FUEL SCARCITY IN NORTHWEST

Senator Hansborough, of North Dakota, Talks With President Roosevelt on the Subject.

He Says Railroad Officials Are Largely Responsible For Suffering Entailed By Lack of Coal By Failure to Attend To Their Business Duties—Wants Powers of Interstate Commerce Commission Increased.

(By Publishers' Press.) WASHINGTON, Dec. 19.—Senator Hansborough, of North Dakota, thinks the reason for the coal shortage in the Northwest, which is causing disastrous fuel famine, is due to the fact that the big railroad men do not give enough attention to their duties.

The senator had a talk with President Roosevelt today on the subject. On leaving he expressed his opinion freely of the railroad men: "If the big railroad men would spend more time managing roads and less (trifling about the swif) hotels in dress suits there would not be as many shortages of coal to cause suffering and death in remote parts of the country," was his expression.

RODE THROUGH CONTEST WITH BROKEN RIB

(By Publishers' Press.) NEW YORK, Dec. 19.—Eddie Root, one of the winning team in the sixty bicycle race, rode through the week's contest with a broken rib. The accident happened the first day in a spill. Root told no one as he feared he would be disqualified. He had the rib set and bandaged today. He confessed he endured terrible agony during the sprint for the lead but stuck to his wheel. He was afraid to try in the final sprint, however, and asked Fogler, his partner, to make the ride which won for them.

TERRORISTS ARE AT WORK AGAIN

Have Resumed Their Attempt to Overthrow the Government of Russia.

Bomb Thrown At Chief of Police of Lodz, Poland, Today, But He Was Only Slightly Hurt—Other Acts Indicate That Reign of Terror is Being Resumed.

(By Publishers' Press.) LODZ, Poland, Dec. 19.—Another attempted assassination here today shows that terrorists have really resumed the campaign to overthrow the government by violent means. Two bombs were thrown at the chief of police while he was driving in the principal street. A horse drawing the carriage and driver were killed, but the chief escaped with slight injuries. Dragons acting as an escort were mortally wounded.

POLICE OFFICER IS FULLY VINDICATED

(Special to The Sentinel.) GREENSBORO, Dec. 19.—At a meeting of the board of aldermen held in the city clerk's office last night, an investigation of the shooting of George Wilson, a negro, by Policeman Skeens was made and resulted in the officer's complete vindication. The board held that, while the shooting was unfortunate, the officer did not exceed his authority, nor do anything in violation of law.

Much interest has been manifested in this case. The officer had arrested the negro on the charge of drunkenness, and while taking him to the police station the negro broke away and ran. The officer shot, and the ball took effect in the negro's back, injuring him seriously. It was at first thought that the wound would prove fatal, but the negro is now a great deal better. He may never be able to walk again.

At the hearing last night there was a large number of people, and several witnesses were examined. Col. J. A. Barringer appeared for the officer, and Broadhurst and Stern appeared for the relatives of the injured man. All of the attorneys made brief speeches.

The city has decided to close up the market building beneath the City Hall and rent the rooms for other purposes. The city market has never paid the municipal government near the worth of the building and expenses.

The indications are that the administration tickets won a sweeping victory. The international policy-holders' committee will not admit defeat but it is known to be preparing to challenge in court the proxies voted by the administration.
