**SPAIN REBUILDING HER NAVY RAPIDLY**

(Special to The Sentinel)

LONDON, Oct. 29.—Spain is making rapid progress with the rebuilding of her navy. The expenditure on Spanish vessels, authorized by the Cortes last year, is being laid out in a comprehensive program of six years. It comprises eight 11,000-ton battleships, nine cruisers, and several smaller vessels. Half the ships must be built in Spanish yards, and the construction now under way is complete reorganization and equipping of the armada, docks and arsenals at Ferrol, Cadix and Carthagena have been undertaken. King Alfonso is an ardent partisan of the Navy and gives every encouragement by that branch of the government.

Among other vessels now building for the Emperor Carlos V., a projected cruiser of 10,000 tons, three light cruisers, Cardinal Cisneros, Calixto and Princesa de Asturias, and the projected cruiser Reina Regenta, a vessel which has just been signed. London is electrical power due to the Reina Regenta, now nearing completion at Ferrol, shows that Spain intends to make her new warships as much up-to-date as possible. On a side building there had been provided for, but when the arduous found out about the new method of showing water light due to a electricity a change was promptly made. The power here, known as the "Young Arm" system, are the invention of an American naval officer, and are installed on nearly all the new ships of the American navy. The object is to make ships available for this service of class all their important appliances at time of emergency from an electrical central station located above-deck.

According to latest information Spain has in commission three sea and class battleships, four armored cruisers, three three masted and three light cruisers, also, six sailing gun boats, twelve river gunboats, five de troopers, thirteen torpedo boats, and several miscellaneous vessels. By the time the program now being carried out is completed, she will have brought her navy up to such formidable proportions that it will have to be considered as an important factor in the balance of European sea power.

**Robbed by a Pickpocket.**

Mr. George F. Day, the well-known "Horseman," formerly of Winston-Salem, arrived in Greensboro Sunday evening, in his way home from the Chamber and country. He reported to the police that while standing on the platform at Fayetteville Sunday a pickpocket robbed him of a pocket containing a bill over \$100 in bills. There was a good crowd on the platform at the time.

**Winston-Salem Presbyterian Church.**

We want to donate some L. & M. Paint to your church whenever they will.

The largest Methodist church in Georgia expected to use 100 gallons of the usual kind of paint, they only used 22 gallons L. & M. mixed with 24 gallons of Linseed Oil.

It costs less to paint a house with L. & M. than with other paint, because painter mixes Linseed Oil with L. & M. and doesn't pay \$1.50 per gallon for Linseed Oil as done if red furnace paint is used. Also because the L. & M. Zinc hardens the L. & M. White Lead and makes the paint wear 100-150.

Actual cost L. & M. about \$1.20 per gallon.

Sold by Brown-Rogers Co.

**When Did You Last See a Hobgoblin?**

Never did you? You can't find a grow rampant as well as old. So the young ladies of the First Presbyterian church cordially invite you around on Holly avenue, Wednesday evening, the hours of 6 and 10 o'clock to Mrs. J. J. R. Lee's party. A large knowledge of hobgoblins, gnomes and "hants" as well as oysters, candies and ice cream awaits you. Will look for you.
