COLD WEATHER APPEARS EARLY.

In Several States Snow Has Been Falling Last Night And Today.

Between Mississippi And Hudson Rivers Fall in Temperature of from Ten to Twenty-Five Degrees Has Taken Place in Last Twenty-Four Hours.—In Several Places Light Snow Has Fallen.

(By Publishers' Press.) NEW YORK, Oct. 11.—The Old Boreas has made an unusually early and impressive debut, according to reports from the country between Mississippi and Hudson rivers, even as far south as Kentucky. Accompanying a general fall of the mercury from ten to twenty-five degrees during the past twenty-four hours there has in many states been a fall of snow varying from one to six inches, which has in many instances blanketed gathered crops and fruit. Telegraph and telephone lines are paralyzed in many localities and the trolley service tied up as if by midwinter blizzard. In many cities today's and last night's records show the coldest October weather in the history of the season, while Southern reports show that overcast weather prevailed as far south as Georgia and that freezing point was reached in North Carolina.

(Special to The Sentinel.) RALEIGH, Oct. 11.—Last night at Christ Episcopal church in this city the marriage of Miss Adelia E. Purnell, of Raleigh, to Mr. Robert Ridley, Jr., of Portsmouth, Va., was beautifully celebrated. The church was specially decorated with palms, ferns and white roses which, under the soft light of the many candles, which are the regular lighting equipment of the handsome church, afforded an especially pleasing scene for the nuptials. Only invited guests were admitted to the church. The ceremony was the usual ring service of the Episcopal church and was by Dr. M. M. Marshall, the rector. The maid of honor was Miss Tate, of Georgia, and the bridesmaids, Mrs. John S. McKee and Mrs. Herbert H. Drewry, of Norfolk, sister of the bride. The best man was Mr. William Ridley, of Portsmouth, brother of the groom, and the ushers were Dr. Herbert R. Drewry, of Norfolk; M. L. O. Schetkey, Portsmouth; Mr. E. L. Kasmer, Portsmouth, and Mr. James Purnell, of Raleigh.

After the ceremony there was a reception at the home of the bridesmaids on Fayetteville street, and Mr. and Mrs. Ridley left on the north-bound Seaboard train at 1:30 p. m. for a tour North, after which they will be at home in Portsmouth. The bride is the youngest daughter of Judge Thos. R. Purnell of the United States court for the eastern district of North Carolina. She is a beautiful and accomplished young woman. The groom is a prosperous young business man of Portsmouth. Guests here from out of town for the wedding were Mrs. Anna Ridley and Miss Ridley, of Portsmouth, mother and sister of the groom; Mrs. Bessie Ridley and Miss Annie Ridley of Portsmouth; Mrs. Prewitt of Portsmouth; Mr. Thomas Ridley and Mr. Robert Ridley, of Portsmouth, respectively cousin and uncle of the groom; Miss Elizabeth Dunn, of Norfolk.

GAIN OF OVER FOUR MILLIONS

Assets of State, Private and Savings Banks Show Increase For Past Year.

Gain Since 1899 Has Been Over Forty-Four Million Dollars.—Some interesting figures that have been issued by the North Carolina Corporation Commission.

(Special to The Sentinel.) RALEIGH, Oct. 11.—The 268 state private and savings banks in North Carolina have \$45,802,416 assets and \$33,312,000 deposits, according to a summary of statements filed to the North Carolina corporation commission the close of business September 1. The statement was issued by the commission yesterday afternoon. Notable items mentioned in the statement are: capital stock paid in, \$1,209,451.59; surplus fund, \$1,264,267.75; on divided profits, \$1,389,839. The summary of the commission last year about this time showed \$11,955,779 assets as compared with \$45,802,416 shown in the summary just issued. It was in 1899 that the state private and savings banks were placed under the supervision of the corporation commission. At that time there were only 67 of these banks in the State, the aggregate assets being \$1,275,190.

RESIDENT ENGINEERS WITH SOUTHBOUND

Four resident engineers have been sent out along the line of the Southbound Railroad to make the necessary preparations for contractors. Bids from contractors will be called for as soon as the rights-of-way are secured. The surveyors have completed their work. Sixteenths of one per cent grade will be maintained throughout the line. The Davidson Dispatch says that Mr. H. E. Fries and Chief Engineer Cornell were in Lexington Tuesday to discuss the location for the depot of the road. They went over suggested sites with leading citizens. While nothing definite has been done as yet, and while the officials themselves did not seem to know what would be done finally about the matter, the result of the visit and discussion was anything but pleasing to Lexington business men and manufacturers. The officials say that on account of the grade they cannot well get nearer the town than a point below the Victor Brick Co.'s plant somewhere between here and Linwood, as a citizen facetiously expressed it. The corner of 11th avenue and Hargett streets was also suggested. Somewhere back of Mrs. Ford's residence was also thought of, as was a site back of Grimes' Mill, for the freight depot. Lexington citizens declare that the station must be near the town and it is likely that a strong protest will be lodged against placing it so far away as is suggested. However, absolutely nothing has been decided as yet by the road, and in the meantime our people will wage a war to get the depot close to town. The Dispatch adds: "As there seems to be some misapprehension as to the duties of appraisers in assessing damages in case of condemnation of land for the Winston-Salem Southbound Railroad, we call attention to section 19 of the charter of said railroad, which reads as follows: 'In assessing the damages the jurors or appraisers shall take into consideration the actual value of the land, together with any special damages likely to accrue to the owner, and likewise shall consider any special benefits thereon.'"

No word has been received from the Carmelina ship on which the missing man embarked.
