson yesterday and nominated a strong ticket headed by Dr. C. F. Holcombe, of Rockford, for the legislature, C. H. Haynes, the present clerk, was re-nominated, and Capt. S. G. Pace, of this city, was nominated for sheriff.

At the conclusion of the convention Hon. W. W. Kitchin, congressman from the fifth district, spoke to a large crowd. His speech was an able effort and marks him as one of the strongest advocates of Democratic principles. His speech was a vote-maker and indications point favorably to the election of the entire ticket in Surry.

GRAND DUKES FLEE

They Seem To Consider Russia a Very Uncomfortable Place.

Since Death Saturday of General Trepoff There Have Been Signs of Uneasiness On Part of Government Authorities as Trepoff Was the Strongest of Government Officers.

(By Publishers' Press.) ST. PETERSBURG, Sept. 17.—A general exodus of Russian grand dukes from the city set in following the death Saturday of General Trepoff, owing to fear which exists generally that fresh troubles are now bound to occur in Russia since the strongest man in the empire has been removed.

Going to Africa as Missionary.

After taking a medical course the young divine will go to Africa as a missionary of the Moravian church. During his stay here he won many admiring friends.

The leaf tobacco sold on Winston market the past week aggregated 102,376 pounds, this bringing \$4,508.84.

Mr. Bryan Makes The First Speech of His N. C. Tour At Raleigh Today.

Address There Was Largely in the Nature of a Reply to Secretary Shaw's Recent Speeches in North Carolina.—Bryan Will Make More Extended Reply Here Tomorrow.

(Special to The Sentinel.) RALEIGH, Sept. 17.—William Jennings Bryan received a splendid ovation here in Metropolitan Hall today. The first part of Mr. Bryan's address was delivered in answer to Secretary Shaw's recent speeches in this State. He will answer Mr. Shaw more especially at Greensboro tonight and Winston-Salem tomorrow.

Mr. Bryan was heard here by a large audience that packed the hall. Addresses Overflowed Gathering.

For an overflow meeting of two thousand people in the capitol square after a speech in the hall, Governor Glenn introduced Bryan as the man whom he hoped and prayed would be the next president. Bryan declared he confidently expected a Democratic triumph two years hence. Mr. Bryan declared there is less reason than ever to make speeches in this State. He said he had tried to show that Roosevelt's popularity was due entirely to Democratic ideas he had adopted. He had proven that wherever a Republican talks boastfully of anything his party has done that has really been a good thing it would develop that each and every ground for boasting was carrying out of some principle contended for by the Democratic party and the Republicans had been successful only where they followed Democratic ideas. He said if the principles of Democracy could only be patented seventeen years so that the Republicans could not usurp them the Republican party would be dead long before the seventeen years had passed.

PRESIDENT PALMA MAY CONSENT TO THE HOLDING OF AN ELECTION

THEFT OF STATUES FROM PAPAL VILLA.

(Special to The Sentinel.) ROME, Sept. 17.—Word has been sent to the police of all important cities of the United States and Europe asking that watch be kept to see if valuable articles stolen from gardens of Vatican paper villa are offered for sale. The heads of five valuable statues in the garden of villa where the late Pope Leo XIII was accustomed to spend his summers have been stolen. There is no clue to the thief but it is believed that the theft was committed with the intention of offering the relics for sale as was Asolo, which was sold to J. P. Morgan some time ago and returned by him when he discovered that his treasure had been stolen.

SMALL FIRE LOSS.

The Fire Losses in Winston-Salem in Past Three Years Do Not Aggregate \$50,000.

There is no city in the United States that has a better record in regard to fire losses within past three years than Winston-Salem. This is making a bold statement but the facts and figures will bear out the truthfulness of this statement.

The total fire losses in Winston-Salem during the years 1904, 1905 and 1906 will hardly aggregate \$50,000, and the insurance will nearly cover this loss.

When we consider that there is over \$18,000,000 worth of property in Winston-Salem and only about \$50,000 worth of it was destroyed by fire in three years the fact stands out boldly in our favor.

The town of Salem has the best record of any town in the United States. The fire losses in that town for the past 123 years, or since the department was organized, taken as a whole would not amount to \$50,000. The town has a rigid fire inspection law and this law is enforced to the letter.

But while the Twin-City has been steadily lowering the number of fires and fire losses the old saying that "in times of peace prepare for war" has not been forgotten, and to the fire-fighting forces during the past few years have been added two large steamers, three additional companies, a \$100,000 water works system, to say nothing of the many fixtures that have been installed.

Winston-Salem has a splendid fire record and we feel justified in bringing the fact to the attention of the outside world.

CHARTER OF INSURANCE COMPANY IS REVOKED.

(Special to The Sentinel.) RALEIGH, Sept. 15.—Insurance Commissioner Young has revoked the charter of the Conservative Mutual Life Insurance Company, of Charlotte, to do business in this State, on the ground that the company's financial condition makes it unsafe to policyholders for the company to do business longer.

Influential Kibels Say This Action Would Stop Disturbance In Cuba.

BELIEVED THAT PALMA WILL TAKE THIS STEP.

Although Close Friend of Cuba's President Says He Does Not Think Palma Will Consent to Holding of Presidential Election There is Growing Belief That He Will Adopt This as Only Method of Bringing Order Out of Chaos.—It is Believed Taft's Visit to Island Will Result in Good.—President Postpones Trip to Panama On Account of Cuban Situation.

(Special to The Sentinel.)

HAVANA, Sept. 17.—According to a rumor given wide circulation here today Palma will, within a few days, issue a call for a special election as the easiest solution of the present Cuban crisis. While the rumor is denied by General Freyre Andre, one of Palma's closest advisers, there is reason to believe the action will be taken by the Palma administration rather than permit intervention by the United States. Rebels say that such an act will instantly quell the insurrection.

President May Delay Trip.

WASHINGTON, Sept. 17.—Unless peace and order are completely restored in Cuba within a very short time it is quite possible that Roosevelt will abandon his contemplated trip to Panama. When plans were formulated there was no expectation that dissatisfaction with Palma regime would reach such proportions as to amount to actual revolution or that intervention by the United States might be required.

Secretary Taft hopes to be able to complete his mission within ten days after his arrival at Havana. Even if success crowns his efforts as everybody believes it will, it is expected it will take many weeks of simmering and settling before the entire island of Cuba can be said to be pacified and normal conditions restored.

So long as there is any possibility of further outbreaks in Cuba or the least likelihood that action of any sort by the United States might become necessary it is not probable the president would leave the United States. While the Panama trip has not therefore been abandoned, there is considerable doubt at this time whether the president will be able to take it if he should deem it unwise to absent himself from the United States. Under the conditions it is possible he may ask Secretary Root, who is now on his way to Panama from Haiti, to make a more extended stay on the isthmus than he contemplated, so as to be able to make a full statement to him, otherwise Secretary Taft will probably make his annual trip to the canal zone alone.

Many Wires Cut.

WASHINGTON, Sept. 17.—The navy department received word this morning that the cable between Cienfuegos and Bermuda had been cut. The cable between Havana and Cienfuegos was cut Saturday and the land lines have been out of business several days. This cuts Cienfuegos off from all wire communication with outside.

Opinion of One Officer.

WASHINGTON, Sept. 17.—In the opinion of officers of the navy who have been in close communication with Commander Colwell at Havana the bottom has fallen out of Cuban revolution. As one prominent officer of the navy expressed it: "The Cubans have made a spectacular exhibition and have shown they are entirely unfit for self-government, but when they found how much in earnest the United States is both sides became frightened, and are now doing their utmost to come to an agreement before the arrival of Roosevelt's emissaries."

TO REST IN HISTORIC GROUND.

Remains of Late Governor Jesse Franklin Exhumed and Taken to Guilford Battle Ground for Final Interment.

(Special to The Sentinel.) MOUNT AIRY, Sept. 16.—The remains of the late Governor Jesse Franklin, which rested at the foot of the Blue Ridge mountains, near Low Gap, in this county, since his death in 1827, were brought to this city this afternoon and will be taken to Guilford Battle Ground for final interment tomorrow.

Col. Thomas M. Morehead, of Greensboro, is here and will accompany what remains of Surry's illustrious son to where a fitting monument has been erected to his memory. He was a participant in the famous battle for American independence at that place and was perhaps the last to leave the scene of battle, hence his body will be among the heroes of that occasion.

Mr. Carlton White, who graduated from the Salem Boys' school two years ago, left today for Bethlehem, Pa., to enter the Moravian Theological Seminary to prepare himself for the ministry. It will require him six years to complete his course.
