THE REAL TEST

Of Herpicide is in Giving it a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice but the point is—do they eradicate Dan druff and stop falling hair?

No, they do not, but Herpicide does because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbra's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Southern Life and Trust Company...

Last year \$65,000,000 was paid to foreign life insurance companies by the people of the Southern States.

This enormous drain is ruinous to our section and should be stopped. The most effective method to patronize our own deserving life insurance companies and thus build them.

The Southern Life and Trust Company is a DESERVING company. Its management realizes that there is no business involving such responsibility and therefore requiring such caution and conservatism as life insurance. The insuring public has already been convinced that its policies afford perfect protection. From small beginnings it has grown into the largest life insurance company that industry has ever known.

Surplus to policy-holders July 31, 1906, \$300,000, and not a death from natural causes has occurred since the company was organized three years ago.

It is the only company that proposes to invest in each locality the net premiums received from that locality.

Take a policy in the Southern Life and Trust Company and you get the best possible protection at the same time keep your money at home to help build up your own immediate section and avoid the enormous drain of money from your State. The net premiums are retained in Winston-Salem and loaned through
