DR. LATSON ON CARE OF BABIES

(By Dr. Edward Latson.) Babies are long suffering. In the summer they are sweltered in heavy clothing and so confined that they can hardly move, let alone krek, squirm and crawl in the way that all babies love. In the winter they are smothered for lack of air. At any season they are overfed and cuddled.

No wonder that more than half of all babies born die during the first five years!

Now, the first point in the winter care of the baby is to feed it properly. Of course the quantity depends upon the child's age. Generally the mistake is giving too much. As to frequency of meals, however, it is safe to say that no child should be fed oftener than four times a day—three times is usually better.

The child needs much fresh air, even in cold weather. Warmly covered, he should be taken out doors every day and allowed to breathe the Lord's good fresh air.

Indoor clothing should be loose and not too heavy, so that he can move freely. The nursery should always be well ventilated, and the baby's surroundings should at all times be as quiet and cheerful as possible.

COMMITTS SUICIDE AT NIAGARA FALLS

(By Publishers' Press.) NIAGARA FALLS, N. Y., Dec. 29.—A woman supposed to be Mary Hagan, of Buffalo, committed suicide yesterday morning by jumping into the river five hundred feet above the American Falls. She was swept over the brink in view of several people. The woman took off her cape and laid it beside the satchel in which was \$2.50, then waded into the stream. James Van Slyke, of St. Louis, saw her, but could not reach the spot in time to prevent the deed.

INSTITUTE WHICH IS A POWER FOR GOOD

After Being a Victim of Strong Drink for Ten Years—Praises Keeley for Permanent Cure.

In 1896, after having spent ten years of my life a victim of strong drink, I decided to go to the Keeley Institute at Greensboro, N. C., for treatment. When I arrived at the Institute I was a physical wreck, unable to do any kind of work. I could not eat anything, and I could have lived but a short time if I had not received help. I determined that false pride should keep me away no longer, and thank God I went. During the four weeks that I was at the Institute I gained in weight about thirty-eight pounds. I certainly could not have quit the habit without taking the treatment, for I was helpless in its grasp. When I came home I was ashamed of no one; I was proud of the opportunity of telling my friends of my great deliverance. Eight years have elapsed and I have not taken a drink of intoxicants nor have I wanted any. The effect of the Keeley Treatment is marvelous; it takes away from man that great desire for drink caused by its long continued use. It cures equally well those afflicted with the drug habit. The Keeley Institute places those who take the treatment exactly where they were before they acquired the habit for strong drink or the drug habit. I personally know many who have been cured and have remained so. It is no humbug. It is no experimental work, because the efficacy of the treatment and its power for good are thoroughly established. It is doing a grand and noble work for the moral and physical uplifting of mankind.

U. S. COMMISSIONERS WANT CONCESSIONS

(By Publishers' Press.) BERLIN, Dec. 29.—American tariff commissioners here to discuss with German commissioners a new commercial treaty between the United States and Germany are endeavoring to secure concessions whereby American cattle can be eventually shipped to Hamburg, slaughtered there and the meat sold throughout Germany. So far German commissioners refuse to agree to this. They say it would only create a new field of activity for the American beef trust.

ANTHONY COMSTOCK WAS NOT REMOVED

(By Publishers' Press.) NEW YORK, Dec. 29.—Anthony Comstock, for thirty-four years post-office inspector, earning the sobriquet of the "Great American Censor," has been deposed, says a dispatch from Washington, confirming a previous report. Comstock was deposed on account of his crusade against the Art Students' League whose magazine he confiscated. He caused the arrest of a young woman bookkeeper. The members complained to Washington offices and while preparing the case against her Comstock was removed.
