DEATH OF BROTHER OF GOVERNOR GLENN

(By Publishers' Press.) RALEIGH, Nov. 3.—All offices in the State capital were closed at noon today on account of the death of E. T. B. Glenn, brother of Governor Glenn, at Macon, Ga., this morning. Governor Glenn had been with his brother in Macon several days, but left last evening for Raleigh, arriving here just a few minutes ahead of the telegram announcing the death. The news was a great surprise to the governor as he had been assured, after consultation of physicians yesterday afternoon, that while there was no hope for the recovery of his brother, he might live for weeks or months, so he determined to return to pressing official duties here and go back to his brother later to be with him in his last hours. The deceased was 46 years old. He leaves three children, a son and two daughters. He was accountant for the General of Georgia Railroad. The governor left for Macon this afternoon to attend the funeral.

LITTLE BOY MEETS WITH SAD DEATH

Lonnie, the eight-year-old son of Mr. J. P. Borge, who lives over W. T. Baynes' store at the terminus of the North Liberty street car line, was killed about five o'clock last evening by a most shocking accident. The boy was swinging on the rear of one of C. M. Thomas & Co's coal wagons when the driver, Albert McKnight, backed his team in the rear of the Baynes store to unload coal. The boy's head was caught between the brick wall and the wagon and crushed. Death followed in a few minutes. The boy's screams when he struck the wall were indeed heart-rending. The driver, who is deep grieved, says he did not know Lonnie was on the wagon, hence no blame is attached to him for the accident. Lonnie, who was a bright boy, was a pupil at the North Winston school, being in the second grade. He was at school yesterday.

The election of officers was deferred until the next meeting, November 12, when other business will be transacted.

Our New Hotel.

A prominent traveling man in speaking of the new Zanderford hotel a few days ago remarked: "I have traveled for several years the entire South and can safely say no city in the South has a better hotel or one that is better kept." This is just one of the many bouquets that have been thrown at Manager Kavanagh by the traveling fraternity.

REPUBLICANS ARE CATCHING AT THE LAST STRAW NOW

Realizing That Splendid Record of Present Board of County Commissioners Is Winning Many Votes for Democratic Ticket They Publish Circular in Effort to Create in the Minds of Voters Unwarranted Objection to These Excellent Men Who Have Handled County Finances so Well That Forsyth Now Has a Surplus on Hand—Has a Republican Board of Commissioners in Forsyth County Ever Closed a Term in Office With Such a Good Record?—An Unjust Attempt to Prejudice Voters.

Realizing the utter hopelessness of their cause unless some kind of unwarranted objection is lodged in the minds of the voters of Forsyth county against the present board of county commissioners Republicans are sending out a circular letter at this moment that is calculated to do injustice to the splendid business men who now manage the county affairs. The burden of this circular is as follows:

1. Statements from the two Democratic daily papers of Winston-Salem are printed with a view to showing that Democrats claimed in 1904 that the county was not then in debt a dollar except for the courthouse and that now Democrats are claiming that the present board has paid a debt owed by the former board in 1904. In other words the Republicans claim the Democrats admit in one place that the county owed a debt of \$10,000 in 1904 and in another say the county was free from debt then.

2. The circular letter claims that Democratic statements about county affairs are made for campaign purposes and that debts Democrats say they do not owe will turn up after election for the tax-payers to pay.

In the first place, it may be said that in 1904 when the present board was elected there was an indebtedness for current expenses of \$21,000. This amount had been borrowed by the former board in anticipation of 1904 taxes which of course had not been collected then. When the new board came into office they merely paid this amount out of the 1904 taxes without going into debt one cent. It was merely a current debt fully covered by 1904 taxes. In other words the debt the present board paid was purely and simply a debt contracted by the other board in anticipation of taxes of that year that the commissioners knew would be in hand at the proper time. The new board paid the amount due at the proper time. Thus, while the new board paid a debt of \$20,000, it was an account the payment of which without going in debt was fully anticipated. A Democratic attempt to deceive in this connection extends only in the imaginations of Republicans who are grabbing at the last

I wish to state for the benefit of any who may not have been advised, that the only indebtedness against the county of Forsyth is the courthouse bonds. The present board of county commissioners, during the past two years, paid off a floating debt of about \$21,000, besides building the modern county home, paying for same as bills were presented. These are facts and I believe in giving the present board credit for their splendid management of the county's affairs. Not a dollar of 1906 taxes has yet been touched.

H. W. LINDSAY, Clerk Board County Commissioners

JAPANESE WILL NOT APPEAL TO COURTS

(By Publishers' Press.) SAN FRANCISCO, Nov. 3.—Significant action was taken by the Japanese this afternoon when they denied the suit begun some time ago to force the authorities to admit Japanese children to all the public schools of San Francisco. It is urged by an attorney that from now on the Japanese will make no effort to gain the exclusion through court process, but will stand firmly on their treaty rights and demand that the Washington government send the children back into the schools from which they have been barred by the board of education. Four points of these claims seeking justice were:—They advance to claim of a people whose rights are being violated in a country which enters into a formal pact with their sovereign to extend them all the privileges except as to competing the most favored nation clause of international treaties.

MACHINISTS' STRIKE HAS BEEN SETTLED

(Special to The Sentinel.) WASHINGTON, Nov. 3.—The strike of machinists on the Southern Railway which was inaugurated recently for an increase in wages was settled today.

An amicable adjustment has been reached with the committee of machinists, under which the strike will be declared off and the men now on strike will return to their old positions Monday morning, November 5, without prejudice on account of the strike. The men who remained with the company are to continue at work. Those who have been employed since the strike will be retired from the shops before Monday morning, but without prejudice as to their continued employment by the company in other places, or as to their future employment in the shops if needed. Special instructions will be issued as to how to proceed with these new employees. The wages offered by the company to the machinists prior to the strike are to apply from November 5th and the company's proposition to arbitrate the difference between that scale and the demand of uniform advance of two cents per hour for machinists and one per cent an hour for apprentices, has been accepted and the arbitration will be arranged for under the plan and basis suggested by the company as promptly as practicable.

This adjustment took place at a conference in New York, today between the Hon. Seth Lee, chairman conciliation committee, H. M. Casley, chairman executive council Everett Macy and H. S. Donnelly, members National Civic Federation, the officers of the Southern Railway, the president of the International Machinists Union and local committee of the Southern Railway machinists.

MANILA INCIDENT

United States Will Doubtless Take Up Action of Japanese Officer With Japanese Government.

However, it is not thought that attempt of Japanese officer to make drawings of Manila fortifications will lead to serious complications between United States and Japan in view of friendly relations.

(By Publishers' Press.) WASHINGTON, Nov. 3.—It is stated on the highest authority today that unquestionably diplomatic representations will be made by this country to Japan on account of the detection of a Japanese officer making sketches of the fortifications at Manila. No serious consequences, however, are expected. Unlike continental powers the United States has no law making it a penal offense for a person to sketch or photograph its fortifications. It was explained at the war department today that there is no such thing as a spy in the time of peace. While no one doubts that the Japanese officer was a regular army officer it is equally certain Japan will deny all knowledge of his doings and will express most profound regret that one of her officers should "without warrant from his government" transgress in such an unfriendly way.
