The Stage.
 At Auditorium November 5, "Bachelors and Bachelers." The new musical comedy in which R. H. Flanders will introduce York and Adams as stars at the Elks' Auditorium November 5, is the work of Aaron Hoffman, and is claimed to be far above the average of musical plays now before the public. No excuse has been spared in the equipment of this organization. Arrhegimus was engaged to design the costumes and the scenery is the work of John Young. York and Adams are surrounded by a company of forty-five people.

DANGERS FROM DYSPEPSIA.
 Imperfect Digestion Most Prolific Cause of Serious Disease.
 Few people seem to realize the real dangers in disturbed, deficient or defective digestion. While health reports do not give indigestion as a real cause of death, yet it is in reality often fatal, as it so weakens the stomach that one becomes readily susceptible to an attack of typhoid fever, kidney disease, nervous prostration or other serious or fatal disease.
 At the first symptoms of indigestion, M-ona stomach tablets should be used. If there is a feeling of heaviness in the stomach, distress after eating, nervousness, dizziness, nausea, belching, sleeplessness, palis in the side and limbs, specks before the eyes, if a peevish, irritable condition, with debility and weakness, begin the use of M-ona at once.
 It will build up the stomach and digestive organs so that you can eat anything at any time without the fear of distress or indigestion.
 A 50-cent box of M-ona tablets will, in most cases, give prompt relief and cure, although in chronic and long-standing weakness of the stomach, two boxes or more are sometimes needed, but E. W. O'Hanlon guarantees M-ona will cure, in all cases, no matter how chronic or serious, or money will be refunded. You run no risk whatever in buying M-ona.

The "Piano & Organ Purchasers Guide,"
 of New York, Has the Following to Say About the Harvard Piano:
 "The Harvard piano has been before the musical public for many years and enjoys an enviable reputation as instrument of the better grade. As a piano of high musical quality the Harvard is popular with musicians, while its remarkable durability makes it a favorite with dealers throughout the country. Much has been added to the reputation of the Harvard through new scales created in 1904 and new and beautiful case designs which have recently made their appearance on the market. In tone quality the Harvard ranks high, its action, manufactured expressly for the Harvard is of high excellence and is well adapted to the use of both musician and student. The durability of the Harvard is insured by the use of an unusually fine class of material and the employment of skilled labor. The reputation of the Harvard and its position in the estimation of musician and dealer is advancing rapidly. Capacity of factory, 5,500 pianos per annum, incorporated in 1887."
 No comment on the above is necessary. We have a very complete stock and our prices are always lowest.
